The trial mining operation is expected to commence mining by the end of November 2017 and should be completed by April 2018. The trial mining operation is planned to extend the depth of the current open pit by approximately 20 metres. Currently the Pit is being dewatered and redevelopment of access to base of the pit.

Mr Brett Hodgins, President and CEO, said "We are extremely pleased by the transaction entered into with Eureka Mines Pty Ltd for the recommencement of a trail mining operation at the Eureka Project. This revitalisation of the Eureka Project will allow significant cost reductions in future exploration drilling and allow for an expanded Eureka operation in the short term.

This reinforces CIO's strategy to create and realise value through mineral asset discovery, managing a portfolio of mineral assets, project development de-risking and commercialisation of those assets. This transaction allows a focused exploration campaign on our higher priority exploration targets."

#### **EUREKA GOLD PROJECT**

The Eureka Gold Project is approximately 50km North of Kalgoorlie in Western Australia and covers an area of 563 hectares. The Eureka Gold Project includes the Eureka open pit gold mine which is 100% owned by CIO and is NI43-101 compliant.
