ASX Release

Drilling Commences at Big Vein South - Woolgar

Strategic Minerals Corporation NL (“Strategic” or the “Company”) (ASX Code: SMC) is pleased to advise that drilling has commenced at the Big Vein South (BVS) deposit at the Woolgar Project in Central North Queensland.

The reverse circulation (RC) program has been designed to continue testing existing BVS Inferred Resources with the objective of increasing confidence to Measured and Indicated Resource status.

The Company also intends to conduct a diamond hole programme to obtain additional material and information from BVS in support of Geotechnical investigations.
