About Zyber

Zyber Secure Mobile Solutions (www.zyber.com) builds secure file sharing business applications with an emphasis on security, scalability and functionality. Zyber automates confidential information flow processes for industries including government, banking, healthcare, retail and the public sector.

Zyber was initially listed on ASX as a business developing a secure, easy to install, mobile communication platform that allows users to transact, share data and collaborate across multiple devices and operating systems. The design of the software platform has departed from its original development objectives, which included 4 stages beginning with USB virtual desktop and ending with mobile touch virtualization. Zyber is now developing a proof of concept that will provide end-to-end encryption using blockchain technology.

Zyber has not proceeded with its previous plans to prepare provisional patent applications and will consider the most appropriate means of protection given the software's stage of development and its budget.

Social Media Policy

We believe in providing the highest levels of communications, and whilst the ASX remains the platform for market sensitive releases, we encourage all shareholders to follow Zyber on Twitter (@myzyber), LinkedIn and YouTube.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
