

ASX ANNOUNCEMENT

30 April 2019
by e-lodgement

The Directors of Triple Energy Limited (ASX: **TNP**, **Triple** or **Company**) are pleased to provide the following update on activities during and since the quarter to 31 March 2019.

Xin 214 Project - Songyuan

During the September 2018 quarter, the Company announced it had entered into a Memorandum of Understanding (MoU) with Guangzhou Bofu Investment Co. Ltd (GBIC), which intends to acquire an 80% interest in Songyuan Petroleum Development Co. Ltd (SPDC), which in turn has the right to derive income from the development of 4 oil blocks in Songyuan City, Jilin Province in the PRC.

Triple staff in HK and PRC are continuing to progress negotiations and due diligence on the project. The terms of the initial MoU provided for a period of approximately 6 months (unless extended) and contemplates that the parties will negotiate a transaction whereby Triple indirectly or directly acquires GBIC, thereby obtaining the right to derive income from the above-mentioned oil blocks. MoUs of this type are commonly used in the PRC as a precursor to more formal documentation. Both parties have reached in-principle agreement for an extension of the MoU and are continuing to work co-operatively in accordance with the original MoU arrangement pending formal execution of an extension.

As previously advised, there are understood to be hydrocarbon quantities associated with the exploration areas based on existing wells and, subject to being able to agree terms, the Company intends to engage a suitably qualified reserves evaluator to undertake a review of the relevant technical information to produce an SPE-PRMS compliant report.

Aolong JV Project in Heilongjiang

No significant exploration activity was carried out during the quarter on the Hegang project area or other areas to which the Aolong Co-operative Joint Venture (**CJV**) holds contractual rights to acquire interests. The joint venture partners continue to work towards agreeing necessary measures for closer cooperation, to minimize any future development conflicts as well as identifying other project areas suitable for gas production, having regard to the geological complexities apparent in the existing project area. Further work to continue the identification, rank and work-up of potential sites for future drilling remains subject to funding and the successful outcome of joint venture discussions.

Corporate & Financial

Triple staff in Australia, HK and PRC, including and supported by BGBS employees, continue to work actively on the evaluation of other potential new projects consistent with the Company's strategy.

As of 31 March 2019 the Group's consolidated cash balance was A\$555k, including funds held by the Aolong CJV in China. An ASX Appendix 5B for the quarter accompanies this activities report.
