About Fiji Kava

Fiji Kava is a medical kava company based in Australia and the first foreign company with approval from the Fijian Government to operate in the kava industry. The Company has complete control over its vertically integrated supply chain in a true farm-to-shelf operation and has established a 111-acre nucleus farm in Levuka, on the island of Ovalau, Fiji. Fiji Kava is focussed on expanding the distribution of kava throughout western markets to provide a natural alternative to anti-anxiety prescription medicines such as Valium and Xanax. The Company sells its range of TGA and FDA compliant Taki Mai branded medical kava products in Fiji and has launched under the Fiji Kava Brand in Australia. Fiji Kava's products are backed by years of independent research. The Company plans to conduct human clinical trials to test the efficacy of Fiji Kava's products and specific kava cultivars, targeting a range of medical conditions.
