Korab Resources Ltd ("Korab", or "Company") (ASX: KOR) advises that it has resolved to raise funds by way of a placement of up to 4 Mln shares at 5 cents each to un-related exempt investors.

This placement is to be completed within existing 15% share placement capacity and no shareholder approval is required.

The issue price of 5 cents per share is approximately 3% below 5 day volume weighted average traded price and approximately 2% above the last traded price of 4.9 cent per share. The share issue will constitute approximately 1.3% dilution of issued capital held by Korab's shareholders immediately prior to this placement.

The Company used a placement of shares instead of a pro-rata share issue due to the time constraints, the relatively small size of the issue and high cost of conducting a pro-rata issue. There is a 6% commission payable on this placement. Funds will be used for working capital and to reduce debt.

ABOUT KORAB RESOURCES

Korab Resources Ltd is an international mining and exploration company with operations in Australia and Europe. Korab's projects include Winchester magnesium carbonate deposit and Geolsec phosphate rock deposit at Batchelor in the Northern Territory of Australia, as well as a gold and silver deposit at Bobrikovo in eastern Ukraine. The Company also explores for cobalt, gold, nickel, copper, zinc, lead and silver, as well as specialty minerals at Batchelor and at Green Alligator in the Northern Territory and for gold and copper at Mt. Elephant/Ashburton Downs in Western Australia. More information about Korab's projects can be sourced from Korab's website at www.korab.com.au. Korab's shares are traded on Australian Securities Exchange (ASX) and on the Berlin Stock Exchange (Berliner Börse) through Equiduct electronic trading platform.

DISCLAIMER AND CAUTIONARY STATEMENT

Forward-looking statements are statements that are not historical facts. Words such as "expect(s)", "expected", "feel(s)", "believe(s)", "will", "may", "anticipate(s)", "should", "envisage(s)" and similar expressions are intended to identify such forward-looking information. This information includes, but is not limited to statements regarding future exploration results, resources, or reserves, and production. Anyone reading this report is cautioned not to place undue reliance on these forward-looking statements. All of such statements are subject to risks and uncertainties (many of which are difficult to predict and which generally are beyond the control of the Company) that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to: those relating to the interpretation of exploration results (including drill results), the geology, grade and continuity of mineral deposits and conclusions of economic evaluations; risks relating to possible variations in reserves, grade, mining dilution, ore loss, and recovery rates; risks relating to changes in project financial and technical parameters; risks relating to the potential for delays in exploration programs, project evaluation/review, completion of feasibility studies and project development; risks related to commodity prices and foreign exchange rate fluctuations; risks related to failure to secure adequate financing on a timely basis and on acceptable terms; risks related to delays in obtaining governmental, or other permits and approvals; risks related to security of tenure; and other risks and
