**INDEPENDENT AUDITOR'S REVIEW REPORT  
TO THE MEMBERS OF WANGLE TECHNOLOGIES LIMITED AND ITS CONTROLLED ENTITIES**

**Report on the Half-Year Financial Report**

We have reviewed the accompanying half-year financial report of Wangle Technologies Limited "the Company" and its controlled entities "the Group", which comprises the condensed consolidated statement of financial position as at 31 December 2017, the condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

*Directors' Responsibility for the Half-Year Financial Report*

The directors of the Group are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

*Auditor's Responsibility*

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2017 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

*Independence*

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Wangle Technologies Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

**INDEPENDENT AUDITOR'S REVIEW REPORT  
TO THE MEMBERS OF WANGLE TECHNOLOGIES LIMITED AND ITS CONTROLLED ENTITIES**

*Conclusion*

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Wangle Technologies Limited (the "Company") and its controlled entities is not in accordance with the *Corporations Act 2001* including:

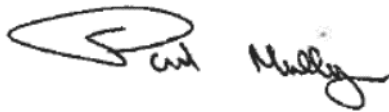

- a) giving a true and fair view of the Group's financial position as at 31 December 2017 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

*Material Uncertainty Related to Going Concern*

We draw attention to Note 2.4 in the financial report, which indicates that Wangle Technologies Limited incurred a net loss of \$3,772,940 during the half-year ended 31 December 2017 and, as of that date, a net cash outflow from operating and investing activities of \$1,139,518. These conditions, along with other matters as set forth in Note 2.4, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter

This interim financial report does not include all the notes of the type normally included in an annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial statements. Accordingly, this financial report is to be read in conjunction with the annual financial statements for the year ended 30 June 2017 and any public announcements made by Wangle Technologies Limited during the interim reporting period in accordance with the continuous disclosure requirements arising under the Corporations Act 2001 and the ASX listing rules.

The same accounting policies and methods of computation have generally been applied in these half-year financial statements as compared with the most recent annual financial statements.

### 2.2. SIGNIFICANT ACCOUNTING JUDGMENTS AND KEY ESTIMATES

The preparation of interim financial reports requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expense. Actual results may differ from these estimates.

In preparing this interim report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 30 June 2017.

### 2.3. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The AASB has issued new standards, amendments and interpretations to existing standards which have been published but are not yet effective and have not yet been adopted early by the Group. The new standards, amendments and interpretations that may be relevant to the Group's financial statements are provided below.

Standard / Interpretation	Effective for annual reporting periods beginning on or after
AASB 9 <i>Financial Instruments</i> and AASB 2010-7 <i>Amendments to Australian Accounting Standards arising from AASB 9 (December 2010)</i>	1 January 2018
AASB 15 <i>Revenue from contracts with customers</i> AASB 15 <i>Revenue from Contracts with Customers</i>	1 January 2018

## 2.4. GOING CONCERN

The Directors have reviewed the business outlook and cash flow forecasts and are of the opinion that the use of the going concern basis of accounting is appropriate as the Directors believe the Group will be able to pay its debts as and when they fall due.

The financial statements are normally prepared on the assumption that the Group is a going concern and will continue in operation for the foreseeable future. Hence, it is assumed that the Group has neither the intention nor the need to liquidate or curtail materially the scale of its operations; if such an intention or need exists, the financial statements may have to be prepared on a different basis, and, if so, the basis used is disclosed.

The Statement of Comprehensive Income shows the Group incurred a net loss of \$3,772,940 (31 December 2016: \$923,118) during the half year ended 31 December 2017 which included an impairment to capitalised development expenditure of \$2,745,381. The Statement of Financial Position as at 31 December 2017 shows that the Company had cash and cash equivalents of \$1,113,134 (30 June 2017: \$922,745) and a net current liabilities position of \$710,717 (30 June 2017: net current liabilities \$752,041).

- The Group's ability to continue as a going concern and pay its debts as and when they fall due is dependent upon the following:
- The Group keeping both administrative and development costs to a minimum through careful cost management, which includes, but not limited to, the reduction of development costs and scaling back of the Company's marketing strategy.
- The Group raising additional capital via any means available to it inclusive of, but not limited to, placements, option conversions, rights issues, or joint venture arrangement in a timely manner in order to fund the ongoing exploration and operation activities. The Company has an executed capital raising mandate seeking to raise \$2,000,000 through the issue shares. The required shareholder approvals are being sought at the Company's upcoming General Meeting to be held on 12 March 2018.

Under the Research and Development Tax Incentive Scheme, the Company is eligible to receive a cash rebate of up to 43.5% of the Group's development expenditure. Previous cash rebates for the years ended 30 June 2016 and 30 June 2017 have been \$739,870 and \$1,198,899, respectively. The Company is expecting to submit an application for the 30 June 2018 year for a claim within this range.

The board has reviewed the Group's financial position and forecast cash flows and have assessed that the Group will be required to raise additional funds by way of issuing equity or other alternative funding arrangements.

The directors reasonably expect that the Group will be able to meet future costs associated with its operating and exploration activities for at least the next 12 months. The directors are therefore of the opinion that the use of the going concern basis is appropriate in the circumstances.

Should the Group not be successful in obtaining adequate funding, there is material uncertainty as to the ability of the Group to continue as a going concern and it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business and at amounts different to those stated in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount of liabilities that might result should the group be unable to continue as a going concern and meet its debts as and when they fall due.

In relation to the current organisational structure of Wangle Technologies Limited and its consolidated entities, funding requirements at subsidiary level are supported through intercompany loans from the parent company. Funds transferred to the Australian based subsidiary company (Wangle Operations Pty Ltd) are in accordance with the operation budget of the Group.

The operation budget has been prepared in consultation with the board of directors and key management personal. Funds are sent through a cash call process which complements the operation budget. Expenditure incurred at subsidiary level is primarily development costs associated with the Wangle App and as a result expenditure is capitalised.

During the period, \$2,745,381 was recognised as a provision for impairment on the intellectual property and capitalised development costs. This was based on a conservative review of the recoverable value of the relevant assets using a value-in-use model. Based on a 5-year present value net cash flow, the asset was deemed to have a carrying value of approximately nil as at 31 December 2017. Therefore, a full impairment has been recognised.
