

Linus Technologies Limited

Recording: 2018 AGM presentation and product demonstration

Linus Technologies Limited (ASX: LNU) is pleased to provide a link to a live recording of its 2018 Annual General Meeting (AGM), which was held at the offices of Norton Rose Fulbright, RACV Tower, Level 15, 485 Bourke Street, Melbourne, Victoria, Australia on Thursday 29 November 2018.

The live recording of AGM proceedings contains edited highlights, including: The Chairman's Address by Gerard Bongiorno (Linus Executive Chairman), Review of Operations by Chris Richardson (Linus CEO), and a full unedited demonstration of Linus' ability to deliver hyper-personalized video experiences on-the-fly, with its world-first patented video virtualization technology.

About Linus Technologies Limited:

Linus Technologies Limited (ASX: LNU) has invented and patented the **Video Virtualization Engine™ (VVE)**, which is available on Amazon Web Services, Microsoft Azure and IBM Cloud.

Amazon, Microsoft and IBM are investing billions in virtualizing 'video services' (technologies) and Artificial Intelligence in the cloud. It is arguably the biggest battle on the internet, given that video accounts for nearly 80 percent of internet traffic.

Only Linus can expose the data that makes up the video file, making cumbersome video as flexible as all other forms of data. Accessing the data within the video file is the missing link for video cloud service providers, creating unparalleled value across the internet video industry.

Linus' VVE-powered Video Hyper-Personalization and Search Solution enables anyone to instantly search the data within video, from across an infinite number of sources, and automatically assemble the results in a single stream on-the-fly. No human hands required.

Linus is revolutionizing the way organizations and individuals across the globe produce, deliver and consume video, enabling previously impossible hyper-personalized video experiences.

DATE OF RELEASE 10:00 AEDT, 30 NOVEMBER 2018

RECORDING: 2018 AGM HIGHLIGHTS AND HYPER-PERSONALIZED VIDEO DEMONSTRATION

It's a breakthrough set to disrupt entire multi-billion-dollar industries. Linius is initially focused on delivering its Video Hyper-Personalization and Search Solution to six core markets: News and Media, Sports Broadcasters and Rights Holders, Education, Corporate Communications, Security and Defense and Sports Betting.
