

## **HomeStay Appoints CTO**

**Sydney, Australia:** In-home care technology company HomeStay Care Limited (ASX:HSC) is pleased to announce the appointment of Mr. Manoj Chandra as Chief Technology Officer (“CTO”).

HomeStay welcomes Manoj Chandra as Chief Technology Officer (“CTO”) to the HomeStay group, scheduled to formally commence on 7 February 2019. Manoj is a key appointment to the growing HomeStay team, bringing significant experience to manage the ongoing development and rollout of the HomeStay technology across the projects underway.

Manoj is a technology executive with more than a decade of experience in software design and development. He has a long track record of ensuring quality delivery of projects within budget by efficiently organising, managing and utilising resources available. He has extensive experience in effectively integrating technology realities with strategic business goals.

Manoj holds a Bachelor of Engineering from the University of New South Wales and a Master of Commerce specialising in Finance. In his most recent role with DXC (Fortune 500 technology consulting company), Manoj was responsible for managing over \$50M worth of projects, he was actively involved in developing software architecture and designs of products. He was also the Strategic Advisor to the APAC Leadership team to provide guidance on product roadmaps and innovative R&D activities. Manoj has previously held CTO, Head of Engineering, Senior Software Development roles. Prior to entering technology, Manoj spent three years as a Derivatives Trader.
