Companies Announcements Office  
Australian Stock Exchange

26<sup>th</sup> September 2018

**Purchase order for chemicals received from Iluka Resources Limited**

- **Purchase order for chemicals received from Iluka Resources for trial at an Australian mineral sands operation**
- **Trial to commence during December quarter for a two-week period to run concurrently with commencement of a previously agreed commercial trial of an OptiFlox® System**
- **Ongoing chemical sales following a successful trial would materially grow SciDev's revenue**

SciDev Ltd (ASX: SDV) ('SciDev' or 'the Company') is pleased to advise that it has received a purchase order from Iluka Resources Limited ('Iluka') for a trial of the Company's chemical products at an Australian mineral sands operation.

The trial, which will commence during the December quarter, will run concurrently with the commencement of a commercial trial of an OptiFlox® System at the site (refer ASX announcement: 3 September 2018). The trial of the Company's OptiFlox® System aims to optimise water recovery, consumable usage and improve tailings deposition.

Pending success of both the chemical trial and the associated OptiFlox® System trial, SciDev will seek to progress discussions with Iluka in respect of an ongoing chemical sales contract. Any long-term arrangements agreed with Iluka would materially increase the Company's revenue.

SciDev management looks forward to updating shareholders on the Iluka trials and a number of other pending developments during the December quarter.
