YOJEE SINGAPORE LAST MILE LOGISTICS NETWORK UPDATE

HIGHLIGHTS

- Almost 700% growth in deliveries on Yojee's Singapore last mile network over last six months
- 34% month on month growth and 150% growth for December month alone
- Service levels maintained market leading performance despite enormous growth
- Deliveries completed by software partners and network of over 1300 freelance drivers
- Good mix of B2C e-commerce both local and international sources, B2B and C2C
- 76% of corporate senders were repeat senders

Yojee Limited (**Yojee** or the **Company**) (ASX: **YOJ**), the technology company utilizing artificial intelligence (**AI**) and blockchain technology to create a seamless regional freight network and best in class software as a service product for businesses of all sizes, is pleased to announce significant growth and strong performance results in its Singapore last mile logistics network.

Last mile deliveries on Yojee's Singapore network grew quarter on quarter at 34% over the last six months, and 150% over the last month, to achieve an almost 700% over the same period. However, performance standards maintained market leading performance despite the enormous growth experienced on the Yojee network in Singapore.

The strong mix of B2C e-commerce, from both local and international sources, B2B and C2C was particularly encouraging and illustrated the broad appeal of Yojee's network platform. Equally encouraging was that 76% of repeat customers were corporate senders.

Deliveries on Yojee's Singapore last mile logistics network are completed by Yojee software partners and a network of over 1300 freelance drivers with orders placed through API integrations with e-commerce platforms and through direct agreements with merchants and freight forwarders.

Mr Ed Clarke, Managing Director of Yojee said, “Yojee continues to execute well on its last mile delivery services in Singapore by leveraging both its network of freelance drivers and delivery partners that utilise the company’s software. The Company has a solid pipeline of opportunities and we anticipate further strong growth in 2018.”

FORWARD LOOKING STATEMENT AND DISCLAIMER

Please note that images used in the Company's ASX announcements are to illustrate concepts only and are not intended to represent commercial Yojee images.

Certain statements contained in this asx release, including information as to the future financial or operating performance of the Company and its projects, are forward looking statements. Such forward looking statements:

- (a) are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies;
- (b) involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements; and
- (c) may include, among other things, statements regarding estimates and assumptions in respect of prices, costs, results and capital expenditure, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions. The Company disclaims any intent or obligation to publicly update any forward looking statements, whether as a result of new information, future events or results or otherwise.

The words “believe”, “expect”, “contracted”, “anticipate”, “indicate”, “contemplate”, “target”, “plan”, “intends”, “continue”, “budget”, “estimate”, “may”, “will”, “schedule”, “planned” and similar expressions identify forward looking statements. All forward looking statements contained in this asx release are qualified by the foregoing cautionary statements. Recipients are cautioned that forward looking statements are not guarantees of future performance and accordingly recipients are cautioned not to put undue reliance on forward looking statements due to the inherent uncertainty therein.
