11 December 2018

CARNILYA HILL GOLD PROJECT – DECEMBER UPDATE

Anglo Australian Resources NL (“**Anglo Australian**” or the “**Company**”) is pleased to advise that it holds the gold rights in respect of the Carnilya Hill Gold Project.

Carnilya Hill is located approximately 20 kilometres east-south-east of the Company’s Feysville Project and approximately 40 kilometres south-east of Kalgoorlie, Western Australia.

The Project encompasses various tenements – M26/047-049, M26/453 representing an aggregate area of approximately 2.65 square kilometres – with rights to nickel and other minerals held by Mincor Resources NL (ASX: MCR).

A newly defined prospect named Hang Glider Hill has been outlined by Lefroy Exploration Limited (ASX : LEX) immediately north of the Carnilya Hill tenements. The prospect comprises a surface gold geochemical anomaly where a number of gold nuggets have been recovered.

A regional map illustrating the location of the Carnilya Hill Gold Project and its proximity to Lefroy’s Hang Glider Hill gold anomaly is set out in Figure 1.

Anglo Australian will undertake a data review and site visit with a view to commencing exploration on the Project in mid 2019.
