Special Note

On 31 May 2017, the Company was placed into voluntary administration. The Company subsequently entered a Deed of Company Arrangement ("DOCA") on 7 November 2017 and was then recapitalised and returned to normal trading following the effectuation of the DOCA on 18 December 2018.

The current directors of the Company were all appointed following the recapitalisation and effectuation of the DOCA on 18 December 2018. The previous directors who managed the Company during the Reporting Period covered in this Report all also resigned to facilitate the completion of the recapitalisation.

Under the Australian Securities Exchange Listing rules ASX's policy is to remove from the official list any entity whose securities have been suspended from trading for a continuous period of 3 years. In the company's case, it will have been continuously suspended for 3 years on 25 January 2020, with removal taking effect on 26 January 2020. As per ASX's revised Guidance Note 33 released in April 2019, this policy will be changing as of 3 February 2020, but due to the abovementioned dates, this will not affect AZT's current removal date if its securities remain continuously suspended from trading as at 25 January 2020.

ASX may agree to a short extension of the 3 year deadline for the automatic removal of a long-term suspended entity if the entity can demonstrate to ASX's satisfaction that it is in the final stages of implementing a transaction that will lead to the resumption of trading in its securities. For these purposes, "final stages" means:

- having announced the transaction to the market;
- having signed definitive legal agreements for the transaction (including for any financing required in respect of the transaction);

DIRECTORS' REPORT (Continued)

- if the transaction requires a prospectus or product disclosure statement to be lodged with ASIC, having lodged that document with ASIC and it not being the subject of a stop order or other regulatory action by ASIC;
- if the transaction requires approval by security holders or from a governmental agency or financier, the entity having obtained all such approvals; and
- ASX otherwise being satisfied that the transaction is reasonably capable of being consummated within the period of the extension.

The extension, if granted, will be for no more than 3 months (it may be shorter if ASX considers that the transaction ought to be reasonably capable of being consummated in a lesser period).

There is no certainty that the Company will be requoted.

Operating Results

The loss of the Company for the half year ended 31 December 2017 after tax was \$Nil (2016 \$4,022,537).

Dividends

No dividends have been paid or declared by the Company for the half year ended 31 December 2017 and up to the date of this report. The Directors do not recommend the payment of a dividend.

Likely Developments and Expected Results

The directors are seeking opportunities in other industries with a view to enhancing Shareholder value. Any significant change in the nature of the Company's activities will require Shareholder approval under ASX Listing Rule 11. The aim is to pursue an appropriate business opportunity against which the Company may be recapitalised and its shares requoted on the Australian Securities Exchange.

Indemnification and insurance of Directors and Officers

The Company has agreed to indemnify all the Directors of the Company for any liabilities to another person (other than the Company or related body corporate) that may arise from their position as Directors of the Company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

These general purpose interim financial statements for half-year reporting period ended 31 December 2017 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Azure Health Technology Limited and its controlled entities (referred to as the "consolidated group" or "group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2017 together with any public announcements made during the following half-year.

These interim financial statements were authorised for issue on 19 July 2019.

Going Concern

On 1 July 2017, the Company had a working capital deficiency and the Directors determined to place the Company into Voluntary Administration. A proposal from Benelong Capital Partners Ltd (Benelong), for the restructure and recapitalisation of the company via a varied DOCA was submitted on 27 June 2018. The purpose of this Deed was to facilitate the recapitalisation of the Company with new business direction under a new Board of Directors. The deed of company arrangement was entered in to on 20 August 2018.

The Revised DOCA was approved by shareholders at the General meeting on 18 December 2018 and the Company was removed from external administration and the Company returned to the control of the new Board of Directors. As the first stage of the recapitalisation, a small amount of capital was raised to meet the Company's immediate needs. All pre-Administration liabilities of the Company were extinguished by the establishment of a Creditors Trust in accordance with the DOCA. Company liabilities incurred during the DOCA were met by the Deed Administrators from remaining company assets. Upon the Company being returned to the control of the new Board, the Company had extinguished the recapitalisation liabilities.

At the date of this Report, the new Board is determining the new direction the business will take and will, as part of a programme to secure the re-quotations of the Company's shares on the ASX, among other things, raise further capital to fund the future business plan of the Company.

The Directors are satisfied that the Company will be able to meet its liabilities as and when they fall due in the interim and as a consequence of this belief and the planned future capital raising, the Directors believe that the Company remains a going concern at the date of this Report.

The Board recognises that additional funding is required to ensure that the Company can continue to fund its operations for a period of at least twelve months from the date of signing this financial report but is confident that additional funding and a suitable business opportunity will be forthcoming in the short term.

If the Board's plan fails for any other reason, the Company would urgently need to secure further capital by some other means. Further additional funding is potentially available from one or a combination of the following:

- Equity placement; or
- Loan funds unsecured or secured against a proposed new business of the Company.

Should any future proposal for further funding be rejected by shareholders or otherwise fails for any reason and none of the future equity raisings and/or the other arrangements mentioned above can be completed to the extent required, there will exist a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern and therefore it may be unable to realise its assets and extinguish its liabilities in the normal course of business.

(b) Accounting policies

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements except for those as described in below.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2017**

Standards and Interpretations applicable to 31 December 2017

In the half year ended 31 December 2017, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current annual Reporting Period.

As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Group and, therefore, no material change is necessary to Group accounting policies.

Standards and Interpretations in issues not yet adopted

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half year ended 31 December 2017. As a result of the review the Directors have determined that there is no material impact, of the new and revised Standards and Interpretations on the Company and, therefore, no change necessary to Group accounting policies.

Under the Australian Securities Exchange Listing rules ASX's policy is to remove from the official list any entity whose securities have been suspended from trading for a continuous period of 3 years. In the company's case, it will have been continuously suspended for 3 years on 25 January 2020, with removal taking effect on 26 January 2020. As per ASX's revised Guidance Note 33 released in April 2019, this policy will be changing as of 3 February 2020, but due to the abovementioned dates, this will not affect AZT's current removal date if its securities remain continuously suspended from trading as at 25 January 2020.

ASX may agree to a short extension of the 3 year deadline for the automatic removal of a long-term suspended entity if the entity can demonstrate to ASX's satisfaction that it is in the final stages of implementing a transaction that will lead to the resumption of trading in its securities. For these purposes, "final stages" means:

- having announced the transaction to the market;
- having signed definitive legal agreements for the transaction (including for any financing required in respect of the transaction);
- if the transaction requires a prospectus or product disclosure statement to be lodged with ASIC, having lodged that document with ASIC and it not being the subject of a stop order or other regulatory action by ASIC;
- if the transaction requires approval by security holders or from a governmental agency or financier, the entity having obtained all such approvals; and
- ASX otherwise being satisfied that the transaction is reasonably capable of being consummated within the period of the extension.

The extension, if granted, will be for no more than 3 months (it may be shorter if ASX considers that the transaction ought to be reasonably capable of being consummated in a lesser period).

There is no certainty that the Company will be requoted.

No other matter or circumstance has arisen since 31 December 2017 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.
