December Quarter Review

CHATREE GOLD MINE, Thailand

Care and Maintenance

Akara Resources Public Company Limited (“Akara”), a subsidiary of Kingsgate, ceased operating the Chatree Gold Mine on 31 December 2016 in accordance with the closure order by the Thai Government. Chatree was placed on Care and Maintenance effective 1 January 2017. Approximately 25 full time staff remain at the Chatree Gold Mine to manage the ongoing Care and Maintenance and rehabilitation works.

At mine closure, approximately US\$6 million of gold and silver inventory in the form of high-grade sludge remained at the Chatree site. Akara is still working towards having the sludge released for sale. However, there can be no guarantee that this will occur.

NUEVA ESPERANZA PROJECT, Chile

Nueva Esperanza is a feasibility-stage development project with a resource base of approximately 1.9 million ounces gold equivalent (see “Notes for Mineral Equivalents”).

Kingsgate has appointed a corporate advisor to advise and assist it in identifying advantageous options to monetise the project. As a number of parties are still conducting due diligence, Kingsgate expects to be able to provide a further update on the process when a transaction has been initiated.

Work on the permitting process continued during the quarter, however all other non-essential functions have been deferred pending the sale of the project.

CORPORATE & FINANCE

Finance

At the end of December 2018, Kingsgate’s Group Cash totalled A\$1.1 million excluding US\$6 million of gold and silver inventory in the form of high grade sludge secured at the Chatree mine site.

With reference to its previous advice that on 29 August 2017, Kingsgate executed a \$15.0 million Standby Loan Facility (“SLF”) the Company drew down the SLF in full on 2 May 2018, in order to ensure continuing funding of its activities.

The SLF is on normal commercial terms for a loan of this nature, and includes a utilisation fee under the SLF which has been satisfied by the issuance of 2,641,003 Kingsgate shares. (See ASX:KCN “Appendix 3B – Issue of Shares” dated 7 May 2018).

Kingsgate is currently negotiating a revised repayment schedule with the lender following an increase in the Facility Limit by \$5.0 million to \$20 million. As at 31 December 2018, \$18.75 million of this facility had been drawn down. A further \$1.25 million has been drawn down in January 2019.

The Company continues to pursue its claims against the Kingdom of Thailand under the Australia Thailand Free Trade Agreement and against Zurich Australia Limited and other named insurers under its Political Risk Insurance Policy.

The Company remains open to settlement of both claims.

Kingsgate continues to cut costs and review expenditure across the Group. An independent corporate review has identified further cost cutting opportunities, which includes the sale of surplus land, equipment and the further rationalisation of the corporate footprint in Sydney, Thailand and Chile. This includes the deferral of payment of Board fees.

Notes for Mineral Equivalents:

The resource base of 1.9 million ounces of gold equivalent is broken down as follows: Measured – 0.08 Moz, Indicated – 1.46 Moz and Inferred – 0.33 Moz. Gold Equivalent is based on the following: AuEq (g/t) = Au (g/t) + Ag (g/t) / 60. Calculated from prices of US\$1200/oz Au and US\$19.00/oz Ag, and metallurgical recoveries of 80% Au and 84% Ag estimated from test work by Kingsgate (See ASX:KCN released titled "Kingsgate Mineral Resources and Ore Reserves 2016" dated 7 October 2016).
