## EXPLANATORY NOTES TO THE INTERIM REPORT FOR THE QUARTER ENDED 30 SEPTEMBER 2018

### A EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD (“MFRS”) 134, INTERIM FINANCIAL REPORTING

#### A1 BASIS OF PREPARATION

The interim financial report has been prepared in accordance with MFRS 134, Interim Financial Reporting and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. These financial statements also comply with IAS 34 Interim Financial Reporting issued by the International Accounting Standards Board.

The interim financial statements prepared in accordance with MFRS 1, First-time Adoption of Malaysian Financial Reporting Standards, retrospective adjustments have been made on the comparative financial information other than those exempted under MFRS 1. The interim financial reports should be read in conjunction with the Group’s audited financial statements for the financial year ended 31 December 2017 and the accompanying explanatory notes attached to this interim financial report.

These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Company and its subsidiaries (“the Group”) since the year ended 31 December 2017.

#### A2 CHANGES IN ACCOUNTING POLICIES

The significant accounting policies adopted are consistent with those of the audited financial statements of the Group for the year ended 31 December 2017, except for the adoption of the following MFRSs and amendments to MFRSs that are relevant to its operations:

Amendments to MFRS 1 and MFRS 128	Annual Improvements to MFRS Standards 2014-2016 Cycle
MFRS 9	Financial Instruments
MFRS 15	Revenue from Contracts with Customers
Amendments to MFRS 15	Clarification to MFRS 15
Amendments to MFRS 140	Transfers of Investment Property
IC Interpretation 22	Foreign Currency Transactions and Advance Consideration

Except as otherwise indicated below, the adoption of the above MFRSs and amendments to MFRSs does not have significant impact on the financial statements of the Group.

### **MFRS 15 Revenue from Contracts with Customers**

MFRS 15 introduces a new model for revenue recognition arising from contracts with customers. MFRS 15 will replace MFRS 111 Construction Contracts, MFRS 118 Revenue, IC Interpretation 13 Customer Loyalty Programmes, IC Interpretation 15 Agreements for the Construction of Real Estate, IC Interpretation 18 Transfers of Assets from Customers and IC Interpretation 31 Revenue - Barter Transactions Involving Advertising Services. The application of MFRS 15 may result in a difference in the timing of revenue recognition as compared with current accounting policies.

The Group assessed expenses incurred by the Group in securing contracts with customers will now be capitalised as costs to obtain contact. The cost to obtain contract will be amortised to profit or loss by reference to the progress towards completing the performance obligation under the contract. In addition, legal fees borne by the Group in securing contracts with customers will be accounted for as a reduction against the gross development value of the project.

The Group adopt the standard using the full retrospective approach, requiring the restatement of comparative period presented in the financial statements.

### **MFRS 9 Financial Instruments**

MFRS 9 addresses the classification, recognition, derecognition, measurement and impairment of financial assets and financial liabilities, as well as general hedge accounting. It replaces MFRS 139. MFRS 9 requires financial assets to be classified into two measurement categories, i.e. at fair value and at amortised cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the MFRS 139 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to changes in an entity's own credit risk is recorded in other comprehensive income, unless this creates an accounting mismatch. MFRS 9 contains a new impairment model based on expected losses (as oppose to 'incurred loss' model under MFRS 139), i.e. a loss event need not occur before an impairment loss is recognised, which will result in earlier recognition of losses.

The Group chose to make the irrevocable election on transition to classify these investments as Equity instruments at fair value through other comprehensive income (Equity FVTOCI) as permitted by MFRS 9.

The following tables summaries the impacts of adopting MFRS on the Group's consolidated financial statements.
