Directors' report

The directors of Ephraim Resources Ltd submit herewith the annual financial report of the Company and its subsidiaries (together "the Group") for the financial year ended 30 June 2018. In order to comply with the provisions of the Corporations Act 2001, the directors report as follows:

Information about directors

The names and particulars of the directors of the Company during or since the end of the financial year and up to the date of this report are:

Name	Particulars
Steven Pynt	<p><u>Non-Executive Chairman</u> (appointed 23 May 2013)</p> <p>Mr Pynt has over 30 years' experience in law, accounting and business management. After graduating in law from the University of Western Australia in 1980, Mr Pynt completed his articulated clerkship at Dwyer & Thomas Solicitors before commencing work in 1983 as a tax consultant with the accounting firm Duesburys, which subsequently merged with Ernst & Whinney.</p> <p>In 1985 Mr Pynt established his own legal firm and in 1988 merged his firm with Michell Sillar McPhee where he became a partner. He subsequently established the firm Healy Pynt and after leaving that firm established the practice of McDonald Pynt Lawyers with David McDonald in 2003. From June 2010 to March 2017, Mr Pynt was managing director of Muzz Buzz Franchising Pty Ltd which is Australia's leading specialty drive through coffee franchise with over 50 stores in Australia and New Zealand. Mr Pynt is now a director of MP Commercial Lawyers.</p> <p>Mr Pynt also obtained a Bachelor of Business in 1986, a Master of Business Administration in 1995, and a master of Taxation Studies in 1999.</p> <p>Mr Pynt has held a number of public and private company board positions. He is currently chairman of ASX listed public company Global Health Ltd, and a non-executive Director of Gondwana Resources Limited.</p> <p>Mr Pynt was chairman of ASX listed company Richfield International Limited from 2004 to 2016. He was also deputy chairman and then chairman of the Commercial Tribunal of Western Australia from 1994 to 2004, which deals with commercial tenancy legislation, Credit Act and other commercial disputes and applications. He also taught ethics and professional responsibility to articulated law clerks from 1994 to 2005 and was a member of the Racing Penalties Appeal Tribunal from 1995 to 2007.</p> <p>Mr Pynt is the Chairman of the Board of Directors and the Nomination and Remuneration Committee and the Audit Risk Management Committee.</p> <p>Mr Pynt resides in Perth.</p>
Tang Nee Ooi	<p><u>Non-Executive Director</u> (appointed 18 June 2018)</p> <p>Ms Ooi, a major shareholder in the Company, is a successful entrepreneur and is an advisor for numerous international companies</p> <p>Ms Ooi resides in Singapore.</p>
Tim Laforest	<p><u>Non-Executive Director</u> (appointed 18 June 2018)</p> <p>Mr Laforest holds a Bachelor of Economics (Social Science) from the University of Sydney and a Bachelor of Laws (First Class Honours) from the University of Technology Sydney and has almost 10 years' extensive experience in corporate, transaction, advisory, commercial and legal roles. Mr Laforest is the Chief Executive Officer of an alternative investment vehicle, the Redfield Group.</p> <p>Mr Laforest resides in Sydney.</p>

Frederick (Eric) Ng

Executive Director (appointed 23 May 2013, resigned 15 June 2018)

Mr Ng has been the Principal Consultant of Chadway Management Service Pte Ltd since 1982. He is responsible for providing operational management, planning and executing growth strategies, merger and acquisitions activities and corporate finance services to companies in Singapore and the region, including Australia and the PRC. He also advises on business growth and globalisation strategies, capital market and corporate governance issues and is an active capital market intermediary matching capital with business.

Mr Ng's vast experience and knowledge provides him with the credentials to sit on a number of Boards of public companies that are listed on the Singapore and Australian Exchanges. Mr Ng has chaired Shareholders' and Board meetings, Audit and Remuneration Committees since 2000 and is a member of various Nomination, Audit and Remuneration Committees.

Since 2009 Mr Ng has served as a Non-Executive Director of ASX listed GBM Gold Ltd (ASX – GBM) and was appointed its Non-Executive Chairman on 1 January 2014. He is also currently a Non-Executive Chairman at SGX Mainboard listed Chasen Holdings Ltd where he has been the Lead Independent Director and Chairman Audit and Remuneration Committees since 2007. Upon assuming the Chairmanship of the Board at Chasen, he relinquished the chair of the Remuneration Committee while remaining a member of both Remuneration and Nomination Committees.

Mr Ng is also active in various societies and institutions, being a member of the Singapore Institute of Directors and a Fellow of the Singapore Human Resource Institute. He also served as District Governor for Singapore of Lions Clubs International from 2002 to 2003.

Mr Ng resides in Singapore.

Andrew Chan

Non-Executive Director (appointed 22 June 2017, resigned on 30 November 2017)

Mr Chan is a corporate and commercial lawyer with over 10 years' experience holding both a Bachelor of Arts and a Bachelor of Law degree. He has worked both in private practice and in-house in the resources sector in a variety of roles. Mr Chan has also previously advised a number of Australian and international companies in the resources sector.

Mr Chan resides in Melbourne.

Directorships of other listed companies

Directorships of other listed companies held by directors in the 3 years immediately before the end of the financial year are as follows:

	Richfield International Ltd	February 2011 to September 2016
	GBM Gold Ltd	June 2010 to current
Andrew Chan	GBM Gold Limited	2014 to current

Directors' shareholdings

The following table sets out each director's relevant interest in shares, debentures, and rights or options in shares or debentures of the Company or a related body corporate as at the date of this report.

Directors	Fully paid ordinary shares Number	Share options Number
Steven Pynt	-	-
Frederick (Eric) Ng (resigned 15 June 2018)	86,758,158*	-
Tang Nee Ooi (appointed 18 June 2018)	300,000,000	-
Tim Laforest (appointed 18 June 2018)	-	-
Andrew Chan (resigned 30 November 2017)	-	-

* 82,500,000 of Mr Ng's interest in the shares are indirectly held on trust through Firstbeet International Ltd, a company of which he is a director.

Outstanding options

The Group had no outstanding unlisted share options at year end and at the date of this report.

Remuneration of directors and senior management

Information about the remuneration of directors and senior management is set out in the remuneration report of this directors' report.

Share options granted to Directors and executives

There have been no share options granted to directors and executives during the year or shares issued as a result of the exercise of any option during or since the end of the financial year.

Company Secretary

Mr Henko Vos (appointed 7 February 2014)

Mr Vos is a member of the Governance Institute of Australia and Certified Practising Accountants Australia with more than 15 years' experience working within public practice, specifically within the area of audit and assurance both in Australia and South Africa. He holds similar secretarial roles in various other listed public companies in both industrial and resource sectors. He is an employee of Nexia Perth, a mid tier corporate advisory and accounting practice.

Principal activities

The Company's principal activities focus on agricultural biogenetics research and experimentation, licensing and consultancy, with a specific focus on nipah palm breeding, tissue culture, cultivation and plantation, and the conversion of sap from the nipah palm to sugar and ethanol. The Company requires further funding to commence commercial production of sugar/ethanol.

The Company's current focus is on completing the proposed reverse acquisition of Bio-Nexus Limited.

Please refer to the Subsequent events note below for further details of the proposed Bio-Nexus transaction which could potentially see a change to the Company's principal activities.

Operating and financial review

The loss for the Group after providing for income tax and non-controlling interest amounted to \$975,568 (30 June 2017: net loss after income tax of \$480,945).

Changes in state of affairs

On 13 March 2017 the Company requested a voluntary suspension of its securities on the Australian Stock Exchange (ASX). The Company is currently working on effecting its re-instatement to the official list of the ASX, which remains subject to the Company satisfying certain requirements, including evidence of sufficient capital for the Company's planned activities.

On 18 June the Company received a statutory demand from Mr Eric Ng claiming unpaid Directors fees and expenses of \$109,872. This balance was settled on 13 August 2018 as part of a formal deed of forbearance entered into with Mr Ng and Ms Chew Ching.

There was no other significant change in the state of affairs of the Group during the financial year other than as disclosed in Subsequent events below.

Subsequent events

On 10 July 2018, the Company announced that it has signed a non-binding memorandum of understanding ("MOU") with Israeli technology company Bio-Nexus Limited ("Bio-Nexus") to acquire 100% of Bio-Nexus ("Transaction"). Bio-Nexus is an Israeli company established in October 2010. Bio-Nexus provides mobile workflow process software which allows for end-to-end maintenance management solutions in

the medical, aeronautical and industrial sectors. In addition to Israel, it has a physical presence in the United States, Czech Republic, Singapore and Australia.

The Company and Bio-Nexus have commenced due diligence and negotiation of the terms of binding documentation. Under the MOU, Bio-Nexus has however, in a binding manner, agreed to pay the reasonable costs of the Company directly incurred in connection with the Transaction.

The indicative key terms of the Transaction are:

- that the total consideration is subject to completion of due diligence;
- that the Company will issue new shares in satisfaction of the total consideration payable;
- on completion of the Transaction: Bio-Nexus will appoint at least 5 directors to the board of EPA; Bio-Nexus will appoint the chair and the incoming CEO who will manage all of the business of the combined group; and the Company will change its name to "Bio-Nexus"; and
- binding documentation will include the following conditions precedent to the extent not satisfied before execution:
 - completion of satisfactory legal and financial due diligence by both the Company and Bio-Nexus;
 - approval of the respective boards and shareholders of the Company and Bio-Nexus;
 - obtaining regulatory approvals as required;
 - obtaining material third party consents identified during due diligence;
 - the Israeli Tax Authority granting roll-over relief (or equivalent relief) to existing Bio-Nexus shareholders;
 - the Company completing a limited capital raising before implementation of the Transaction; and
 - the representations and warranties given by the parties in the binding documentation remaining true and correct.

As noted above, the Transaction is subject to a number of approvals which will be included as conditions precedent in the binding documentation, including the ASX re-confirming the suitability of the Company for admission to the official list of ASX.

On 23 July 2018, the Company announced that it has issued convertible notes in the Company raising an aggregate of \$250,000. The summary of the principal terms are:

- face value is \$1 per convertible note;
- interest rate is 10% p.a. compounding monthly;
- maturity period is 24 months from the issue date;
- automatically convert into ordinary shares on completion of the Transaction above and only if the Transaction has completed by 31 December 2018;
- conversion price per ordinary share is a 30% discount to the issue price per ordinary share issued pursuant to the proposed Transaction between the Company and Bio-Nexus, subject to a minimum conversion price of \$0.20;
- if the Transaction has not completed by 31 December 2018, the principal and any accrued interest is due and payable.

On 13 August 2018 the Company announced that it has entered into a Deed of Forbearance ("Deed") with Mr Ng and Ms Chew Ching relating to a claim from Mr Ng for unpaid director fees and expenses of \$109,872 as well as loan balances repayable by the Company to Mr Ng and Ms Ching totalling \$670,874 at 30 June 2018. The terms of the Deed provide for the following:

- the payment of an amount of \$187,500 by the Company to Mr Ng to be applied to the payment of the unpaid Directors fees and expenses (\$109,872) and the repayment of certain advances made by Mr Ng to the Company and the payment of accrued interest owed by the Company to Mr Ng;
- a period of forbearance of the Company's obligation to repay an aggregate amount of \$602,273.09 (comprising principal and interest owed by the Company to Mr Ng and Ms Ching respectively). The period of forbearance extends to the earlier of:
 - 30 November 2018 (if the Company has not convened a meeting of shareholders to approve the transaction announced by the Company on 10 July 2018 and lodged a prospectus with the Australian Securities and Investments Commission in conjunction with the Transaction);
 - 5 Business Days after the completion of the Transaction;
 - the date the Transaction is terminated in writing;
 - 31 December 2018; or
 - such other date as agreed to by the parties in writing;
- waiver by Mr Ng and Ms Ching of the obligation of the Company to pay interest on amounts owing by the Company to Mr Ng and Ms Ching for the period on and from 1 July 2018, on the condition that the Transaction completes on or before 31 December 2018; and
- repayment of all outstanding amounts owed by the Company to Mr Ng and Ms Ching at any time, on election by the Company, by the Company giving notice to Mr Ng and Ms Ching.

There has not been any other matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the current operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Future developments

The Company remains in the process of evaluating alternative business, investment and funding opportunities.

The disclosure of other information regarding likely developments in the operations of the Group in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the Group. Accordingly, this information has not been disclosed in this report.

Environmental regulations

The Group's environmental obligations are regulated under both State and Federal legislation in Australia, as well as Indonesian law. Performance with respect to environmental obligations is monitored by the Board of Directors and subjected from time to time to government agency audits and site inspections. No environmental breaches have been notified by any government agency during the year ended 30 June 2018.

Dividends

No dividends have been paid or declared since the start of the financial year. The directors do not recommend the payment of a dividend in respect of the financial year.

Insurance of officers

The Company entered into a contract insuring the directors and executive officers of the Company and of any related body corporate against a liability incurred as a director or executive officer to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnification of officers

The Company has agreed to indemnify the directors of the Company and its controlled entities:

- (a) against any liability to a third party (other than the Company or a related body corporate) unless liability arises out of conduct involving lack of good faith; and
- (b) for costs and expenses incurred in successfully defending civil or criminal proceedings or in connection with an application, in relation to such proceedings, in which relief is granted under the *Corporations Act 2001*.

No liability has arisen under these indemnities as at the date of this report.

Directors' meetings

The following table sets out the number of meetings held during the financial year and the number of meetings attended by each director:

Directors	Board of directors		Remuneration & Nomination committee		Audit and Risk Management committee	
	Eligible to attend	Attended	Eligible to attend	Attended	Eligible to attend	Attended
Steven Pynt	3	3	-	-	-	-
Frederick (Eric) Ng	2	2	-	-	-	-
Andrew Chan	1	1	-	-	-	-
Tang Nee Ooi	1	1	-	-	-	-
Tim Laforest	1	1	-	-	-	-

There were no separate formal meeting of the nomination and remuneration committee or audit and risk management committee during the reporting period. This was driven by the current size of the Company, its level of operations and its focus on recapitalizing the Company. Matters relevant to these committees were addressed as part of Board of Director meetings, as appropriate.

Proceedings on behalf of the Company

No persons have applied for leave pursuant to s.237 of the *Corporation Act 2001* to bring, or intervene in, proceedings on behalf of Ephraim Resources Ltd.

Non-audit services

There were no non-audit services provided by the Group's auditor during the year.

Auditor's independence declaration

The auditor's independence declaration is included on page 10 in the annual report and forms part of this directors' report for the year ended 30 June 2018.

Remuneration report (audited)

This report, which forms part of the directors' report, outlines the remuneration arrangements in place for the key management personnel of Ephraim Resources Ltd (the "Company") for the financial year ended 30 June 2018.

The information provided in this remuneration report has been audited as required by Section 308(3C) of the Corporations Act 2001.

The remuneration report details the remuneration arrangements for key management personnel ("KMP") who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any director (whether executive or otherwise) of the parent Company.

The prescribed details for each person covered by this report are detailed below under the following headings:

- key management personnel details;
- remuneration policy and relationship between the remuneration policy and company performance;
- remuneration of key management personnel; and
- key terms of employment contracts

Key management personnel details

The key management personnel of Ephraim Resources Ltd during the year or since the end of the year were:

Directors

- Steven Pynt Non-Executive Chairman
- Tang Nee Ooi Non-Executive Director (appointed 18 June 2018)
- Tim Laforest Non-Executive Director (appointed 18 June 2018)
- Frederick (Eric) Ng Executive Director (appointed 23 May 2013, resigned 15 June 2018)
- Andrew Chan Non-Executive Director (appointed 22 June 2017, resigned on 30 November 2017)

Remuneration policy and relationship between the remuneration policy and company performance

The Board's policy for determining remuneration is based on the principle of remunerating Directors and senior executives on their ability to add value to the Company (taking into account the Company's strategic plan and operations) whilst also considering market remuneration packages for similar positions within the industry and, where deemed relevant, in consultation with external consultants. In addition, the Company's financial position is also considered in determining remuneration levels.

The Board appreciates the inter-relationship between this policy and Company performance. It acknowledges that it is in the best interests of shareholders to provide challenging but achievable incentives to reward senior executives for reaching the Company's stated goals. The Board discusses these issues internally and with candidates prior to engaging additional Directors or senior executives.

Key management personnel (excluding non-executive directors)

The Nomination and Remuneration Committee is responsible for determining the remuneration policies for the Group, including those affecting executive directors and other key management personnel. The Committee may seek appropriate external advice to assist in its decision making.

Remuneration policies and practices are directed primarily at attracting, motivating and retaining key management personnel.

The remuneration policy for executive directors and other key management personnel currently consists of only a fixed remuneration component:

- Fixed remuneration
Executive directors and other key management personnel receive fixed remuneration in the form of a base salary (inclusive of statutory superannuation where appropriate).

Non-executive directors

The Company's non-executive directors receive only fees (including statutory superannuation where appropriate) for their services and the reimbursement of reasonable expenses.

The fees paid to the Company's non-executive directors reflect the demands on, and responsibilities of those directors. They do not receive any retirement benefits (other than, where relevant, compulsory superannuation). The Board decides annually the level of fees to be paid to non-executive directors with reference to market standards.

A non-executive directors' fee pool limit of \$100,000 per annum was approved by the shareholders and is currently utilised to a level of \$30,000 per annum. The fees currently paid to non-executive directors vary from \$nil to \$30,000 per annum, including any superannuation entitlements.

Both executive and non-executive directors may also receive equity-based incentives where this is considered appropriate by the Board as a whole and with regard to the stage of the Company's development. Such incentives are primarily designed to provide an incentive to non-

executive directors to remain with the Company. The Company did not issue any equity-based instruments during the current year. No incentives were issued subsequent to reporting date and to the date of this report.

Performance based remuneration and Share-based payments granted as compensation.

There were no performance based remuneration and share-based payments granted as compensation.

Transactions with key management personnel of the Group

- On 25 May 2016 the Company entered into a loan agreement with Chew Lee Ching, a related party of Mr Ng, for the advancement of SGD\$100,000 (A\$100,694) to the Company for working capital purposes. Under the revised terms of the loan agreement full repayment of the loan is required by 30 November 2017 (subsequently extended to 30 June 2018). The loan carries interest at 10% per annum, repayable at the end of the loan term. The interest owing on this loan included in other payables as at 30 June 2018 was A\$16,077 (30 June 2017: A\$6,007). On 13 August 2018 the Company entered into a Deed of Forbearance with Ms Chew Ching in relation to the settlement of this loan – see details below.
- On 13 December 2016 the Company entered into a loan agreement with Mr Ng for the advancement of A\$110,000 to the Company for working capital purposes. Under the revised terms of the loan agreement full repayment of the loan is required by 30 November 2017 (subsequently extended to 30 June 2018) unless shareholders approve the conversion of the loan into ordinary shares (the conversion rate to be the lower of \$0.001 per share (on a pre-consolidated basis) or 75% of the volume weighted average price of the Company's shares calculated over the 15 trading days on which trades in the shares were recorded immediately before the relevant shareholder's meeting). The loan carries interest at 20% per annum, repayable at the end of the loan term. On 8 March 2017 Mr Ng settled a then payable loan balance owed by the Company of A\$300,000, having previously provided a personal guarantee for the loan. The loan with Mr Ng was extended on the same terms as the loan he settled on the Company's behalf, being \$300,000 at an interest rate of 20% per annum payable on or before 30 November 2017 (subsequently

extended to 30 June 2018). The loan carries interest at 20% per annum. The total interests owing on these loans included in other payables as at 30 June 2018 was A\$115,003 (30 June 2017: A\$13,441). On 13 August 2018 the Company entered into a Deed of Forbearance with Mr Ng in relation to the settlement of this loan – see details below.

Deed of Forbearance with Ms Chew Ching and Mr Ng

On 13 August 2018 the Company announced that it has entered into a Deed of Forbearance (“Deed”) with Mr Ng and Ms Chew Ching relating to a claim from Mr Ng for unpaid director fees and expenses of \$109,872 as well as loan balances repayable by the Company to Mr Ng and Ms Ching totalling \$670,874 at 30 June 2018. The terms of the Deed provide for the following:

- the payment of an amount of \$187,500 by the Company to Mr Ng to be applied to the payment of the unpaid Directors fees and expenses (\$109,872) and the repayment of certain advances made by Mr Ng to the Company and the payment of accrued interest owed by the Company to Mr Ng;
- a period of forbearance of the Company’s obligation to repay an aggregate amount of \$602,273.09 (comprising principal and interest owed by the Company to Mr Ng and Ms Ching respectively). The period of forbearance extends to the earlier of:
 - 30 November 2018 (if the Company has not convened a meeting of shareholders to approve the transaction announced by the Company on 10 July 2018 and lodged a prospectus with the Australian Securities and Investments Commission in conjunction with the Transaction);
 - 5 Business Days after the completion of the Transaction;
 - the date the Transaction is terminated in writing;
 - 31 December 2018; or
 - such other date as agreed to by the parties in writing;
- waiver by Mr Ng and Ms Ching of the obligation of the Company to pay interest on amounts owing by the Company to Mr Ng and Ms Ching for the period on and from 1 July 2018, on the condition that the Transaction completes on or before 31 December 2018; and
- repayment of all outstanding amounts owed by the Company to Mr Ng and Ms Ching at any time, on election by the Company, by the Company giving notice to Mr Ng and Ms Ching.

During the year, Mr Ng also provided an interest-free amount of A\$29,100 to the Company for working capital.

- On 25 June 2018, Ms. Tang Nee Ooi paid \$10,548 of Directors and Officers Liability Insurance on behalf of the Company. The amount is still owing at 30 June 2018. The amount outstanding is interest free and repayable by the earlier of the completion of the proposed Bio-Nexus Ltd transaction or 31 December 2018.

(i) Mr Ng's personal holding consists of 4,258,158 shares. Mr Ng is also the director of Firstbeet International Limited, an entity who holds 82,500,000 management shares on trust. 45,000,000 shares held under Firstbeet International Limited were released from escrow in December 2016 and were transferred to Chang Ming Heong.

Key terms of employment contracts

Remuneration and other terms of employment for Directors and other senior executives were formalised in service agreements. Major provisions of the agreements relating to remuneration are set out below.

Mr Steven Pynt

- No fixed term agreement
- Pro rated director's fees of \$30,000 (inclusive of statutory superannuation, as appropriate) per annum
- No termination benefits are payable

Ms Tang Nee Ooi (appointed on 18 June 2018)

- No fixed term agreement
- Ms Ooi waived her entitlement to any director's fees.
- No termination benefits are payable

Mr Tim Laforest (appointed on 18 June 2018)

- No fixed term agreement
- Mr Laforest waived his entitlement to any director's fees.
- No termination benefits are payable

Mr Frederick (Eric) Ng (resigned on 15 June 2018)

- No fixed term agreement
- Pro rated director's fees of \$72,000 (inclusive of statutory superannuation, as appropriate) per annum

Mr Andrew Chan (resigned on 30 November 2017)

- No fixed term agreement
- Pro rated director's fees of \$24,000 (inclusive of statutory superannuation, as appropriate) per annum
- No termination benefits are payable

(End of remuneration report)

This directors' report is signed in accordance with a resolution of directors made pursuant to s.298(2) of the Corporations Act 2001.

On behalf of the Directors

Steven Pynt

**AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION
307C OF THE *CORPORATIONS ACT 2001* TO THE DIRECTORS
OF EPHRAIM RESOURCES LIMITED**

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2018, there have been:

- a) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit, and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

REPORT ON THE AUDIT OF THE FINANCIAL REPORT

Opinion

We have audited the financial report of Ephraim Resources Limited (the Company) and its subsidiaries (the "Group"), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Group's financial position as at 30 June 2018 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

In forming our opinion on the Group financial statements, which is not modified, we have considered the adequacy of the disclosure made in Note 2 to the financial statements concerning the Group's ability to continue as a going concern. The Group is dependent upon the completion of a reverse acquisition transaction and various funding initiatives in order to have sufficient working capital to enable it to discharge its liabilities in the normal course of business. This condition as explained in Note 2 to the financial statements indicates the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern. The Group financial statements do not include the adjustments that would result if the Group were unable to continue as a going concern.

Independence

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the "Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

Key Audit Matters

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Carrying value of Land	
Refer to Note 9 Property, Plant and Equipment & Note 3 Critical Accounting Judgements and Key Sources of Estimation Uncertainty	
<p>Land, at book value of \$nil (30 June 2017: \$440,981), as disclosed in Note 9 represents the most significant asset recorded in the consolidated statement of financial position.</p> <p>Land comprises long term land use rights held by a subsidiary over three parcels of land which were acquired from the Indonesian Government. As explained in Note 3 the Group recognises the land use rights as if it was freehold land, with the arrangement being classified as a finance lease and accounted for under AASB 116 <i>Property, Plant and Equipment</i> (consistent with AASB 117 <i>Leases</i>).</p> <p>The Group performs, at least annually, an internal assessment of the carrying value of its land use rights assets to determine if the carrying value should be adjusted up or down. As a result of this assessment the carrying value of the land was reduced to \$nil, as at 30 June 2018.</p> <p>The valuation of the land use rights assets is based on a number of assumptions and therefore requires significant management estimates and judgment. For these reasons we have determined that the valuation of land is a key audit matter.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> • Evaluating the classification and treatment of land use rights as a finance lease. • Critically evaluating management’s methodology and their documented basis for key assumptions utilised in the valuation model. • Assessing and challenging: <ul style="list-style-type: none"> – key assumptions for forecast cash flows by comparing them to periodic external valuations (where available) and industry information; – other key inputs that are material to the valuation model such as current commodity prices, foreign exchange rates and expected production rates and comparing against available industry data; and – the discount rate applied. – discussed indicators of possible impairment with management and the directors. • Assessing the appropriateness of the relevant disclosures included in Notes 3 and 9 to the financial report.

Key Audit Matters (continued)

Group's ability to continue as a Going Concern – refer to Note 2	
<p>The financial statements are prepared on a going concern basis in accordance with AASB 101 <i>Presentation of Financial Statements</i>. The Group continues to incur significant operating losses and has a deficiency of working capital of \$1,148,496. As the directors' assessment of the Group's ability to continue as a going concern is subject to significant judgement, we identified going concern as a significant risk requiring special audit consideration.</p>	<p>Our audit procedures included, amongst others, the following:</p> <ul style="list-style-type: none"> • An evaluation of the directors' assessment of the Group's ability to continue as a going concern. In particular, we discussed expected cashflow forecasts for at least the next 12 months and reviewed and challenged the directors' assumptions. • Reviewed plans by the directors to secure additional funding through either the issue of further shares and/or debt funding or a combination thereof. • An evaluation of the directors plans for future operations and actions, including proposed acquisitions, in relation to its going concern assessment, taking into account any relevant events subsequent to the year end, through discussion with the directors. • Review of disclosure in the financial statements so as to ensure appropriate. <p>Based on our work, we agree with the directors' assessment that the going concern basis of preparation is appropriate and our conclusion on going concern is set out below. However, we also concur that there is a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern because of the uncertainty over securing future funding. The disclosures in the financial statements appropriately identify this risk.</p>

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, international omissions, misrepresentation, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

Auditor's Responsibilities for the Audit of the Financial Report (continued)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report as included in the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Ephraim Resources Limited, for the year ended 30 June 2018 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Directors' declaration

1. In the opinion of the directors of Ephraim Resources Ltd (the 'Company'):
 - a. the accompanying financial statements and notes are in accordance with the Corporations Act 2001 including:
 - i. giving a true and fair view of the Group's financial position as at 30 June 2018 and of its performance for the year then ended; and
 - ii. complying with Australian Accounting Standards, the Corporations Regulations 2001, professional reporting requirements and other mandatory requirements.
 - b. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
 - c. the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.
2. This declaration has been made after receiving the declarations required to be made to the directors in accordance with Section 295A of the Corporations Act 2001 for the financial year ended 30 June 2018.

This declaration is signed in accordance with a resolution of the Board of Directors.

Notes to the financial statements for the financial year ended 30 June 2018

1. General information

Ephraim Resources Ltd (the “Company”, and together with its subsidiaries, the “Group”) is a for profit public company listed on the Australian Securities Exchange (trading under the symbol “EPA”) operating in Australia and Indonesia.

Ephraim Resources Ltd’s registered office and its principal place of business are as follows:

Australia	Indonesia (principal place of business)
Ephraim Resources Limited	Graha Pena Batam Centre Building,
c/- Nexia Perth,	8th Floor Suite Room 805,
Level 3, 88 William Street	City of Batam, Riau Island
Perth WA 6000	INDONESIA

During the financial year the principal continuing activities of the Company consisted of agricultural biogenetics research and experimentation, licensing and consultancy, with a specific focus on nipah palm breeding, tissue culture, cultivation and plantation, and the conversion of sap from the nipah palm to sugar and ethanol.

The Company is currently evaluating alternative business, investment and funding opportunities, with its main focus on the completion of the proposed acquisition of Bio-Nexus Limited.

2. Significant accounting policies

Basis of preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, Accounting Standards and Interpretations and complies with other requirements of the law. The accounting policies detailed below have been consistently applied to all of the years presented unless otherwise stated.

The financial statements are for the Group consisting of Ephraim Resources Ltd and its subsidiaries. The financial report has been prepared on a historical cost basis, modified where applicable, by the measurement of fair value of selected non-current assets. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

Statement of compliance

The financial report complies with International Financial Reporting Standards (‘IFRS’), issued by the International Accounting Standards Board. The financial statements were authorised for issue by the directors on 31 August 2018.

Going Concern

The 30 June 2018 financial report has been prepared on the going concern basis that contemplates the continuity of normal business activities and the realisation of assets and extinguishment of liabilities in the ordinary course of business. The Group recorded a net loss after tax of \$980,007 for the year ended 30 June 2018 (2017: net loss after tax of \$481,592) and had a negative working capital position of \$1,151,354 (2017: \$610,561) and a net liabilities position of \$1,148,496 (2017: net assets of \$156,537) at 30 June 2018.

On 10 July 2018, the Company announced that it has signed a non-binding memorandum of understanding (“MOU”) with Israeli technology company Bio-Nexus Limited (“Bio-Nexus”) to acquire 100% of Bio-Nexus (“Transaction”). Bio-Nexus provides mobile workflow process software which allows for end-to-end maintenance management solutions in the medical, aeronautical and industrial sectors. In addition to Israel, it has a physical presence in the United States, Czech Republic, Singapore and Australia. The Company and Bio-Nexus have commenced due diligence and negotiation of the terms of binding documentation. Under the MOU, Bio-Nexus has however, in a binding manner, agreed to pay the reasonable costs of the Company directly incurred in connection with the Transaction. The Transaction is subject to a number of approvals which will be included as conditions precedent in the binding documentation, including the ASX re-confirming the suitability of the Company for admission to the official list of ASX.

On 23 July 2018 the Company completed a fundraising of \$250,000 through the issue of 250,000 convertible notes.

On 13 August 2018 the Company entered into a Deed of Forbearance with Ms Chew Ching and Mr Ng in relation to the settlement of their loans as detailed in Note 11. The Company also obtained deferral from its larger creditors for the settlement of certain debts until the earliest of 14 December 2018 or the completion of the proposed Bio-Nexus transaction.

The Company is also in negotiations with a number of parties to provide additional bridging financing, which includes, but is not necessarily limited to, raising additional funds through the issue of new equity under the Company’s share placement capacity.

2. Significant accounting policies (contd.)

In the event that the Group is not successful in securing a viable investment opportunity, i.e. completing the Bio-Nexus transaction, or raising additional funds, there exists material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern and realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. The financial report does not include any adjustments to assets and liabilities that may be necessary if the Group is unable to continue as a going concern.

Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, management is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experiences and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects the current and future periods.

Refer to Note 3 for a discussion of critical judgements made in applying the entity's accounting policies and key sources of estimation uncertainty.

New, revised or amending Accounting Standards and Interpretations adopted

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. Any new, revised or amending Accounting Standards and Interpretations that are not yet mandatory have not been early adopted. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2018. The consolidated entity's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the consolidated entity, are set out below.

AASB 9 Financial Instruments

IFRS 9 Financial Instruments: Recognition and Measurement and is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. The new standard results in changes to accounting policies for financial assets and liabilities covering classification and measurement, hedge accounting and impairment. The Group has assessed these changes and determined that based on the current financial assets and liabilities held at reporting date.

The changes in the Group's accounting policies from the adoption of IFRS 9 will be applied from 1 January 2018 onwards. The Group does not expect a significant effect on the financial statements resulting from the change of this standard as the Group's financial assets and liabilities are all short term in nature. The classification and measurement of financial assets is now based on the entity's business model for managing the financial asset, and the contractual cash flow characteristics of the financial asset. The treatment of financial liabilities is materially consistent with that required by IAS 39 with the exception of the treatment of modification or exchange of financial liabilities which do not result in de-recognition.

Management has concluded that this is not expected to have a material impact on the financial statements.

AASB 15 Revenue

AASB 15 established a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18 Revenue. AASB 15 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. The Group does not expect a significant effect on the financial statements resulting from the change of this standard because it is a pre-revenue business.

AASB 16 Leases

AASB 16 replaces AASB 117 Leases and sets out the principles for the recognition, measurement, presentation and disclosure of leases. AASB 16 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligations to make lease payments. A lessee measures right-of-use assets similarly to other non-financial assets (such as property, plant and equipment) and lease liabilities similarly to other financial liabilities. As a consequence, a lessee recognises depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows applying AASB 107 Statement of Cash Flows. AASB 16 substantially carries forward the lessor accounting requirements in AASB 117 Leases. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. This Standard applies to annual reporting periods beginning on or after 1 January 2019. Earlier application is permitted provided the entity also applies AASB 15 Revenue from Contracts with Customers at or before the same date.

2. Significant accounting policies (contd)

New Accounting Standards and Interpretations not yet mandatory or early adopted (contd)

The Group does not expect any significant impact on its financial statements in future periods from the adoption of this standard as it currently has no operating lease.

The Directors have reviewed all Standards and Interpretations in issue not adopted for the year ended 30 June 2018. As a result of this review the Directors have determined that there is no material impact of the Standards and Interpretations in issue not yet adopted on the Company and, therefore, no change is necessary to the Group's accounting policies.

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement in with the investee; and
- has the ability to its power to affect its returns.

The Company reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements listed above. When the Company has less than a majority of the voting rights if an investee, it has the power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights are sufficient to give it power, including,

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties; rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholder meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the controlling interest having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members are eliminated in full on consolidation.

(b) Revenue and income recognition

Revenues are recognised at fair value of the consideration received or receivable net of the amount of goods and services tax (GST) (or similar taxes) payable to the taxation authority to the extent that it is probable that the revenue can be reliably measured. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

Interest revenue

Interest revenue is recognised on an accruals basis using the effective interest rate method.

Sale of non-current assets

Income from the sale of assets is measured as the consideration received net of the carrying value of the asset and any costs of disposal.

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Group.

2. Significant accounting policies (contd)

(d) Foreign currency translation

Both the functional and presentation currency of Ephraim Resources Limited is Australian dollars. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date. All exchange differences in the consolidated financial report are taken to profit or loss with the exception of differences on foreign currency borrowings that provide a hedge against a net investment in a foreign entity. These are taken directly to equity until the disposal of the net investment, at which time they are recognised in profit or loss. Tax charges and credits attributable to exchange differences on those borrowings are also recognised in equity.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

The functional currency of the foreign operations in Indonesia (through PT First Flower) is Indonesia Rupiah (IDR).

As at the balance date the assets and liabilities of subsidiaries are translated into the presentation currency of Ephraim Resources at the rate of exchange ruling at the balance date and income and expense items are translated at the average exchange rate for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. The exchange differences arising on the translation are taken directly to a separate component of equity, being recognised in the foreign currency translation reserve.

(e) Finance costs

Finance costs include interest, amortisation of discounts or premiums relating to borrowings, amortisation of ancillary costs incurred in connection with arrangement of borrowings, foreign exchange differences net of hedged amounts on borrowings, including trade creditors and lease finance charges. Finance costs are recognised as expenses in the period in which they are incurred.

(f) Trade and other payables

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. Trade and other payables are presented as current liabilities unless payment is not due within 12 months.

(g) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary difference and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date. Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

2. Significant accounting policies (contd)

(g) Income tax (contd)

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

(h) Acquisitions of assets

The acquisition method of accounting is used for all acquisitions of assets (including business combinations) regardless of whether equity instruments or other assets are acquired. Cost is determined as the fair value of the assets given up, shares issued or liabilities undertaken at the date of acquisition plus costs directly attributable to the acquisition. Where equity instruments are issued in an acquisition, the value of the instruments is their market price as at the effective acquisition date unless the notional price at which they could be placed in the market is a better indicator of fair value. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill.

(i) Trade receivables

Trade receivables are measured on initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method, less any allowance for impairment. Trade receivables are due for settlement no more than 30 days from the date of recognition.

Impairment of trade receivables is continually reviewed and those that are considered to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Group in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Group.

The impairment allowance is set equal to the difference between the carrying amount of the receivable and the present value of estimated future cash flows, discounted at the original effective interest rate. Where receivables are short-term discounting is not applied in determining the allowance.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(j) Inventories

Inventories are carried at the lower of cost and net realisable value. Inventories are valued using the weighted average cost basis.

Cost includes direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, necessary to bring inventories to their present location and condition, based on normal operating capacity of the production facilities. Net realisable value is determined on the basis of each inventory line's normal selling pattern. Expenses of marketing, selling and distribution to customers are estimated and are deducted to establish net realisable value.

2. Significant accounting policies (contd)

(k) Impairment of tangible and intangible assets other than goodwill

The Group assesses at each balance date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at re-valued amount (in which case the impairment loss is treated as a revaluation decrease).

An assessment is also made at each balance date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

Such reversal is recognised in profit or loss unless the asset is carried at re-valued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(l) Cash and cash equivalents

Cash and short term deposits in the balance sheet comprises of cash at bank, cash on hand and short term deposits with an original maturity of three months or less.

For the purposes of the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, net of bank overdrafts.

Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(m) Property, plant and equipment

All property, plant and equipment are stated at historical cost, or fair value as indicated, less, where applicable, accumulated depreciation and any impairment loss. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Depreciation is calculated on a diminishing value basis, and adjustments are made to write off the net cost of each item of property, plant and equipment over its expected useful life to the Group. Estimates of remaining useful lives are made on a regular basis for all assets, with annual reassessments for major items. The expected useful lives of plant and equipment are as follows:

- Plant and equipment 2-8 years
- Motor vehicles 6 years
- Technology rights 10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The write down is expensed in the statement of profit or loss and other comprehensive income in the reporting period in which it occurs.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit or loss and other comprehensive income.

Leasehold improvements

The cost of improvements to or on leasehold properties is amortised over the unexpired period of the lease or the estimated useful life of the improvement to the Group, whichever is the shorter.

Revaluations

Following initial recognition at cost, land and buildings are carried at a revalued amount which is the fair value at the date of the revaluation less any subsequent accumulated depreciation on buildings and any subsequent accumulated impairment losses.

2. Significant accounting policies (contd)

(m) Property, plant and equipment (contd)

Fair value is determined by reference to market-based evidence, which is the amount for which the assets could be exchanged between a knowledgeable willing buyer and a knowledgeable willing seller in an arm's length transaction as at the valuation date. Any revaluation increment is credited to the asset revaluation reserve included in the equity section of the statement of financial position, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is recognised in profit or loss.

Any revaluation decrease is recognised in profit or loss, except that a decrease offsetting a previous revaluation increase for the same asset is debited directly to the asset revaluation reserve to the extent of the credit balance existing in the revaluation reserve for that asset.

Additionally, any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amounts of the assets and the net amounts are restated to the revalued amounts of the assets.

Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred to retained earnings.

Independent valuations are performed with sufficient regularity to ensure that the carrying amounts do not differ materially from the assets' fair values at the balance date.

(n) Leases

A distinction is made between finance leases (including hire purchase agreements) which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased non-current assets, and operating leases under which the lessor effectively retains substantially all such risks and benefits.

Finance leases and hire purchase agreements are capitalised. A lease asset and liability are established at the present value of minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the interest expense. The interest components of the lease payments are expensed.

The lease asset is amortised on a straight-line basis over the term of the lease or, where it is likely that the Group will obtain ownership of the asset, the life of the asset.

Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(o) Provisions

A provision is recognised when a legal or constructive obligation exists as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the obligation at the balance date.

(p) Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities recognised in respect of employee benefits expected to be settled within 12 months, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Liabilities recognised in respect of employee benefits which are not expected to be settled within 12 months are measured as the present value of the estimated future cash outflows to be made by the entity in respect of services provided by employees up to reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures, and period of service. Expected future payments are discounted using market yields at the balance date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

(q) Issued Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

(r) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

2. Significant accounting policies (contd)

(s) Other taxes

Revenues, expenses and assets are recognised net of the amount of associated GST/VAT, unless the GST/VAT incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST/VAT receivable or payable.

The net amount of GST/VAT recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis. The GST/VAT components of cash flows arising from investing or financing activities, which are recoverable from, or payable to the taxation authority, are presented as operating cash flow.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(t) Financial assets

Financial assets in the scope of AASB 139 *Financial Instruments: Recognition and Measurement* are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale investments, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets after initial recognition and, when allowed and appropriate, re-evaluates this designation at each financial year-end. All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the marketplace.

(i) Financial assets at fair value through profit or loss

Financial assets classified as held for trading are included in the category 'financial assets at fair value through profit or loss'. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on investments held for trading are recognised in profit or loss.

(ii) Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold to maturity. Investments intended to be held for an undefined period are not included in this classification. Investments that are intended to be held-to-maturity, such as bonds, are subsequently measured at amortised cost. This cost is computed as the amount initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initially recognised amount and the maturity amount. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts. For investments carried at amortised cost, gains and losses are recognised in profit or loss when the investments are derecognised or impaired, as well as through the amortisation process.

If the Group were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale.

(iii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

(iv) Available-for-sale investments

Available-for-sale investments are those non-derivative financial assets that are designated as available-for-sale or are not classified as any of the three preceding categories. After initial recognition available-for sale investments are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is derecognised or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is recognised in profit or loss.

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the balance date. For investments with no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument that is substantially the same; discounted cash flow analysis and option pricing models.

2. Significant accounting policies (contd)

(t) Financial assets (contd)

Derecognition of financial assets and financial liabilities

(i) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either:
 - (a) has transferred substantially all the risks and rewards of the asset, or
 - (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration received that the Group could be required to repay.

(ii) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

(u) Impairment of financial assets

The Group assesses at each balance date whether a financial asset or group of financial assets is impaired.

(i) Financial assets carried at amortised cost

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced either directly or through use of an allowance account. The amount of the loss is recognised in profit or loss.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed. Any subsequent reversal of an impairment loss is recognised in profit or loss, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date.

(ii) Financial assets carried at cost

If there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value (because its fair value cannot be reliably measured), or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the current market rate of return for a similar financial asset. Such impairment loss shall not be reversed in subsequent periods.

(iii) Available-for-sale investments

If there is objective evidence that an available-for-sale investment is impaired, an amount comprising the difference between its cost (net of any principal repayment and amortisation) and its current fair value, less any impairment loss previously recognised in profit or loss, is transferred from equity to the income statement. Reversals of impairment losses for equity instruments classified as available-for-sale are not recognised in profit. Reversals of impairment losses for debt instruments are reversed through profit or loss if the increase in an instrument's fair value can be objectively related to an event occurring after the impairment loss was recognised in profit or loss.

2. Significant accounting policies (contd)

(v) Earnings/(loss) per share

Basic earnings/(loss) per share is calculated as net profit/(loss) attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings/(loss) per share is calculated as net profit/(loss) attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(w) Parent entity financial information

The financial information for the parent entity, Ephraim Resources Ltd, disclosed in Note 25 has been prepared on the same basis as the consolidated financial statements, except for investments in subsidiary entities which are accounted for at cost in the parent entity's financial statements.

3. Critical accounting judgements and key sources of estimation uncertainty

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Going Concern Assessment

Management's assessment of the Company's ability to continue as a going concern is based on relevant conditions or events known or reasonably knowable as at the date the financial statements are issued. The period over which the Company's ability to meet its obligations is assessed is a minimum of one year from the date the financial statements are issued. Where appropriate management considers the mitigating effect of its plans to the extent it is probable that those plans will alleviate any adverse conditions identified during the assessment period.

Impairment of land-use rights

Please refer to Note 9.

Impairment of trade and other receivables

The Group assesses at each reporting date whether there is any objective evidence that a financial asset is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

4. Other income

	Consolidated	
	2018	2017
	\$	\$
Interest revenue	1	35
Other income	124	15,975
	125	16,010

5. Loss for the year

Other expenses

The result for the year includes the following expenses:

	Consolidated	
	2018	2017
	\$	\$
Depreciation	9,922	10,336
Corporate expenses	67,546	142,894
Accounting and auditing expenses	41,651	53,046
Bad debts written off	180,171	-
Impairment of land	426,021	-

6. Income taxes

a) Recognised in the statement of comprehensive income

	Consolidated	
	2018	2017
	\$	\$
The major components of the tax expense are:		
Current tax expense	-	-
Deferred tax expense relating to the origination and reversal of temporary differences	-	-
Total tax expense attributable to continuing operations	-	-

b) Amounts charged or credited directly to equity

Deferred income tax related to items charged directly to equity

Revaluation of land-use rights	-	(650,720)
Income tax (benefit)/expense reported in equity	-	(650,720)

c) The prima facie income tax expense/(benefit) on loss before tax reconciles to the income tax expense in the financial statements as follows:

Loss before income tax expense	(980,007)	(481,592)
Income tax expense/(benefit) calculated at the tax rate of 27.5% (2017: 27.5%)	(294,002)	(132,438)
Foreign tax rate adjustment	26,803	1,618
Deferred tax assets not brought to account	267,199	130,820
Income tax expense /(benefit)	-	-

The tax rate used in the above reconciliation is the corporate tax rate of 27.5% payable by Australian corporate entities on taxable profits under Australian tax law. The foreign tax rate adjustment relates to the Group's operations in Indonesia where the corporate tax rate is set at 25%.

d) Deferred tax assets

Temporary differences		
Other assets	386,076	268,051
Payables	3,000	4,950
Unused tax losses	724,367	530,950
Deferred tax assets not brought to account	(1,113,443)	(803,951)
	-	-

Based on the loss before tax of \$980,007 incurred by the Group during the current financial year and the Group's current development stage, no deferred tax asset on available unused tax losses was recognised at reporting date. These losses remains available to the Group to offset against future taxable profits provided it continues to meet the relevant taxation requirements.

The Group's subsidiary company, PT First Flower, acquired the legal land-use rights over three areas of land from the Indonesian Government during the 2012/2013 financial year (total area of 11,800ha). Notwithstanding that it is not possible to acquire land outright in Indonesia, the Group obtained the exclusive land-use rights over these areas for periods ranging from 25 to 35 years and has consequently recognised the land-use right as if it was freehold land.

On 25 June 2013 the Group engaged Gaia Commoditas, an independent valuer, who determined a fair value of USD2,652,000 for the acquired land-use rights based on the assets' highest and best use, taking into account the use of the asset that is physically possible, legally permissible and financially feasible. For subsequent financial years (June 2014 to June 2016) internal assessments of the carrying values were performed to ascertain if there is any matter or circumstance that might have significantly influenced the carrying value. The revaluation adjustments was allocated to a revaluation reserve.

In light of the Company's current financial position and its inability to fully execute the planned operational and cultivation programmes, some of which were deemed key inputs to the formal valuation, coupled with the extended period since the last formal valuation, the Company adopted a conservative approach in valuing the land-use right assets at 30 June 2018 and reversed the full revaluation reserve previously recognised for these assets and impaired the full cost of the land.

10. Trade and other payables

	Consolidated	
	2018	2017
	\$	\$
Trade payables ⁽ⁱ⁾	435,524	241,475

	631,999	330,377

(i) Trade payables are non-interest bearing and are normally settled on 30 day terms.

11. Loans

	Consolidated	
	2018	2017
	\$	\$
Loan with Chew Lee Ching ⁽ⁱ⁾	100,694	100,694
Loans with Frederick (Eric) Ng ⁽ⁱⁱ⁾	439,100	410,000
Loan with Tang Nee Ooi ⁽ⁱⁱⁱ⁾	10,548	-
	550,342	510,694

- On 25 May 2016 the Company entered into a loan agreement with Chew Lee Ching, a related party of Mr Ng, for the advancement of SGD\$100,000 (A\$100,694) to the Company for working capital purposes. Under the revised terms of the loan agreement full repayment of the loan is required by 30 November 2017 (subsequently extended to 30 June 2018). The loan carries interest at 10% per annum, repayable at the end of the loan term. The interest owing on this loan included in other payables as at 30 June 2018 was A\$16,077 (30 June 2017: A\$6,007). On 13 August 2018 the Company entered into a Deed of Forbearance with Ms Chew Ching in relation to the settlement of this loan – see details below.
- On 13 December 2016 the Company entered into a loan agreement with Mr Ng for the advancement of A\$110,000 to the Company for working capital purposes. Under the revised terms of the loan agreement full repayment of the loan is required by 30 November 2017 (subsequently extended to 30 June 2018) unless shareholders approve the conversion of the loan into ordinary shares (the conversion rate to be the lower of \$0.001 per share (on a pre-consolidated basis) or 75% of the volume weighted average price of the Company's shares calculated over the 15 trading days on which trades in the shares were recorded immediately before the relevant shareholder's meeting). The loan carries interest at 20% per annum, repayable at the end of the loan term. On 8 March 2017 Mr Ng settled a then payable loan balance owed by the Company of A\$300,000, having previously provided a personal guarantee for the loan. The loan with Mr Ng was extended on the same terms as the loan he settled on the Company's behalf, being \$300,000 at an interest rate of 20% per annum payable on or before 30 November 2017, (subsequently extended to 30 June 2018). The loan carries interest at 20% per annum. The total interests owing on these loans included in other payables as at 30 June 2018 was A\$115,003 (30 June 2017: A\$13,441). On 13 August 2018 the Company entered into a Deed of Forbearance with Mr Ng in relation to the settlement of this loan – see details below.

Deed of Forbearance with Ms Chew Ching and Mr Ng

On 13 August 2018 the Company announced that it has entered into a Deed of Forbearance ("Deed") with Mr Ng and Ms Chew Ching relating to a claim from Mr Ng for unpaid director fees and expenses of \$109,872 as well as loan balances repayable by the Company to Mr Ng and Ms Ching totalling \$670,874 at 30 June 2018. The terms of the Deed provide for the following:

- the payment of an amount of \$187,500 by the Company to Mr Ng to be applied to the payment of the unpaid Directors fees and expenses (\$109,872) and the repayment of certain advances made by Mr Ng to the Company and the payment of accrued interest owed by the Company to Mr Ng;
- a period of forbearance of the Company's obligation to repay an aggregate amount of \$602,273.09 (comprising principal and interest owed by the Company to Mr Ng and Ms Ching respectively). The period of forbearance extends to the earlier of:
 - 30 November 2018 (if the Company has not convened a meeting of shareholders to approve the transaction announced by the Company on 10 July 2018 and lodged a prospectus with the Australian Securities and Investments Commission in conjunction with the Transaction);
 - 5 Business Days after the completion of the Transaction;
 - the date the Transaction is terminated in writing;
 - 31 December 2018; or
 - such other date as agreed to by the parties in writing;
- waiver by Mr Ng and Ms Ching of the obligation of the Company to pay interest on amounts owing by the Company to Mr Ng and Ms Ching for the period on and from 1 July 2018, on the condition that the Transaction completes on or before 31 December 2018; and
- repayment of all outstanding amounts owed by the Company to Mr Ng and Ms Ching at any time, on election by the Company, by the Company giving notice to Mr Ng and Ms Ching.

During the year, Mr Ng also provided an interest-free amount of A\$29,100 to the Company for working capital.

- On 25 June 2018, Ms. Tang Nee Ooi paid \$10,548 of Directors and Officers Liability Insurance on behalf of the Company. The amount is still owing at 30 June 2018. The amount outstanding is interest free and repayable by the earlier of the completion of the proposed Bio-Nexus Ltd transaction or 31 December 2018.

12. Issued capital

		Consolidated	
		2018	2017
		\$	\$
1,540,000,642 fully paid ordinary shares (2017: 1,540,000,642)		3,204,484	3,204,484
Date	Details	No.	\$
30 June 2016	Balance at the end of the financial year	1,540,000,642	3,204,484
	Movement during the financial year	-	-
30 June 2017	Balance at the end of the financial year	1,540,000,642	3,204,484
	Movement during the financial year	-	-
30 June 2018	Balance at the end of the financial year	1,540,000,642	3,204,484

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote. Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

Share options

The Company had 18,000,000 unlisted options on issued during the year, exercisable at \$0.00508 per option with an expiry date of 30 November 2017. The options lapsed unexercised on 30 November 2017.

13. Reserves

		Consolidated	
		2018	2017
		\$	\$
Foreign currency translation reserve		15,009	26,961
Share-based payment reserve		-	46,569
		15,009	73,530

Foreign currency reserve

The reserve is used to recognise exchange differences arising from translation of the financial statements of foreign operations to Australian Dollars.

Share-based payment reserve

The share-based payment reserve arises on the grant of share options to directors, executives and/or senior employees. Amounts are transferred out of the reserve when the options lapsed or into issued capital when options are exercised. Further information about share-based payments to directors is made in note 20 to the financial statements.

14. Loss per share

		Consolidated	
		2018	2017
		Cents per share	Cents per share
Basic loss per share attributable to ordinary equity holders of the parent		(0.0633)	(0.0312)

Basic loss per share

The loss and weighted average number of ordinary shares used in the calculation of basic loss per share are as follows:

		2018	2017
		\$	\$
Net loss attributable to ordinary equity holders of the parent		(975,568)	(480,945)
		2018	2017
		No.	No.
Weighted average number of ordinary shares for the purposes of basic loss per share		1,540,000,642	1,540,000,642

Diluted loss per share

Diluted loss per share is the same as basic loss per share.

15. Commitments for expenditure

Operating lease commitments

Operating leasing arrangements

The Group did not have any operating lease commitments at reporting date, a position that remains unchanged at the date of this report.

16. Contingent liabilities and contingent assets

In the opinion of the directors, there were no contingent assets or liabilities as at 30 June 2018 and no contingent assets or liabilities were incurred in the interval between the period end and the date of this financial report.

17. Subsidiaries

Name of entity	Country of incorporation	Ownership interest	
		2018 %	2017 %
Legal Parent entity			
Ephraim Resources Limited	Australia	N/A	N/A
Legal Subsidiaries			
Ephraim Resources Limited	British Virgin Island	100.0	100.0
PT First Flower	Indonesia	99.2	99.2

18. Notes to the statement of cash flows

(a) Reconciliation of cash and cash equivalents

For the purposes of the statement of cash flows, cash and cash equivalents includes cash on hand and in banks and investments in money market instruments, net of outstanding bank overdrafts. Cash and cash equivalents at the end of the financial year as shown in the statement of cash flows is reconciled to the related items in the statement of financial position as follows:

	Consolidated	
	2018 \$	2017 \$
Cash and cash equivalents per statement of cashflows and statement of financial position	1,312	13,233

(b) Non-cash financing and investing activities

During the current financial year and the prior financial year, there were no non-cash financing or investing activities.

(c) Financing facilities

The Group did not have any financing facilities at reporting date, nor at the date of this report.

(d) Reconciliation of loss for the year to net cash outflows from operating activities

	Consolidated	
	2018 \$	2017 \$
Loss for the year	(980,007)	(481,592)
Depreciation and amortisation	9,922	10,336
Net foreign exchange loss	14,960	20,811
Provision for doubtful debt	-	24,775
Bad debts written off	180,171	-
Impairment of land	426,021	-
(Increase)/decrease in assets:		
Trade and other receivables	7,431	28,980
Increase/(decrease) in liabilities:		
Trade and other payables	289,933	82,016
Net cash outflow used in operating activities	(51,569)	(314,674)

19. Financial instruments

(a) Overview

The Group has exposure to the following risks from their use of financial instruments: Credit risk, Liquidity risk, Market risk, Currency risk, Interest rate risk and Capital Management.

This note presents information about the Group's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout this note and the financial report.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group aim to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

(b) Credit risk management

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the receivables from customers and receivables due from subsidiaries. The Group has no significant concentrations of credit risk. The Group obtains, where appropriate, relevant guarantees and securities to ensure recoverability of the amounts owed.

The Group has policies in place to ensure that sale of products and services are made to customers with an appropriate credit history. Cash deposits are limited to high credit quality financial institutions.

The carrying amount of financial assets recorded in the financial statements, net of any allowance for losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

(c) Liquidity risk management

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when they fall due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 6 months, including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted such as natural disasters.

Liquidity and interest risk tables

The following tables detail the Group's remaining contractual maturities for its non-derivative financial assets and liabilities and have been prepared on the following basis:

- Financial assets - based on the undiscounted contractual maturities including interest that will be earned on those assets except where the Group anticipates that the cash flow will occur in a different period; and
- Financial liabilities - based on undiscounted cash flows on the earliest date on which the Group can be required to pay, including both interest and principal cash flows.

	CONSOLIDATED

The Group did not have any unsettled derivative financial instruments at reporting date (2017: \$Nil).

(d) Market risk

The Group has minimal exposure to market risks.

(e) Foreign currency risk management

Currency risk is the risk that the value of a financial commitment, probable transaction, recognised asset or liability will fluctuate due to changes in foreign currency rates.

The Group operated internationally and was exposed to foreign exchange risk arising from currency exposures to major currencies. In the current year and prior year, exchange rate exposures have been managed using sensitivity analysis and cash flow forecasting.

The carrying amount of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting date, expressed in Australian dollar, is as follows:

	Assets		Liabilities	
	2018 \$	2017 \$	2018 \$	2017 \$
SGD	-	-	100,694	100,694

Foreign currency sensitivity

The Group is exposed to Singaporean Dollar (SGD) fluctuations.

The following table details the Group's sensitivity to a 10% increase and decrease in the Australian dollar against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A positive number indicates an increase in profit or loss and other equity where the Australian Dollar strengthens against the respective currency. For a weakening of the Australian Dollar against the respective currency there would be an equal and opposite impact on the profit or loss and other equity and the balances below would be negative.

	Consolidated	
	2018 \$	2017 \$
Net loss	(10,069)	(10,069)
Equity	(10,069)	(10,069)

(f) Interest rate risk management

The Group is exposed to interest rate risk and manages this risk by keeping liabilities to a financially tolerable level and taking into account expected movements in interest rates.

Some of the Group's assets are subject to interest rate risk but the Group is not dependent on this income. Interest income is only incidental to the Group's operations and operating cash flows. The Company and Group's exposures to interest rate on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

19. Financial instruments (contd)

(f) Interest rate risk management (contd)

Interest rate sensitivity analysis

The sensitivity analyses of the Group's exposure to interest rate risk at the reporting date has been determined based on the change of 50 basis points in interest rates. At reporting date, there were minimal cash at bank and the interest-bearing loan account has a fixed rate interest.

(g) Capital management

Management controls the capital of the Group in order to maintain an appropriate debt to equity ratio, to ensure that the Group can fund its operations and continue as a going concern. The capital structure of the Group consists of debt, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings. The Company is currently required to demonstrate sufficient working capital to execute its planned operations as part of its requirement to lift the current suspension in trading of its securities imposed on it by the Australian Stock Exchange.

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market taking into account the level of the Group's operations.

There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year.

(h) Fair value measurement

The following tables detailed the Groups' assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3 – unobservable inputs for the asset or liability.

Consolidated – 2018	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Assets				
Land-use rights	-	-	-	-
	-	-	-	-
Liabilities	-	-	-	-
	-	-	-	-
Consolidated – 2017	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Assets				
Land-use rights	-	-	440,981	440,981
	-	-	440,981	440,981
Liabilities	-	-	-	-
	-	-	-	-

There were no transfers between levels during the year. The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short term nature.

A reconciliation of the fair value measurement of the land-use right assets is provided in note 9.

20. Share-based payments

Director share options

Director share options are subject to approval by shareholders. The Company did not issue any share options or share-based payments during the 2018 and 2017 financial years.

No expense was recognised in the 2018 and 2017 financial years in the statement of comprehensive income in relation to share-based payments.

The following share-based payment arrangements were in existence during the current reporting periods:

	2018		2017	
	Number of shares/ options	Weighted average exercise price \$	Number of shares/ options	Weighted average exercise price \$
Balance at beginning of the financial year	18,000,000	0.00508	18,000,000	0.00508
Granted during the financial year (i)	-	-	-	-
Exercised during the financial year	-	-	-	-
Lapsed during the financial year	(18,000,000)	(0.00508)	-	-
Balance at end of the financial year	-	-	18,000,000	0.00508
Exercisable at end of the financial year	-	-	18,000,000	0.00508

All options lapsed unexercised during the year. The balance in share-based payment reserve of \$46,569 has been reversed to accumulated losses.

21. Related party transactions

(a) Equity interests in related parties

Equity interests in subsidiaries

Details of the percentage of ordinary shares held in subsidiaries are disclosed in Note 17 to the financial statements.

(b) Transactions with key management personnel

Key management personnel compensation

Details of key management personnel compensation are disclosed in the Remuneration Report which forms part of the Directors' Report and have been audited.

The aggregate compensation paid to key management personnel of the Group is set out below:

	Consolidated	
	2018 \$	2017 \$
Short term employee benefits	109,000	117,526
	109,000	117,526

As at 30 June 2017 and 2018, the amounts of key management personnel compensation owing to the directors included in trade and other payables were as follows:

	Consolidated	
	2018 \$	2017 \$
Michael Pixley (i)	2,500	2,500
Frederick (Eric) Ng (ii)	118,899	45,308
Steven Pynt	45,000	15,000
Andrew Chan (iii)	10,000	-
	176,399	62,808

(iv) Resigned on 20 December 2016.

(v) Resigned on 15 June 2018.

(vi) Resigned on 30 November 2017.

(c) Loans with key management personnel and other related parties

Please refer to note 11 for loans with related parties.

22. Segment reporting

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The Company's operating segments have been determined with reference to the monthly management accounts used by the chief operating decision maker to make decisions regarding the Company's operations and allocation of working capital. Due to the size and nature of the Company, the Board as a whole has been determined as the chief operating decision maker. The Group has two reportable operating segments those being Australia and Indonesia.

The accounting policies applied for internal reporting purposes are consistent with those applied in the preparation of these financial statements.

Guarantees entered into by the parent entity

There have been no guarantees entered into by the parent entity in relation to the debts of its subsidiaries.

Contingencies of the parent entity

In the opinion of the directors, there were no contingent assets or liabilities as at 30 June 2018 which related to the parent entity.

Commitments for the acquisition of property, plant and equipment by the parent entity

The parent entity had no commitments at 30 June 2018 for the acquisition of property, plant and equipment.

26. Subsequent events

On 10 July 2018, the Company announced that it has signed a non-binding memorandum of understanding (“MOU”) with Israeli technology company Bio-Nexus Limited (“Bio-Nexus”) to acquire 100% of Bio-Nexus (“Transaction”). Bio-Nexus is an Israeli company established in October 2010. Bio-Nexus provides mobile workflow process software which allows for end-to-end maintenance management solutions in the medical, aeronautical and industrial sectors. In addition to Israel, it has a physical presence in the United States, Czech Republic, Singapore and Australia.

The Company and Bio-Nexus have commenced due diligence and negotiation of the terms of binding documentation. Under the MOU, Bio-Nexus has however, in a binding manner, agreed to pay the reasonable costs of the Company directly incurred in connection with the Transaction.

The indicative key terms of the Transaction are:

- that the total consideration is subject to completion of due diligence;
- that the Company will issue new shares in satisfaction of the total consideration payable;
- on completion of the Transaction: Bio-Nexus will appoint at least 5 directors to the board of EPA; Bio-Nexus will appoint the chair and the incoming CEO who will manage all of the business of the combined group; and the Company will change its name to “Bio-Nexus”; and
- binding documentation will include the following conditions precedent to the extent not satisfied before execution:
 - completion of satisfactory legal and financial due diligence by both the Company and Bio-Nexus;
 - approval of the respective boards and shareholders of the Company and Bio-Nexus;
 - obtaining regulatory approvals as required;
 - obtaining material third party consents identified during due diligence;
 - the Israeli Tax Authority granting roll-over relief (or equivalent relief) to existing Bio-Nexus shareholders;
 - the Company completing a limited capital raising before implementation of the Transaction; and
 - the representations and warranties given by the parties in the binding documentation remaining true and correct.

As noted above, the Transaction is subject to a number of approvals which will be included as conditions precedent in the binding documentation, including the ASX re-confirming the suitability of the Company for admission to the official list of ASX.

On 23 July 2018, the Company announced that it has issued convertible notes in the Company raising an aggregate of \$250,000. The summary of the principal terms are:

- face value is \$1 per convertible note;
- interest rate is 10% p.a. compounding monthly;
- maturity period is 24 months from the issue date;
- automatically convert into ordinary shares on completion of the Transaction above and only if the Transaction has completed by 31 December 2018;
- conversion price per ordinary share is a 30% discount to the issue price per ordinary share issued pursuant to the proposed Transaction between the Company and Bio-Nexus, subject to a minimum conversion price of \$0.20;
- if the Transaction has not completed by 31 December 2018, the principal and any accrued interest is due and payable.

On 13 August 2018 the Company announced that it has entered into a Deed of Forbearance (“Deed”) with Mr Ng and Ms Chew Ching relating to a claim from Mr Ng for unpaid director fees and expenses of \$109,872 as well as loan balances repayable by the Company to Mr Ng and Ms Ching totalling \$670,874 at 30 June 2018. The terms of the Deed provide for the following:

- the payment of an amount of \$187,500 by the Company to Mr Ng to be applied to the payment of the unpaid Directors fees and expenses (\$109,872) and the repayment of certain advances made by Mr Ng to the Company and the payment of accrued interest owed by the Company to Mr Ng;
- a period of forbearance of the Company’s obligation to repay an aggregate amount of \$602,273.09 (comprising principal and interest owed by the Company to Mr Ng and Ms Ching respectively). The period of forbearance extends to the earlier of:
 - 30 November 2018 (if the Company has not convened a meeting of shareholders to approve the transaction announced by the Company on 10 July 2018 and lodged a prospectus with the Australian Securities and Investments Commission in conjunction with the Transaction);
 - 5 Business Days after the completion of the Transaction;
 - the date the Transaction is terminated in writing;
 - 31 December 2018; or
 - such other date as agreed to by the parties in writing;
- waiver by Mr Ng and Ms Ching of the obligation of the Company to pay interest on amounts owing by the Company to Mr Ng and Ms Ching for the period on and from 1 July 2018, on the condition that the Transaction completes on or before 31 December 2018; and
- repayment of all outstanding amounts owed by the Company to Mr Ng and Ms Ching at any time, on election by the Company, by the Company giving notice to Mr Ng and Ms Ching.

There has not been any other matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the current operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years. .
