31 March 2018 Quarterly Report clarification

Galaxy Resources Limited ("Galaxy" or the "Company") (ASX: GXY) advises that as at 31 March 2018 it had a cash balance of US\$60.8 million and no debt.

As set out in the Quarterly Report, during the quarter ASX advised that Galaxy's classification has changed from a mining exploration entity to a mining producing entity. Accordingly, Galaxy is no longer required to lodge appendix 5B's but will now be required to lodge preliminary final reports (Appendix 4E) and half yearly reports (Appendix 4D) within two months of the end of the relevant accounting period.

About Galaxy (ASX: GXY)

Galaxy Resources Limited ("Galaxy") is an international S&P / ASX 200 Index company with lithium production facilities, hard rock mines and brine assets in Australia, Canada and Argentina. It wholly owns and operates the Mt Cattlin mine in Ravensthorpe Western Australia, which is currently producing spodumene and tantalum concentrate, and the James Bay lithium pegmatite project in Quebec, Canada.

Galaxy is advancing plans to develop the Sal de Vida lithium and potash brine project in Argentina situated in the lithium triangle (where Chile, Argentina and Bolivia meet), which is currently the source of 60% of global lithium production. Sal de Vida has excellent potential as a low-cost brine-based lithium carbonate production facility.

Lithium compounds are used in the manufacture of ceramics, glass, and consumer electronics and are an essential cathode material for long life lithium-ion batteries used in hybrid and electric vehicles, as well as mass energy storage systems. Galaxy is bullish about the global lithium demand outlook and is aiming to become a major producer of lithium products.

Caution Regarding Forward-Looking Information

This document may contain forward-looking statements concerning Galaxy.

Forward-looking statements are not statements of historical fact and actual events and results may differ materially from those described in the forward-looking statements because of a variety of risks, uncertainties and other factors.
