## Contract Extension at Regis Resources

---

MACA Limited ('MACA') (ASX:MLD) is pleased to advise it has executed a contract extension with Regis Resources Limited ('Regis') (ASX: RRL) in relation to Open Pit Mining Services at the Duketon South Operations near Laverton. The contract for Duketon South Operations include Rosemont, Garden Well, Eristoun, Baneygo, Toohey's Well and other potential satellite projects in that region at Regis' discretion.

The project will continue to consist of open pit mining services including, drilling and blasting and, loading and hauling. The new contract for the overall Duketon South Operations will replace the existing contracts for Rosemont and Garden Well. This will take into account the changing needs of the project now being split across multiple pits and sites. The contract is the result of a collaborative approach with Regis, utilising technology to optimise the mine planning across the operations and ensuring the most efficient use of both machinery and human resources.

The tenure for MACA at Duketon South Operations will now be for a 5 year term from July 2018 with the option for a further 5 year extension. It is expected to generate approximately \$590 million in revenue for MACA over the initial 5 year term adding \$231 million WIH beyond what was previously contracted at Rosemont and Garden Well. MACA's WIH for FY19 now stands at \$430 million with total WIH at \$1,282 million.

MACA Executive Director Geoff Baker commented 'MACA is delighted to continue its long-standing relationship with Regis at Duketon. The additional tenure ensures we are able to invest in more efficient equipment in order to continue to deliver quality mining services at the lowest cost to Regis.'
