

Listing Rule Chapter 12.1

The provisions of ASX Listing Rule 12.1 require that the level of an entity's operations must, in the ASX's opinion, be sufficient to warrant the continued quotation of the entity's securities and therefore its continued listing.

PLC Financial Solutions Limited has been afforded a period of six (6) months, to the close of business on 30 October 2018 to demonstrate compliance with Listing Rule 12.1.

The Board have reviewed a number of proposals and investments - several have already been considered and rejected and there is always ongoing review of new and potential investment opportunities, however, as at current date these potential investments have not reached a stage which requires disclosure under ASX Listing Rule 3.1.

For and on behalf of the Board

Eryn Kestel
Company Secretary
