

ASX Announcement

30 April 2019

ASX Code: VKA

Quarterly Report for the period ended 31 March 2019

During the quarter ended 31 March 2019, Viking Mines Ltd (**Viking** or the **Company**) was actively focussed on reviewing new acquisition opportunities and continuing the proceedings against the purchaser of the Akoase Gold Project.

1. Akoase Gold Project (Ghana, VKA 100% - reducing to 0% upon completion of sale)

In June 2015 the Company executed a sale contract for the Akoase Gold Project for an overall transaction value of USD\$10 million, of which USD\$8 million was to be paid in cash.

Viking has previously been paid USD\$5 million in sales proceeds. The remaining USD\$3 million was due by 31 December 2017 with a grace period until 31 January 2018. At the date of this announcement, the USD\$3 million has not been received by the Company.

Current Akoase sale proceeds summary:

- USD\$5 million – paid to date;
- USD\$3 million – this amount was due to be paid by 31 December 2017. At the date of this announcement, the USD\$3 million has not been received by the Company; and
- a further USD\$2 million via royalties from production.

As announced to the market on 22 October 2018, the Company's lawyers in Ghana have filed and served proceedings against the purchaser and guarantors of the Akoase Gold Project. The matter is proceeding in the High Court (Commercial Division) in Ghana. Subsequent to the end of the quarter, the parties have engaged in lengthy negotiations with a view to settling the proceedings and the Company will ensure that the market is informed of any material information relating to this matter as it progresses.

2. Tumentu Gold Project (Ghana, VKA 100%)

The Company was active in seeking the grant of the Tumentu prospecting licence from the Minerals Commission during the March 2019 quarter.

Subsequent to the end of the quarter, the Minerals Commission of Ghana have granted the prospecting licence for Tumentu as announced to the market on 26 April 2019.

The Company has developed and budgeted for a two year work program, consisting of air-core (AC) and reverse circulation (RC) drilling, soil geochemistry and ground based geophysics. A recent field inspection (April 2019) by directors of the Company indicated the prospectivity of this area.

The Company will update the market on progress made with the Tumentu program in due course.

3. Berkh Uul Coal Project (Mongolia, VKA 100%)

No on-ground activity on the project during the quarter.

Viking continues to seek resolution relating to changes to boundaries of protected areas affecting the Berkh Uul prospecting license, introduced under Long Name Law in 2010. The Company has commenced action against the Mineral Resources and Petroleum Authority of Mongolia in this regard.

The Company has received a written judgement from the Administrative Court, which found that compensation was payable by the Finance Ministry. The Company has received legal advice that the payer of the compensation should be the Minerals and Petroleum Authority of Mongolia and the Company has lodged an appeal in respect of the judgement. The Appeal Court has remitted the matter to the Administrative Court for rehearing in relation to this and other matters.

4. Khonkhor Zag Coal Project (Mongolia, VKA 100%)

No on-ground work was undertaken on the project during the quarter.

As announced to the market on 3 October 2018, the Company signed a binding terms sheet with Altain Nuurs LLC to sell all of the assets held by the Company in Mongolia, being the Berkh Uul coal project and the Khonkhor Zag coal project, for a total consideration of USD\$1,000,000. The Company will ensure that the market is informed of any material information relating to this transaction as it progresses.

As announced on 31 January 2019, the proposed sale to Altain Nuurs LLC did not proceed. In accordance with and consistent with the Board's objectives, the Company has continued to engage with other prospective buyers in relation to these assets, which negotiations are on a preliminary basis.

5. Corporate

The Company has a strong cash position of \$2.549 million as at 31 March 2019.

Other than the matters set out above, no other matter or circumstance has arisen since 31 December 2018 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

The Board believes Viking is in a strong and unique position to identify and evaluate opportunities in the mining sector.

The Company continues its review of mineral project farm-in/acquisition opportunities with the objective of acquiring mature exploration assets with potential to deliver long-term sustainable cash flow.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
