### **RCR Mining Technologies secures new work for Koodaideri**

NRW Holdings Limited (ASX:NWH) is pleased to advise that its wholly owned subsidiary RCR Mining Technologies (RCRMT) has been awarded another significant OEM equipment package for the Rio Tinto Iron Ore Koodaideri project. This new order is for the supply of 3 large Apron Feeders, 11 Slide Gates and 2 Belt Feeders, to a combined value in excess of \$18 million.

Ian Gibbs Executive General Manager of RCRMT commenting on the award said, "RCRMT has a long and proud history of supplying major equipment to Rio Tinto and the WA Mining industry. Since transitioning to NRW ownership we have been able to secure orders for all the current major Iron Ore projects to retain our status as the market leader in the design and manufacture of Apron and Belt Feeders, which is an exciting achievement against a highly regarded multinational supply market.

NRW CEO & Managing Director Jules Pemberton added, "The award represents further validation of our acquisition approach to provide clients with a broader service offering. I'd also like to acknowledge Ian Gibbs and his team who have worked hard to secure this work which will further support activity at both the Bunbury and Welshpool sites.

Kim Hyman  
Company Secretary
