

ASX Announcement

19 January 2018

Ian Lynass Joins Tempo to Lead Strategy and Development

Tempo Australia Limited (ASX: TPP) has appointed former BIS Industries head Ian Lynass to the role of Vice President – Strategy and Corporate Development, effective 22 January 2018.

Chief Executive Officer and Managing Director, Max Bergomi said that Mr Lynass will complement and strengthen Tempo's executive leadership team as the company looks towards future growth.

"Ian brings a wealth of experience and knowledge in the defence, steel and petrochemical sectors, with direct and recent exposure to the mining industry," said Mr Bergomi.

"He is a strategic, high performing leader who has a strong understanding of the opportunities and challenges in the current market," he said.

Mr Bergomi said that with Tempo's recent diversification into new industries such as electrical maintenance, renewables and power, Mr Lynass' appointment is well-timed to capitalise on signs of recovery in the mining and mineral market.

Most recently, Mr Lynass served as Chief Executive Officer and Managing Director of BIS Industries since 2010, following a further nine years in senior executive roles with the company including Director, BIS Industrial Logistics, Western Division.

Mr Bergomi said that the appointment of Mr Lynass is consistent with Tempo's commitment to investing in strong leadership.

"In particular, we seek to target individuals who embrace our strong values and culture, as we endeavour to find the best solutions for our customers," said Mr Bergomi.

"I am excited to welcome Ian on board, and look forward to his contribution to the growth of Tempo Australia."
