ASX Announcement

## **DRAGONTAIL ACHIEVES A NEW MONTHLY INSTALLATION RECORD**

1 May 2019 (Melbourne): Dragontail Systems Limited (ASX: DTS, the “**Company**” or “**Dragontail**”) is pleased to announce that it has reached a new monthly installation record of over 350 newly installed stores during the month of April 2019.

This continues last months' installations expansion, with the installation rate of over 300 newly installed stores during February as well as the month of March. The installations consist of the Company's two flagship products - the ALGO Dispatching Platform and the Artificial Intelligence QT Camera.

Mr. Ido Levanon, Dragontail's Managing Director, added: "We continue to see a clear and stable trend of growth in our install base. Our unique patented technology is now becoming a standard and a must for every QSR that seeks to optimize its operations and improve customer satisfaction".

**About Dragontail Systems**

Dragontail is revolutionising the Quick Service Restaurant (QSR) and foodservice industry with its Algo System and computer-vision QT quality system that uses artificial intelligence (AI) machine learning.

The Algo System uses a sophisticated patented algorithm to optimise and manage the entire food preparation process from order to delivery. It is the first system in the world to fully automate and streamline the kitchen flow to deliver an immediate and significant return on investment to fast food and quick service restaurants.

The QT system's sensor and camera automatically monitor the preparation and cooking process in the kitchen to improve the quality and consistency of meals. Using proprietary advanced AI machine-learning technology, the system keeps improving its diagnostics, becoming even more efficient.
