Perth WA 6000

Dear Sir/Madam

Quarterly Report for the Period Ended 31 December 2017

Nex Metals Explorations Ltd (Nex or the Company) provides the following update on recent Company activities.

- Kookynie Gold Tailings
- Evaluation of various projects.

Kookynie Gold Tailings

Late October 2017, Nex Metals drilled 104 aircore drill holes over the Cosmopolitan and Cumberland historic tails dumps to test the full geochemical depth profile of the dumps. Due to the era of these historic mines, there was uncertainty associated with the remaining grade of these tails dumps. As the Cosmopolitan and the Cumberland tails dumps were the thickest, it was decided that the previously reported soil sampling was insufficient in ascertaining the true nature of the overall grade of the dump. As such Gyro Australia Pty Ltd of Kalgoorlie was contracted to test the full depth profile of the tails dumps. Drilling was completed on a approximate 20 x 20 m grid over all the Cumberland (N=23) and Cosmopolitan (N=81 holes) tails dumps.

All drilling was vertical and drilled down until the natural surface was intersected. Drilling typically was terminated 1m into the natural surface. One metre spear samples were completed and industry certified standards were inserted at a frequency of one in every 50 samples. Samples were submitted to Bureau Veritas Minerals Pty Ltd of Kalgoorlie for gold analysis using a 50 gram fire assay with a AAS finish (0.01 ppm lower detection). Results are expected in January 2018.

The Company during the quarter continued to develop its processing strategies based on previous work including the inclusion of encouraging scheelite (tungsten) tests, the company is expecting the results of the scheelite study during the next quarter.

Evaluation of Projects

The Company continues to have projects presented to it for evaluation during the past quarter extending from Gold, base metals, copper and heavy mineral sands.

Administration

The Company has funds due from outstanding debtors of \$160,000. Research and Development tax offset was lodged and received during the quarter.

The Company continues to manage the Kookynie Gold project.

Responsibility Statement

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Rob L'Heureux, who is a Member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (Canada). Mr. L'Heureux M.Sc., P.Geol., who is a full-time employee of APEX Geoscience Australia Pty Ltd., has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. L'Heureux consents to the inclusion in this report of the matters based on their information in the form and context in which it appears.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
