### Highlights:

- WestStar business **SIMPEC Pty Ltd** has been awarded a **~\$10M contract by ATCO Structures and Logistics**
- Under the contract, SIMPEC will supply and install the Electrical, Communications and Dry fire systems for an 800-room Mine camp at **Fortescue Metals Group's Eliwana** mine site in the Pilbara, Western Australia;
- WestStar has now been awarded **~\$43M** of contracts during YTD FY19

WestStar Industrial Limited ("WestStar" or "the Company") is pleased to advise its engineering contractor business SIMPEC Pty Ltd ("SIMPEC") has been awarded a key contract by ATCO Structures and Logistics ("ATCO") in the construction of a 800-room camp at Fortescue's Eliwana iron ore mine in the Pilbara region of Western Australia.

The ~\$10 million contract commences in mid-2019 and represents SIMPEC's largest single contract award to date.

### The Permanent Camp Project (the "Camp")

SIMPEC's scope of work is to design, supply, construct, test, commission the electrical, communications and dry fire systems of the 800-room mine camp. The Camp will be delivered over a 9-month duration.

The Camp will be used in the major development project at Fortescue's new Eliwana Mine. To be involved in the construction of a key element of the Eliwana mine development for Fortescue is a significant milestone for SIMPEC. This is SIMPEC's first contract on a Fortescue project.

The award builds on the portfolio of camp work packages successfully undertaken by SIMPEC, specifically the camp works completed at Iluka Resources' Cataby Iron Sands Project and the works currently underway for Rio Tinto's West Angelas project.

SIMPEC Managing Director Mark Dimasi noted:

*"To see the fruits of the concerted effort during the Fortescue Eliwana tender phase is very rewarding for the team. This Tier one project award is a significant achievement for SIMPEC allowing the Company to construct alongside some of Australia's biggest construction companies. This is another commendable accomplishment with ATCO, well-done team."*

**Outlook**

This award ensures that SIMPEC has a presence across each of the new significant iron ore development projects in Western Australia. With this award, WestStar has been awarded ~\$43M of contracts during YTD FY19. SIMPEC's capabilities are being duly recognised with contract awards and it has submitted further tenders for more than \$150 million of work yet to be awarded.
