Meluka Health to Develop Honey Water for Chinese Market

Co-operation Agreement Signed With Refresh Group for Product Development

EVE Investments (ASX:EVE), an ASX-listed technology investment company, is pleased to provide an update on Meluka Health.

Agreement to develop a medicinal honey water

Meluka Health has entered into a Joint Development and Co-operation Agreement with Refresh Group Limited (ASX:RGP) (Refresh). The agreement involves the development of a honey water product range for Australia as well as the Chinese market. Refresh is Australia's largest producer of distilled drinking water with six bottled water factories in four States. Refresh will cooperate with Meluka Health to develop a honey water product range utilising organic Meluka honey produced by Meluka Health. Combining the two uniquely Australian products will create a new product to cater for strong demand from China for natural food based products that have additional health benefits.

Ben Rohr, Investment Director of Eve Investments, said:

"Working with Refresh to produce a honey water product is a great fit for the Chinese market and will help establish the Meluka Honey brand in China. This is a great first step for Meluka Health to enter into this burgeoning market."

Henry Heng, Chairman of Refresh Group, said:

"Adding an exceptional product like a Meluka honey water to our established water range is a perfect fit for Refresh to continue its growth into China. We are looking forward to collaborating with Meluka Health to create a unique Australian Honey Water."

About Meluka Health

Meluka Health is a wellness and nutrition company that develops and sells its naturally derived, organic and ecologically pure products created using its old growth Australian Melaleuca tea tree plantation which are worldly acclaimed for their medicinal activity. Meluka Health is currently focused on producing high quality organic medicinal honey and the development of a bee health tonic.
