

## **Zenith Energy receives Certificate of Full Diesel Completion for 62MW power station at Newmont's Tanami Gold Mine**

**Zenith Energy to conduct 1H 2019 results teleconference at 1:30PM AWST on Wednesday February 27<sup>th</sup>**

### *Full Diesel Completion at Tanami*

- Certification of Full Diesel Completion achieved following successful diesel performance testing of its 62MW power station at Newmont's Tanami Gold Mine
- 42km of 66kV transmission interconnect energised, transmitting power between the Dead Bullock Soak and Granites sites at Tanami
- Supply of diesel-fuelled electricity has commenced at Dead Bullock Soak and Granites sites
- Gas generation commissioning completed on all 9 Jenbacher 620 generators at the Granites and Dead Bullock Soak power stations
- The new 62MW power station delivers a 43% increase in Zenith Energy's total BOO capacity, which now stands at circa 209MW and will contribute to FY19 earnings

Remote power generation specialist Zenith Energy Limited (ASX: ZEN) (Zenith or the Company) is pleased to announce that it has received Certification of Full Diesel Completion having successfully satisfied the diesel performance testing requirements of its 62MW power station at Newmont's Tanami Gold Mine.

Zenith has also commissioned and now energised the 42km 66kV interconnect to optimise power sharing between the Dead Bullock Soak and Granites sites for Newmont Mining Corporation's (Newmont) wholly-owned subsidiary, Newmont Mining Services Pty Ltd, Tanami Gold Mine.

Zenith will now commence commissioning of the Wartsila gas generation capacity before conducting the full completion performance testing in the coming weeks.
