

ASX Announcement 5 June 2019

COMPLETION OF A\$3.6 MILLION SHARE PLACEMENT

Gulf Manganese Corporation Limited (ASX: GMC) ("**Gulf**" or "**the Company**") is pleased to advise that it has completed the A\$3.6 million share placement ("Placement") announced on 27 May 2019, following receipt of the remaining commitments totalling A\$0.6 million.

Funds received from the Placement will be used to finalise the start-up of Direct Shipping Ore ("DSO") operations later this month, advance the development of the Kupang Smelting Hub Facility and for general working capital purposes.

Gulf Managing Director, Hamish Bohannan, commented: "The completion of this placement is an important catalyst and provides Gulf with the flexibility to commence our DSO operations this month, with the resulting exports expected to generate first revenue for the business soon.

"Gulf continues to receive strong funding support for the development of the Kupang Smelting Hub facility, which speaks volumes to the underlying scale and potential of the Kupang project, and I would like to again thank our loyal shareholders and strategic investors for their continued support.

"We look forward to providing further regular updates on operational progress in due course."

-Ends-
