

Quarterly Activities Report & Appendix 5B

Quarter Ending 30 June 2019

Lustrum Minerals Limited (ASX: **LRM**) (**Lustrum**) (**Company**) is pleased to provide a summary of its activities at the Company's Consuelo Project located near the operating Rolleston Coal Mine in the Bowen Basin, Queensland, for the three (3) months ending 30 June 2019 (**Period**).

PROJECT AND EXPLORATION SUMMARY

Lustrum's Consuelo project is comprised of three (3) Coal Exploration Permits (EPCs 2327, 2318 and 2332, together the **EPCs** or **Project**), south of Rolleston in Queensland's Bowen Basin near Rolleston's high quality thermal coal mine.

During the Period the Company conducted a significant review of its existing secondary data and also commisionsed a further review of information. Lustrum has appointed ROM Resources (**ROM**) to establish if the Company's in a position to announce a maiden inferred resource at its Conselo Project. The Company is reviewing ROM's work and intends on announcing an update within the current Period.

Figure 1: Counselo Project

Figure 2: Location of drill holes completed on the Project

To date, drilling completed on EPC 2327 has confirmed the presence of moderate quality to high quality thermal coal at fairly shallow depths within the Bandanna Formation, with the data from this drilling to be used to provide an Exploration Target for the western portion of EPC 2327. A program of step out drilling is being finalised to further define orientation, dip and aerial extent of thicker seams intersected.

Further within the Consuelo Project area, a number of locations have been identified as having the potential for the delineation of shallow coal-bearing formations based on the interpretation of 2D seismic data and previously reported shallow coal intersections adjacent to the project boundary. A succession of "road reserve" drill hole locations

have been identified to follow up on these prospective shallow coal target areas, planning is underway to implement an initial drilling campaign to test these targets. The Company continues to consider its next stage of exploration of the Project. This has included assessing multiple factors, inclusive of macro and micro economic conditions and the exploration data gathered to date from the Company's hisotircal exploration. The Company's review of its next exploration steps is ongoing and it will inform the market in due course.

CAPITAL MANAGEMENT

As announced 14 May 2018, the Company embarked on a share buy-back to buy back up to 4,000,000 of its own shares; on 16 August 2018, shareholders approved a further 6,000,000 shares to be bought back under the same buy-back (**Buy-Back**). As at the date of this announcement, the Company has spent \$851,313.12 acquiring 6,148,550 of its own shares under the Buy-Back.

The Company maintains the capacity to buy up to 3,851,450 further shares and will update the market accordingly.

Lustrum maintains 33,851,450 fully paid ordinary shares on issue and \$2.08 million in net cash as at 30 June 2019.

Please consult the Company's announcements for any further updates.

BUSINESS DEVELOPMENT

During the Period the Company has spent significant time reviewing opportunities to create shareholder value via the acquisition of a project, or projects, complimentary to its existing asset base. Acquisitions considered are natural developments of the Company's business strategy and operations; should any of these opportunities occur, the Company's board believes they have the potential to create significant value for shareholders.

All discussions currently remain confidential, non-binding and incomplete. The Company will update the market accordingly.

CORPORATE

Lastly, the Company wishes to advise that Mr Sonu Cheema has retired from the position of joint company secretary, effective immediately.

Notes

- The monthly report provides a basis for informing the market how the entity's activities have been financed for the past month and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
- 2. If this monthly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this monthly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
