This Presentation ("Presentation" or the "Document") has been prepared by Galileo Mining Ltd (ACN 104 114 132) ("Company") and is general background information about the Company and its wholly owned subsidiaries activities as at the date of this Presentation. This Document is prepared for the benefit and internal use of the recipient (the "Recipient"). It is provided on a confidential basis and the Recipient cannot reproduce in whole or in part any information provided in this Presentation or communicate the information of this Presentation to any third party without the prior written consent of the Company. This Document has been prepared on the basis of publicly available information and certain confidential information. The Company has relied upon and assumed, without independent verification, the accuracy and completeness of all such information, including forecasts. It contains selected information and does not purport to be all inclusive or to contain all of the information that may be relevant to the Document. The Company, its affiliates, officers, directors, employees and agents do not accept responsibility or liability for this Presentation or its contents (except to the extent that such liability cannot be excluded by law). No representation or warranty is made as to the Presentation's accuracy or completeness and the Company assumes no obligation to update the Presentation's information contained herein. Any requests for information in connection with this Document should be addressed directly to the Company and to no other party.

This Presentation may contain forward-looking statements that involve risks, uncertainties and other factors concerning, among other things, the Company's expected financial performance and strategic operational plans. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company. The Company's actual results could differ materially from the results expressed or implied by such forward-looking statements, and reported results should not be considered as an indication of future performance. It is not possible to accurately predict the future revenues or profitability of the Company or whether any revenues or profitability will eventuate. The business of the Company is dependent upon a number of factors and many of these factors are outside the control of the Company.

This Document is not a prospectus under Australian law. This Document is provided to you on the basis that you are a sophisticated, professional or other investor who would not require a disclosure document because of section 708 of the Corporations Act 2001 (Cth). As it is not regulated by the Corporations Act, this Presentation does not purport to contain all of the information that would be contained in a prospectus or that recipients may require in order to evaluate whether to invest in the Company. Any recipient of this Presentation is responsible for conducting their own due diligence and other enquiries as well as making their own analysis and their own independent assessment of the information provided herein. You may wish to consult your broker, solicitor, banker, accountant or other professional advisor about its contents. Any decision to rely on the information contained in this Presentation is the sole responsibility of the recipient of this Document and the Company will not be responsible for any loss incurred by the Recipient as a result of any actions taken by them. The Company represents a speculative business and involves a high degree of risk.

Nothing in this Presentation constitutes the provision of financial or legal advice. The Recipient should consider its own financial situation, objectives and needs, and conduct its own independent investigation and assessment of the contents of this Document, including obtaining investment, legal, tax, accounting and such other advice as it considers necessary or appropriate. Further, nothing in this Presentation constitutes an offer for the sale of securities. This Presentation does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. The distribution of this Presentation (including in electronic form) outside Australia may be restricted by law and persons who come into possession of this Presentation outside Australia should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The information contained in this Presentation is prepared as of 29th May 2018. Neither the delivery of this Presentation nor any offer, issue or sale contemplated by this Presentation at any time implies that the information contained in it is correct, that any other information supplied in connection with an offer of shares is correct or that there has not been any change (adverse or otherwise) in the financial conditions or affairs of the Company at any time subsequent to the preparation date. In particular, the Company is not under any obligation to any person to update this Presentation at any time including after an issue of shares.

Competent Person Statement

The information in this Presentation that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Michael Elias, who is a Fellow of The Australasian Institute of Mining and Metallurgy. Mr Elias is employed by CSA Global Pty Ltd. Mr Elias has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity he is undertaking to qualify as a competent person as defined in the 2012 Edition of the "Australasian Code for reporting of Exploration Results, Exploration Targets, Mineral Resources and Ore Reserves". Mr Elias consents to the inclusion in this Presentation of the matters based on his information in the form and context in which it appears.

Norseman Exploration

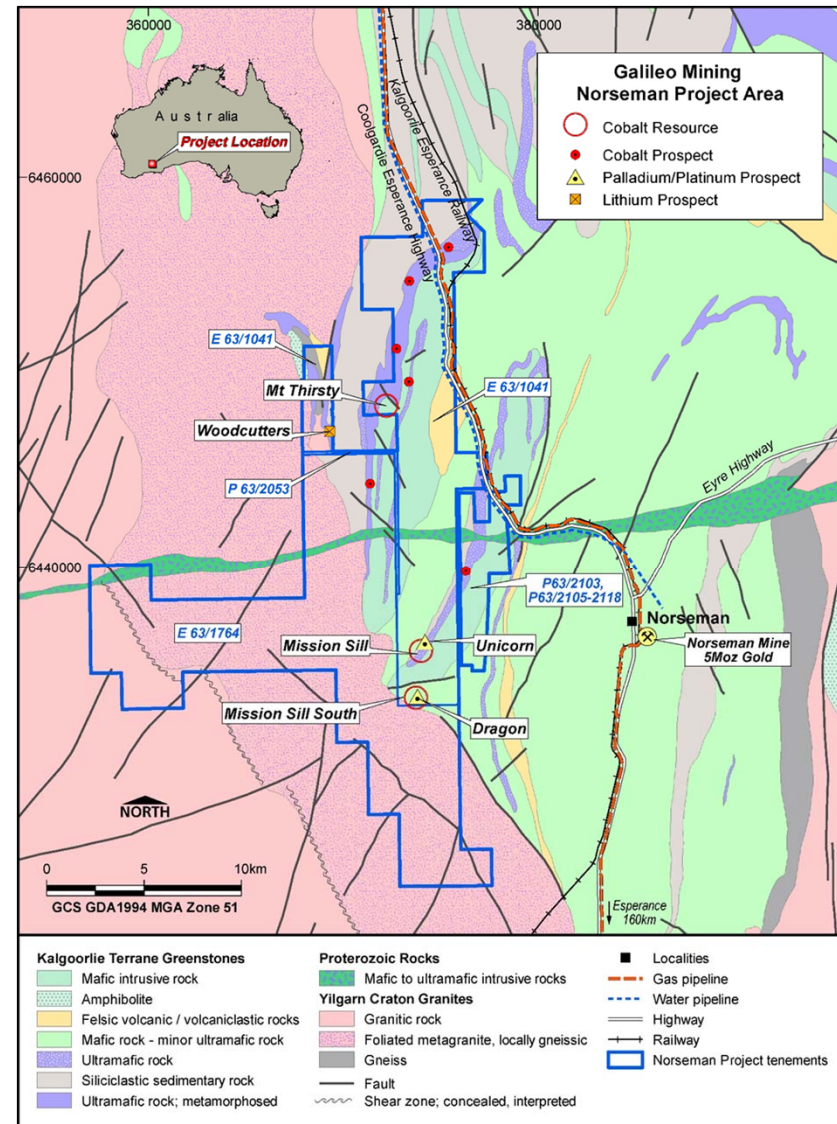

Exploration Target*

- 10-20 Mt @ 0.1 to 0.12% cobalt exploration target
- Dominant land holding
- Resource extensions
- 6 identified targets
- 15,000m drilling program

Palladium/Platinum

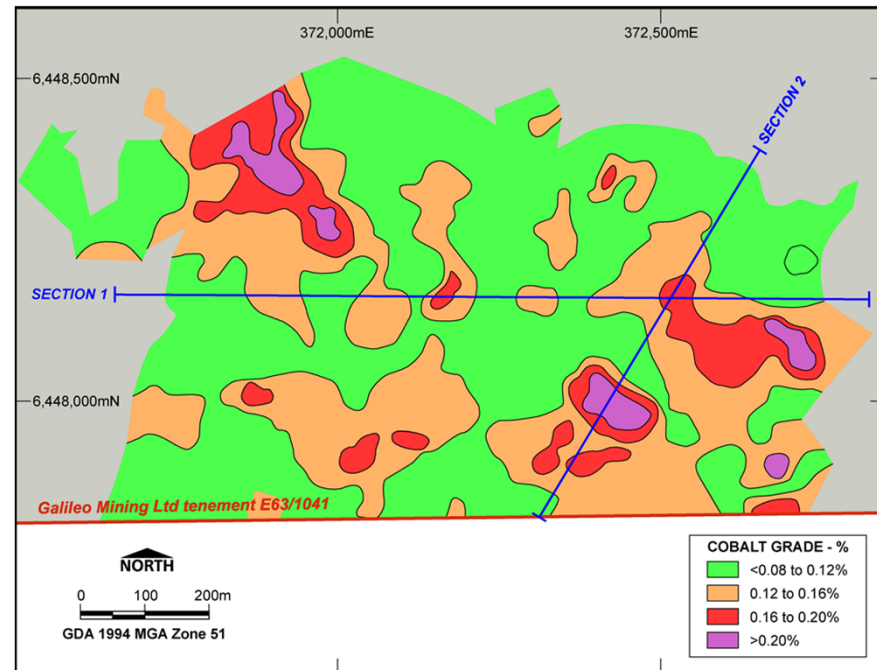

- 20m @ 1.3ppm Pd & 0.8ppm Pt from 30m (MTRC112)
- Native Palladium and Sperrylite

* The potential quality and grade of the exploration target is conceptual in nature and there has been insufficient exploration to estimate a mineral resource. As such, it is uncertain if further exploration will result in the estimation of a mineral resource. See CSA Independent Technical Report in the Galileo Mining Ltd Prospectus for more information. <https://www.asx.com.au/asxpdf/20180525/pdf/43v9b2cxrhqmqk.pdf>

Plan and section

- Shallow flat lying ore-body, 20-30m deep
- 0.7 strip ratio (ore > waste)
- Contiguous high grade
- Cobalt rich asbolite in clay matrix

Phase 1: Ore characterisation (1-2 months)

- Diamond drilling to obtain core for variability testing
- Detailed mineralogy, XRD, QEMSCAN

Phase 2: Lab and pilot scale tests (3-4 months)

- Identification of best pathway for Cobalt & Nickel recovery
- Pilot testing of flowsheet in laboratory

Phase 3: Scoping study (3 months)

- Determine CAPEX and OPEX
- Assess preliminary economic viability

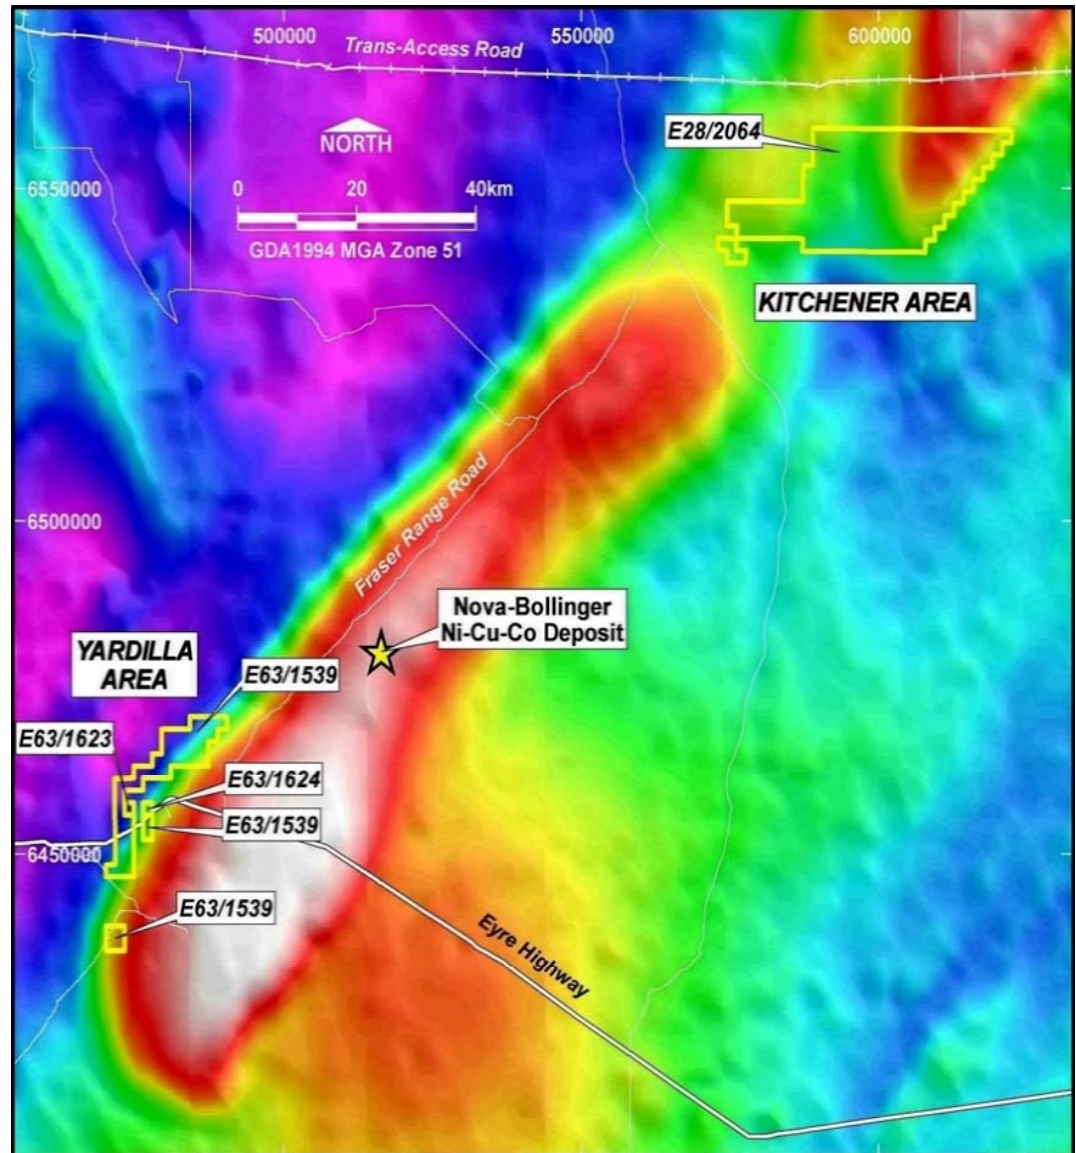

Fraser Range Project

JV with Creasy Group

- Two prospect areas
- Yardilla area, 35km from Nova mine site
- Kitchener Area, 80km from Nova mine site
- Both areas are prospective for Nova style nickel-copper-cobalt deposits
- JV partner with deep knowledge of the Fraser Range belt

Board and Management

- Simon Jenkins, Chairman, Lawyer
- Brad Underwood, Managing Director, Geologist
- Noel O'Brien, Technical Director, Metallurgist

Major Shareholders

- Mark Creasy holds 31%
- Independence Group (4.9%), Chris Ellison (4.2%)
- Top 20 Shareholders = 57%
