ABN/ARBN/ARSN

COOLGARDIE MINERALS LIMITED

145 676 900

This Annexure forms part of the Information Form and Checklist supplied by the entity named above to support its application for admission to the official list of ASX Limited (ASX) as an ASX Listing.

A reference in this Annexure to JORC means the Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Resources - 2012 Edition, a copy of which is included in Annexure 5A of the Listing Rules. Terms used in this Annexure which are defined in JORC (including, without limitation, 'exploration target', 'exploration results', 'mineral resource', 'ore reserve' and 'competent person') have the same meaning as in JORC.

General requirements

Complete this section if the Offer Document includes any reference to an exploration target, exploration results or estimates of mineral resources or ore reserves.

- Where in the Offer Document does it state that the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) have been prepared and reported in accordance with JORC (Listing Rule 5.6)?¹

Section 6.2 of the Prospectus and Annexure A of the Independent Technical Assessment Report (ITAR)

- Where in the Offer Document does it state:
 - that the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) are based on, and fairly represent, information and supporting documentation prepared by a named competent person² or persons (Listing Rule 5.22(a) for material mining projects and JORC clause 9 for all other projects);
 - whether the competent person is an employee of the mining entity or a related party and, if not, the name of the competent person's employer (Listing Rule 5.22(b) for material mining projects and JORC clause 9 for all other projects)?
 - the name of the professional organisation of which the competent person is a member (Listing Rule 5.22(c) for material mining projects and JORC clauses 9 and 11 for all other projects); and
 - that the competent person has given his or her prior written consent as to the form and context in which the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) and the supporting information are presented in the Offer Document (Listing Rule 5.22 for material mining projects and JORC clause 9 for all other projects)?

In the Executive Summary and Appendix 1 & 2 of the ITAR

¹ The Offer Document must use terminology consistent with the terms in Figure 1 of JORC. Terms such as 'mining inventory' or 'mineable resource' are not allowed.

² JORC clause 11 defines a 'competent person' as a minerals industry professional who is a Member or Fellow of The Australasian Institute of Mining and Metallurgy, or of the Australian Institute of Geoscientists, or of a 'Recognised Professional Organisation', as included in a list available on the JORC and ASX websites. The person must have a minimum of five years relevant experience in the style of mineralisation or type of deposit under consideration and in the activity which that person is undertaking. If the competent person is preparing documentation on exploration results, the relevant experience must be in exploration. If the competent person is estimating, or supervising the estimation of mineral resources, the relevant experience must be in the estimation, assessment and evaluation of mineral resources. If the competent person is estimating, or supervising the estimation of ore reserves, the relevant experience must be in the estimation, assessment, evaluation and economic extraction of ore reserves.

3.	Please enter "Confirmed" in the column to the right to indicate that the Offer Document discloses any potential conflict of interest any of the named competent persons may have and, if it does, indicate where in the Offer Document that disclosure has been made (JORC clause 9)?	Confirmed
4.	Is there an Independent Geologist's Report included in the Offer Document? If so, where does it state that any exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be): <ul style="list-style-type: none"> are based on, and fairly represent, information and supporting documentation prepared by a named competent person or persons; the name of the professional organisation of which the competent person is a member; and that the competent person has given his or her prior written consent as to the form and context in which the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) and the supporting information are presented in the report (Listing Rule 5.22 for material mining projects and JORC clause 9 for all other projects)? Is the Independent Geologist's Report either a technical assessment report, valuation report, or fairness and reasonableness report prepared in accordance with the Valmin Code? If so, where does it state in the report the declarations required by clauses 46, 47 and 48 of the Valmin Code?	Yes ITAR Sections 1.4 and 1.6.2 ITAR Section 1.4 ITAR Section 1.6.2 and Sections 2.5 and 10.8 of the Prospectus The IGR is an Independent Technical Assessment Report as stated in the Introduction section 1.2 of the ITAR
5.	Does the Offer Document include a "metal equivalents" calculation? If so, where does the Offer Document include the following information required under JORC clause 50: <ul style="list-style-type: none"> individual grades for all metals included in the metal equivalent calculation; except where the information is commercially sensitive, the assumed commodity prices for all metals;³ assumed metallurgical recoveries for all metals and a discussion of the basis on which the assumed recoveries are derived (metallurgical test work, detailed mineralogy, similar deposits, etc);⁴ a clear statement that it is the entity's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold; and the calculation formula used? 	No Metal Equivalents were used as stated in ITAR at page 71
6.	Please enter "Confirmed" in the column to the right to indicate that the Offer Document does not include any reference to "in situ" or "in ground" values (JORC clause 51).	Confirmed

³ Actual assumed prices should be disclosed. It is not sufficient to refer to a "spot price", without disclosing the actual price in question. Where the actual assumed prices used are said to be commercially sensitive, the entity must disclose sufficient information, perhaps in narrative rather than numerical form, for investors to understand the methodology it has used to determine these prices.

⁴ Estimates of metallurgical recoveries for each metal must be used to calculate meaningful metal equivalents. Reporting on the basis of metal equivalents is not appropriate if metallurgical recovery information is not available or able to be estimated with reasonable confidence.

11. Please enter "Confirmed" in the column to the right to indicate that the following JORC requirements have been satisfied: <ul style="list-style-type: none"> information relating to the exploration target has been expressed so that it cannot be misrepresented or misconstrued as an estimate of a mineral resource or ore reserve and the terms "resource" and "reserve" have not been used in this context (JORC clause 17); the exploration target is expressed as a tonnage and grade range and as an approximation only (JORC clause 17); the Offer Document includes a description of the process used to determine the grade and tonnage ranges used to describe the exploration target (JORC clause 17); there are no "headline statements" in the Offer Document referring to the exploration target (JORC clause 17); and the exploration target does not include a "metal equivalent" estimate or calculation (JORC clause 50).
