Disclaimer

This presentation has been prepared by Elsieht Limited. (“Elsieht” or the “Company”) based on information available to it as at the date of this presentation. The information in this presentation is provided in summary form and does not contain all information necessary to make an investment decision.

This presentation does not constitute an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any security in Elsieht, nor does it constitute financial product advice or take into account any individual’s investment objectives, taxation situation, financial situation or needs. An investor must not act on the basis of any matter contained in this presentation but must make its own assessment of Elsieht and conduct its own investigations. Before making an investment decision, investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs, and seek legal, taxation and financial advice appropriate to their jurisdiction and circumstances. Elsieht is not licensed to provide financial product advice in respect of its securities or any other financial products. Cooling off rights do not apply to the acquisition of Elsieht securities.

Although reasonable care has been taken to ensure that the facts stated in this presentation are accurate and that the opinions expressed are fair and reasonable, no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of Elsieht its officers, directors, employees and agents, nor any other person, accepts any responsibility and liability for the content of this presentation including, without limitation, any liability arising from fault or negligence, for any loss arising from the use of or reliance on any of the information contained in this presentation or otherwise arising in connection with it.

The information presented in this presentation is subject to change without notice and Elsieht does not have any responsibility or obligation to inform you of any matter arising or coming to their notice, after the date of this presentation, which may affect any matter referred to in this presentation.

The distribution of this presentation may be restricted by law and you should observe any such restrictions.

This presentation contains certain forward looking statements that are based on the Company’s management’s beliefs, assumptions and expectations and on information currently available to management. Such forward looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results or performance of Elsieht to be materially different from the results or performance expressed or implied by such forward looking statements. Such forward looking statements are based on numerous assumptions regarding the Company’s present and future business strategies and the political and economic environment in which Elsieht will operate in the future, which are subject to change without notice. Past performance is not necessarily a guide to future performance and no representation or warranty is made as to the likelihood of achievement or reasonableness of any forward looking statements or other forecast. To the full extent permitted by law, Elsieht and its directors, officers, employees, advisers, agents and intermediaries disclaim any obligation or undertaking to release any updates or revisions to information to reflect any change in any of the information contained in this presentation (including, but not limited to, any assumptions or expectations set out in the presentation).

- **Next Gen product 'HALO' unveiled at MCWC 2019 Barcelona**
- Dan Hilerowitz appointed CFO
- Further orders received from Alrena and Traffilog
- **HALO is ready to start POCs in Q3**
- **HALO is ready for sales Q4**

Our Vision

To be an essential component of devices that will transform communications with unheard of speed, quality and security for consumers and businesses alike

*By minimizing the size, weight, power consumption and costs (BOM) dramatically through **HALO**, we will achieve our strategy by capitalising on our market leading communications technology to partner with global OEMs and become embedded into their hardware solutions for many of the world's largest and fastest growing verticals*

Investment Highlights

First to market

with a product that provides faster, lighter, more secure data transmission

Huge opportunity

targeting large, multi-national original electronics manufacturers (OEMs)

Strong interest

From some of the world's biggest telcos, suppliers, manufacturers of autonomous vehicles and government departments

Over 200 leads

with commercial contracts expected to be signed over the 2019 calendar year

Large market verticals

Targeting huge, growing market verticals including drones, autonomous vehicles and ADAS, tablets and IP and security cameras

Increasing demand

Cybersecurity and data privacy driving increased need for secure data transmission services

Validated technology

Strong, growing revenue base from existing range of commercially validated products

Further revenue streams

Launch simultaneously **HALO** and **cloud-based customer solution** in 4Q 2019

Leading Board and Advisory Team

Board of Directors

**Maj Gen (Ret)
Ami Shafran**
Independent Chairman

- Ex head of IDF Information & Communications Technology Command
- Ex Chief of Staff of the Israeli Ministry of Defense
- Head of the Centre for Cyber Technology at Ariel University

David Furstenberg
Non-Executive Director

- 41+ years of experience
- CEO and Board member of various leading public and private companies including Comverse, Audiocodes Enure and Vista

Nir Gabay
Founder and CEO

- 20+ years experience in security, communications and surveillance
- Experience with leading mobile cellular providers, local municipalities and tech companies

Howard Digby
Non-Executive Director

- 25 years managing tech-related businesses in Asia-Pacific
- Non-Executive Director at Estrella Resources and 4DS Memory

Raj Logaraj
Non-Executive Director

- Deep experience in law and investment banking as partner and senior adviser to top tier global law firms
- Valuable experience and connections across Indo-Pacific region

Advisory Board

Khoo Boon Hui

- Senior leadership experience in government and international security
- Former Singapore Police Commissioner and INTERPOL president
- Advisor including to INTERPOL and Standard Chartered Bank (UK)'s Board Financial Crime Risk Committee

**Maj. Gen. (Ret.)
Amiaz Sagis**

- Senior advisor on US Defence and Homeland security markets
- 32 years of experience in the military, in logistics and technology

Zvi Hauzer

- Wealth of government and telecommunications experience
- Served as Israel's 17th Cabinet Secretary
- Ex-Chairman of the Cable and Satellite Broadcasting Council

Executive Team

NIR GABAY
FOUNDER AND CEO

Over 20 years of experience in technology and communications, with a background spanning roles in security and surveillance. During the past ten years, Nir has been involved in various tech start-ups and was previously a member of an Israeli Special Forces unit.

NINO SHAPTOSHVILI
VP SALES AND MARKETING

With 20 years of experience in sales, business development and marketing, Nino oversees Elsieht's revenue-generating activities and marketing initiatives. She has previously worked with Tier 1 and Tier 2 technology solution providers.

ROEE KASHEE

Extensive experience accompanying and directing multi-national and hi-tech companies. Served 6+ years as a manager at EY Israel and is practiced in serving corporate customers across M&As and IPOs.

Our Technology

Elsight's proven technology provides unmatched secure, real time data, video and audio transmission technology

First to enter the market with leading, intelligent multi-sim solution that addresses the ever-increasing demands of connectivity

Real time data transmission over cellular networks, in mission-critical environments

Ideal for video surveillance and security, unmanned vehicles, government, network technology, EMS first-responders, mobile telecommunications, aviation

World-leading security designed to protect against cybersecurity threats whilst providing high quality 4K data transmission

Our products can handle more complex data, video and audio at the highest speeds being shared in real-time

Our lean and mean **HALO** created to solve the ever-increasing need for bandwidth

Rider & Multichannel (B2B)

Multichannel

- **Highly secure, high bandwidth**, adaptive data transmission over multiple network channels
- Communicates live data, video and audio in **real time**, anytime, anywhere

Rider

- Single channel secure distribution at a **lower cost**
- Ideal solution for security and transportation and recording, monitoring and transmitting **mission-critical** vehicles' activity

HALO – “The Company Maker” (B2OEM)

- **HALO** is a **miniaturised version** of Elsight’s existing proven technology, developed for **the OEM market and small drones**
- It has the **potential to derive massive revenues** from **large multi-national OEMs**
- **HALO easily integrates** into any IoT device for instant connectivity and seamlessly delivers 4K quality streams on the move
- Its **secure, high data, real time transmission capabilities** makes it an ideal solution for fleets, autonomous cars, handheld devices, drones and more
- The Company is the **first to market** with a product of this type, and **HALO** will be available for POCs/sale in July, and will generate revenues in Q4 2019
- Addressing critical needs of our existing and new markets - **HALO** was developed to **dramatically reduce and miniaturize the physical size, weight, power consumption and costs** (or Bill of Materials) of our platform

More Compelling than our Competition

Elsight's **HALO** offers the **smallest form factor**, the **lowest power consumption**, the **most cost-effective** and provides the **lowest latency bonding technology** against our competitors

Smaller Size
Lower Power
Consumption

Larger Size
Higher Power
Consumption

Higher Cost
Longer Latency

Lower Cost
Shorter Latency

Huge Growth Potential

HALO

HUGE OPPORTUNITY

HIGHLY SCALABLE

HUGE GROWTH POTENTIAL

Approaching Lift-Off

Before HALO

Sales process: Demo -> Integration -> Sell

- For each client

Addressable Devices per client

- Hundreds of units per client

With HALO

Sales process: Demo -> Integration -> Sell

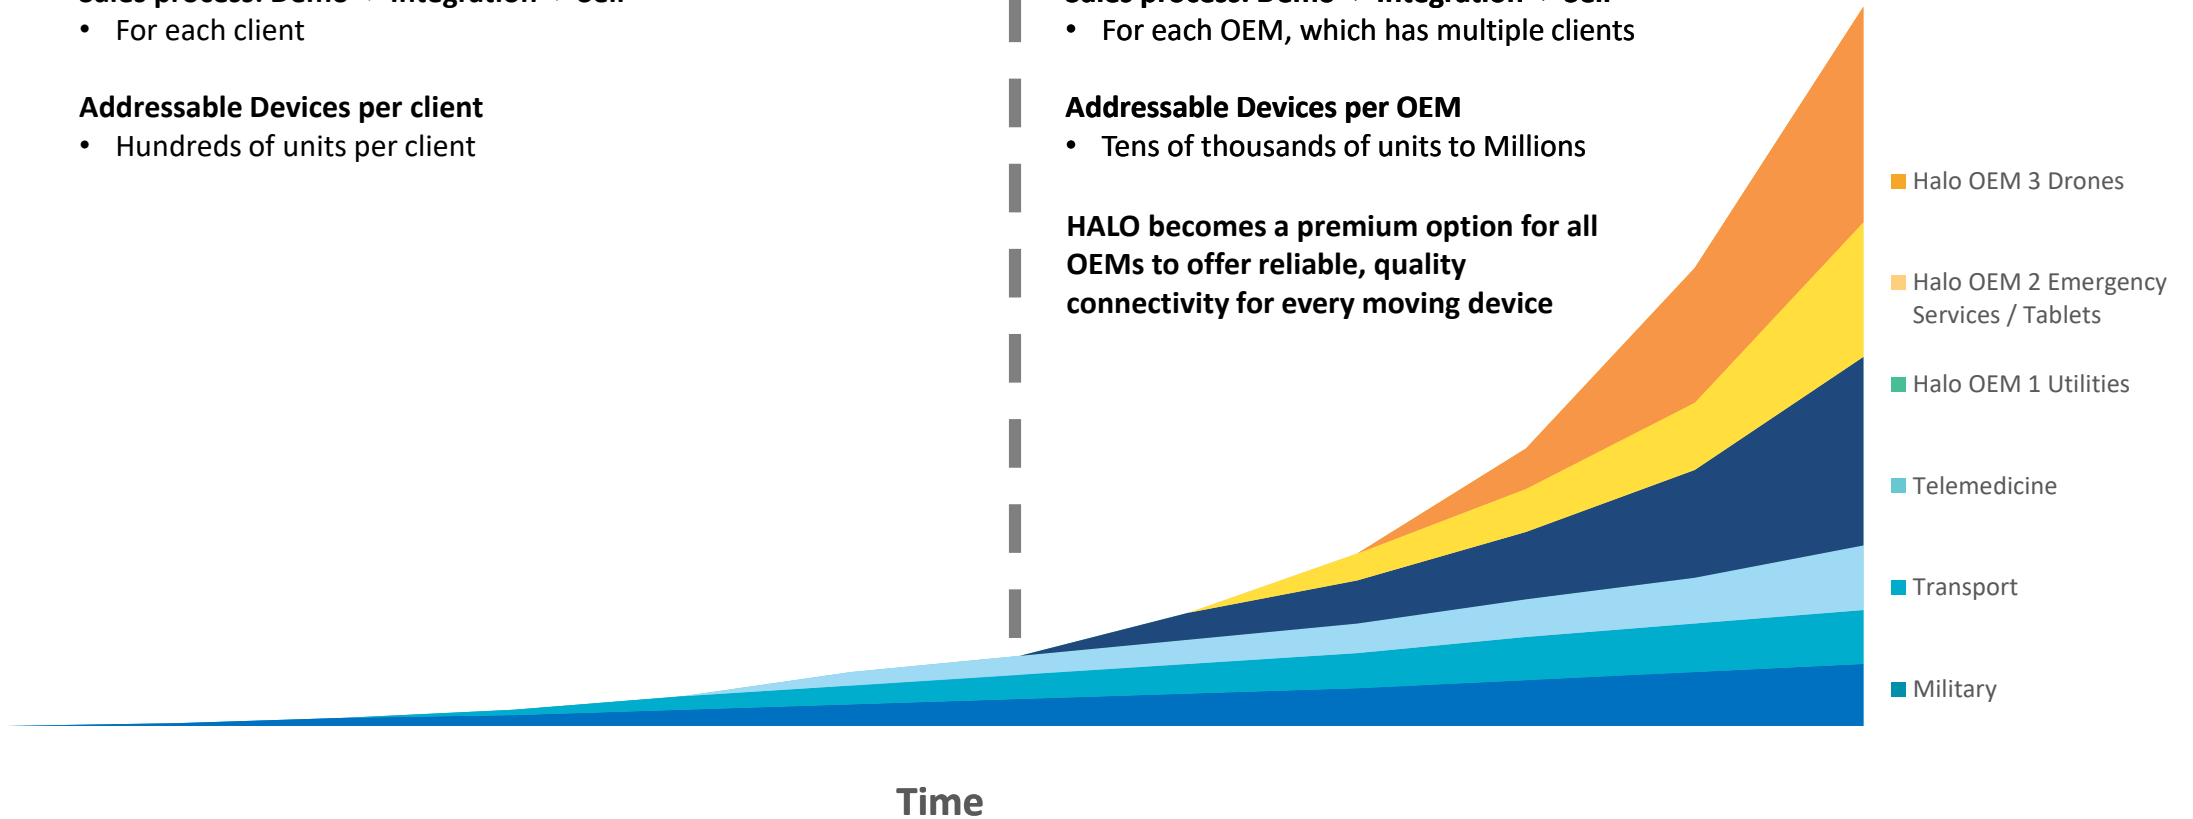

- For each OEM, which has multiple clients

Addressable Devices per OEM

- Tens of thousands of units to Millions

HALO becomes a premium option for all OEMs to offer reliable, quality connectivity for every moving device

Revenue

Go-To-Market Strategy

Product Sales Cycle

Channel Partners

- Direct sales to large, multinational original electronics manufacturers (OEMs) in the USA and elsewhere
- Large OEMs provide huge opportunity, with the integration of **HALO** into products at manufacturing stage
- Higher margin product
- Larger customers – longer sales cycles but with the potential to secure much larger scale contracts
- Lower investment in sales and marketing, with indirect sales method utilizing mass distribution infrastructure and networks of global technology
- Blue Ocean, competition free new large markets

Revenue Scenario – Medium Term

Revenue scenario estimated based on **Price x OEM Addressable Devices x Conversion rate**

Vertical	Market Size	Description	Revenue Scenario
HLS		Existing customers in Israel, UK, Indonesia, Africa, Singapore, Thailand, Australia and in talks to sell HALO in these regions and particularly USA	\$6.0m
Unmanned	US\$67B market by 2027 at a CAGR of 19%	Unmanned vehicles on the ground and in the air. Working on opportunities in Israel and USA	\$3.7m
Tablets	1.28B users by 2021 ¹	Currently in talks with OEM tablet Manufacturers for use in public services sector, as well as for emergency personnel	\$3.7m
Utilities		Elsight has begun to work with Utility companies mainly in Israel to explore how Halo can assist with redundant connectivity to electricity grid	\$3.0m
IOT		In discussions with Telcos in Israel and Singapore for the purpose of Halo becoming a gateway for IOT devices of all types	\$2.2m
Safe City	Security Cameras forecast to grow at 20% CAGR to over US\$20B by 2024 ²	Assist with safety by providing connectivity to street lights, cameras, traffic lights etc. Begun participating in city council tenders in Israel	\$2.2m
Drones	US\$100B market by 2020 ⁴	Currently focused on USA market, particularly shipping and rescue.	\$2.2m
Telemedicine		Equipping EMS personnel and first responders to deliver paramedic services in remote areas via telemedicine (starting with France)	\$1.0m

Medium Term revenue goal of over \$23m, driven by sale of HALO units

1. Statista. 2. Global Market insights.. 3. Grand View Research, Inc. (Feb. 2018). US\$14.15B market in 2016, CAGR of 19%, forecast to reach \$67.43B by 2027. 4. Drone technologies forecast to reach US\$100B by 2020 with 70% linked to military (Goldman Sachs).

Financials

100% revenue growth

in 1Q 2019 on 1Q 2018
from existing Multichannel and Rider products

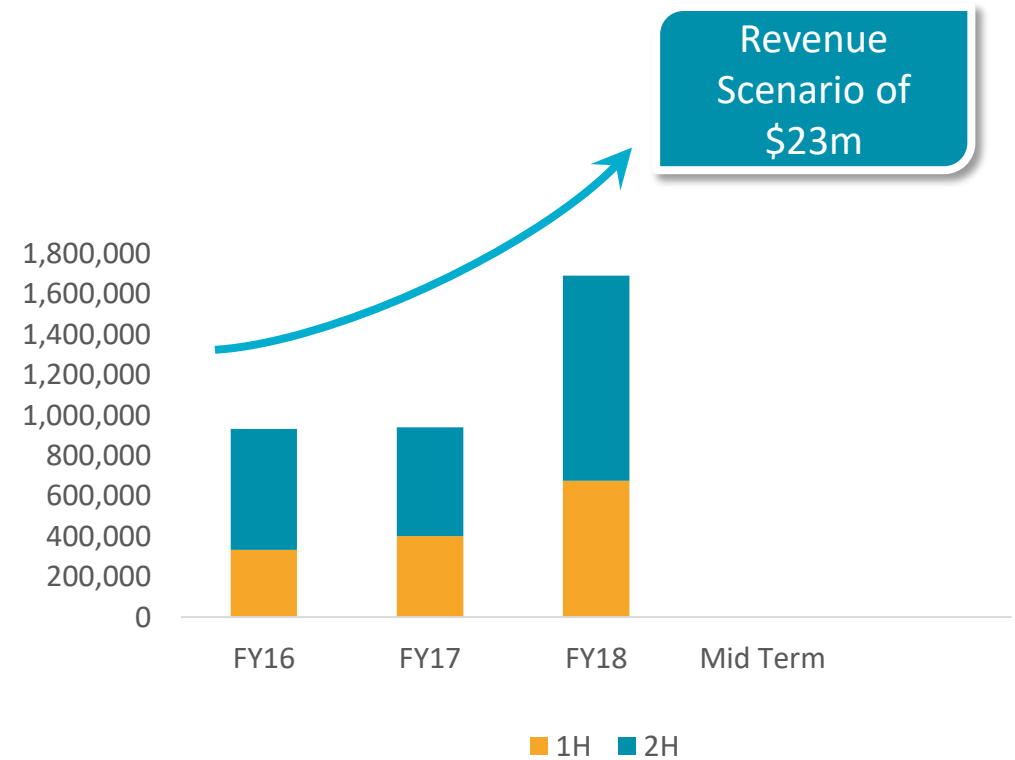

Huge revenue upside potential

From launch of **HALO** and
SaaS-based cloud-service offering, encompassing
the **HALO** Card + Data bundle

Well funded

to execute Company's **HALO** commercialisation
strategy, with USD\$2.8m in cash as at 31 March
2019, providing more than 12 months of runway

Strong revenue growth

Summary

- ✓ First to market with a superior product offering
- ✓ Huge growth potential from large multi-national OEMs
- ✓ Strong pipeline of over 200 leads
- ✓ Commercial contracts expected to be signed in CY 2019
- ✓ Leveraged to large, growing market verticals
- ✓ Enormous upside as we move towards our vision to be the standard in every mobile device
