

TROY RESOURCES LIMITED

ASX ANNOUNCEMENT

9 April 2018

RECORD GOLD PRODUCTION IN MARCH 2018 QUARTER

Troy Resources Limited (**ASX: TRY**) (**Troy** or the **Company**) is pleased to advise that the Karouni operation in Guyana has achieved a **record gold production of 21,703 ounces** in the March 2018 quarter.

This production figure is well in excess of budget, 35% higher than the December 2017 quarter production of 16,109 ounces and 8% higher than the previous record quarterly production of 20,195 ounces established in the March quarter 2016.

Troy Managing Director, Mr Ken Nilsson, said today:-

“Excellent grades from the Smarts 3 pit together with a strong performance by mining and processing have enabled the Company to beat budget and set a record quarter of gold production for the Karouni project.

“The production budget for future quarters is set at an amount slightly below that of this record quarter.”

The Company will release to the market its full March 2018 quarterly report in late April 2018.
