SRG GLOBAL AWARDED ~\$30M DESIGN, SUPPLY & FACADE INSTALLATION CONTRACT, BRISBANE

Highlights:

- **SRG Global secures a substantial ~\$30.0m curtain wall facade contract for the development of an 82-level residential tower at the 300 George St development in the Brisbane Central Business District ('CBD')**
- **This is the third tower within this development to be awarded to SRG Global's facade division**

SRG Global (ASX:GCS) is pleased to announce that today it has formally secured a substantial ~\$30.0m contract for the development of a new 82-level residential tower at 300 George Street, Brisbane.

The 300 George St project is a mixed-use development being constructed by tier one construction company, Multiplex Constructions Pty Ltd. The Residential tower is the third tower being constructed on the site with the commercial use tower currently under construction and the hotel tower already complete. The residential tower will be the equal tallest building in the Brisbane CBD.

The curtain wall facade will be designed prefabricated and transported to site allowing the project team to carry out on-site installation works over an approximate 24-month period. Project works are expected to commence in late 2018.

David Macgeorge, SRG Global Managing Director said "This is an outstanding contract success for SRG Global. Being awarded the entire curtain wall facade construction package of this significant three-tower development underscores the Group's ability to deliver specialist engineering and construction services to our tier one client base."

ABOUT SRG GLOBAL

Between March and September 2018 three companies came together to create SRG Global. In March 2018 SRG Limited ('SRG') acquired the TBS Group ('TBS'), a specialist industrial contractor in asset and infrastructure services. Six months later, SRG and Global Construction Services Ltd ('GCS') implemented a merger of equals between the two ASX listed companies. The combined group, being SRG, GCS and TBS are now all SRG Global.

SRG Global is now a specialist engineering, construction and maintenance group. Our vision is 'making the complex simple' across the entire asset lifecycle of engineer, construct and sustain.
