Advanced Share Registry Limited (**ASX:ASW**, The Company) advises that the pre-tax operating profit for the half year ending 31 December 2017 is estimated to be approximately \$1,430,000 (2016: \$1,515,385). The Company experienced increased activity during the annual reporting season, but noted a decline in significant corporate actions that had been present during the early months of last financial year which contributed to last year's December result. The Company anticipates operations will continue at normal levels during the remainder of the year.

The Company intends to pay a fully franked interim dividend out of profits for the half year to December 2017, the amount of which will be advised once the final profit for the period has been determined. The dividend is intended to be paid in February 2018.
