DIRECTORS' REPORT (CONTINUED)

PRINCIPAL ACTIVITIES

Botanix Pharmaceuticals Limited (ASX:BOT) is a clinical stage cannabinoid therapeutics company based in Perth, Australia and Philadelphia, PA. The Company's focus is the development of safe and effective topical treatments for serious skin conditions in large markets. The active ingredient contained in Botanix products is a synthetic form of a widely studied natural compound known as cannabidiol or CBD. Treatment targets include inflammation, deterioration of the skin barrier, skin cell proliferation, pruritus (itch), excess sebum production and bacterial infection.

Botanix has an exclusive world wide license to use a proprietary drug delivery system (Permetrex™) for direct skin delivery of active pharmaceuticals in all skin diseases. Botanix has pursued a rapid clinical development strategy and transitioned from formulation development to Phase 2 studies within 24 months of founding the Company.

RESULTS

The net loss attributable to members of the Company for the year ended 30 June 2019 is \$17,039,221 (30 June 2018: \$11,011,813). The net loss is attributable primarily to the expenditure in relation to advancing our clinical research and development activities.

FINANCIAL POSITION

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

The Group has generated a comprehensive loss after tax for the year ended 30 June 2019 of \$17,076,738 (30 June 2018: \$11,005,545), had a net working capital surplus of \$603,006 at 30 June 2019 (30 June 2018: \$16,284,891) and experienced net cash outflows from operating activities for the year of \$13,140,723 (2018: \$9,909,009).

At 30 June 2019 the Group had a cash balance of \$4,704,457 (30 June 2018: \$17,263,408). Subsequent to year end the Company completed a \$40,000,000 (before costs) equity raise to fund ongoing activities.

The Directors believe that there are sufficient funds to meet the Group's working capital requirements.

The Directors consider the going concern basis of preparation to be appropriate based on forecast cash flows and have confidence in the Company's ability to raise additional funds if required.

OPERATING AND FINANCIAL REVIEW AND FUTURE PROSPECTS

OPERATIONAL REVIEW

Overview

For the 12 months ending 30 June 2019, Botanix has made significant progress in key operational and corporate aspects including product development, intellectual property, executive management, board and business development. Botanix is well positioned to continue this momentum, with the near-term focus on completing Phase 2 clinical programs (acne and atopic dermatitis) and moving forward with further clinical studies for pipeline projects.

Clinical development

BTX 1503 (moderate to severe acne)

The fully funded, BTX 1503 Phase 2 acne clinical study commenced in June 2018. This clinical trial will evaluate the safety and efficacy of BTX 1503 in approximately 360 patients with moderate to severe acne.

In July 2018, Botanix successfully held an Investigator's Meeting in San Diego, US. The meeting was attended by investigators participating in the study, site coordinators, acne key opinion leaders and clinicians. The meeting yielded positive feedback regarding the BTX 1503 Phase 1b study results, planned recruitment rates of the Phase 2 study and a positive physician's assessment of the novel BTX 1503 formulation.

In June 2019, Botanix announced that recruitment for the study was complete and the final patients would complete the in-life phase of the study. The study is expected to be completed in 3Q CY2019 with data available shortly thereafter.

BTX 1204 (atopic dermatitis or serious eczema)

In August 2018, Botanix successfully held a Pre-Investigational New Drug (Pre-IND) meeting with the U.S. Food and Drug Administration's (FDA) Division of Dermatology and Dental Products for the BTX 1204 Phase 2 atopic dermatitis product. The Pre-IND meeting confirmed subsequent development plans to evaluate the safety and efficacy of BTX 1204 in approximately 200 patients with moderate atopic dermatitis.

Following the receipt of ethics approval in December 2018, the Company successfully held an Investigator's Meeting for the fully funded BTX 1204 Phase 2 clinical study. The meeting was attended by investigators participating in the study and site coordinators from more than 13 dermatology clinic sites across Australia and New Zealand. The meeting yielded positive feedback regarding the results of the Phase 1b study and the design of the Phase 2 study.

Following the completion of the Investigators Meeting, the Company continued to attract growing interest from clinicians and a number of new sites continued to join the study. The study is targeted at finalising recruitment of patients in 4Q CY2019.

DIRECTORS' REPORT (CONTINUED)

BTX 1308 (psoriasis)

In September 2018, Botanix received ethics approval for its BTX 1308 Phase 1b psoriasis mechanism of action study and commenced the study in November 2018. The study assessed BTX 1308 in a model that allows biopsies to be collected which were designed to help elucidate the proposed mechanism of action of cannabidiol (CBD) in skin diseases.

Results from the study were released in June 2019 and confirmed that from the biopsy gene regulation data examined by an independent reviewer at Rockefeller University, BTX 1308 has significant anti-inflammatory and immune cell modulating activity in skin disease. The data also confirmed that Permetrex™ effectively delivers CBD to target skin layers and triggers significant alterations in inflammatory and immune response pathways.

BTX 1801 (antimicrobial)

In July 2018, Botanix announced the successful completion of pre-clinical testing of BTX 1801, a novel antimicrobial. The pre-clinical testing showed that BTX 1801 was very effective at killing *methicillin resistant staphylococcus aureus* ("MRSA") strains of bacteria when compared to Permetrex™ or cannabidiol alone. Botanix was awarded an Innovation Connections Grant from the Australian Government and formed a research collaboration with University of Queensland's (UQ) Institute for Molecular Bioscience.

During the year the collaboration further explored the scope and breadth of the antimicrobial activity of BTX 1801. Botanix focused on completing a market review and commercial assessment, in conjunction with key opinion leaders, to identify the preferred type of skin infection to target for BTX 1801, before embarking on clinical development.

In June 2019, Botanix released positive new data from additional BTX 1801 studies. The studies were conducted in collaboration with Dr Mark Blaskovich at the University of Queensland's Institute for Molecular Bioscience's Centre for Superbug Solutions. The new studies confirmed the previous findings and demonstrated that BTX 1801 rapidly kills Gram-Positive *Staphylococcus Aureus* ("staph") and MSRA ("golden staph"). The data also showed that despite extensive exposure to CBD, MRSA superbugs do not develop resistance. Further, the proof of concept for BTX 1801 efficacy was demonstrated in an animal wound infection model and biofilm disruption model respectively. The data validates the significant antimicrobial properties of CBD, which addresses the predominant challenge with a majority of skin diseases, along with the complications that arise from acute and chronic skin infections.

DIRECTORS' REPORT (CONTINUED)

Corporate

Botanix invested more than A\$16.7m (excluding employee costs) in R&D activities, primarily associated with the BTX 1503 and BTX 1204 clinical programs and development and clinical exploration of other products. Botanix remains focused on investing in the development of key clinical programs, rather than administrative overheads, highlighting the clear priority on prudent cash management. The Company received an R&D tax incentive of A\$4.6m in November 2018 and at 30 June 2019, Botanix held A\$4.7m in cash.

In February 2019, following the sad loss of Chairman Mr Graham Griffiths, the Company appointed Dr Michael Thurn as an Executive Director and Dr Stewart Washer as Non-Executive Chairman of Botanix. Dr Thurn has significantly contributed to the development of the Botanix product portfolio over the last two years and brings over 20 years of experience in the life sciences and biotechnology industry. Dr Washer brings significant experience as an executive in the medical technology, biotechnology and agri-food industries, having overseen numerous transactions in the pharmaceutical and cannabinoid medical sectors.

In May 2019, the Company appointed Mr Vince Ippolito to the position of President of Botanix (and he was subsequently confirmed as Executive Chairman following a shareholder meeting in July 2019). Mr Ippolito arrives with significant experience in the dermatology industry spanning over 20 years, where he has overseen the launch of over 20 branded dermatology products. Furthermore, Mr Ippolito has played a significant role in two large dermatology transactions with a total value of US\$7.8bn, including the recent US\$5.2bn sale of Anacor to Pfizer. Mr Ippolito will be responsible for all the Company's global commercial operations and will lead Botanix into the next phase of growth for the Company.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than as mentioned in the Review of Operations, no significant changes in the state of affairs of the Consolidated Entity occurred during the financial year.

EVENTS SINCE THE END OF THE FINANCIAL YEAR

On 1 August 2019, the Company announced a placement of 190,476,191 shares at \$0.21 raising A\$40m (before costs) to advance the Companies cannabinoid clinical development and research portfolio. The company also announced the appointment of Mr Richard (Ric) Peterson as Chief Financial Officer and Mr Howie McKibbin as Chief Commercial Officer. The placement was completed on 9 August 2019.

On 18 July 2019, the Company announced that Mr Vince Ippolito was appointed to the position of Executive Chairman following on from his appointment as a President of the Company on 20 May 2019. The Company also issued 17 million options to Directors with an exercise price of \$0.251 expiring 18 July 2023.

Other than the already mentioned there are no other matters or circumstances which have arisen since the end of the period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

ENVIRONMENTAL REGULATION

The Directors have considered compliance with the National Greenhouse and Energy Reporting Act 2007 which requires entities to report annual greenhouse gas emissions and energy use. For the year ended 30 June 2019 the Directors have assessed that there are no current reporting requirements, but may be required to do so in the future.

REMUNERATION REPORT (AUDITED) (CONTINUED)

Remuneration Policy

The Company recognises the importance of structuring the remuneration packages of its Directors' and Executives so as to attract and retain people with the qualifications, skills and experience to help the company achieve the required objectives. However, the Company understands that whilst it is still in its current phase, a prudent position must be observed in the total remuneration expense.

All remuneration paid to Directors and Executives is valued at the cost to the Company and expensed. Options are valued using the Black-Scholes methodology.

Remuneration Governance

The Board has established a Remuneration Committee which provides advice on remuneration and incentive policies and practices and specific recommendations on remuneration packages and other terms of employment for Executive Directors, other senior Executives and Non-Executive Directors. No separate meetings of the Committees were held during the year. During the year the business of the Committees was conducted by the full Board in conjunction with Board meetings

Remuneration Structure

In accordance with best practice corporate governance, the structure of Non-Executive Director and Executive remuneration is separate and distinct.

Non-Executive Director Remuneration

Fees and payments to Non-Executive Directors reflect the demands which are made on, and the responsibilities of, the Directors. Non-Executive Directors' fees and payments are reviewed annually by the Board. The Chairman's fees are determined independently to the fees of Non-Executive Directors based on comparative roles in the external market. The Chairman is not present at any discussions relating to determination of his own remuneration.

The total amount paid to Non-Executive Directors is determined by the board from time to time for presentation to and resolution by shareholders in General Meeting. The current approved maximum aggregate remuneration payable to Non-Executive Directors is \$300,000 per year.

The Directors are paid a set amount per year and apart from reimbursement of expenses incurred on the company's behalf, are not eligible for any additional payments.

Long-term performance incentives comprise options granted in order to align the objectives of Directors with shareholders and the Company. The issue of options to Directors requires shareholder approval.

Executive Remuneration

Remuneration packages for the Executive Directors and senior Executives are designed by, and approved by the Board. The remuneration policy, setting the terms and conditions for the Executive Directors and other senior Executives, was developed by, and approved by the board.

Senior Executives when employed receive a fixed salary, and from time to time, options and bonus payments based on the achievement of specified individual performance criteria.

DIRECTORS' REPORT (CONTINUED)

Performance-Based Remuneration

Where appropriate the Board may set key performance indicators to for Executive Directors and employees which provide for the payment of bonuses if partially or fully met. There is no correlation between the company's performance and remuneration paid to Non-Executive Directors.

When the Board deems it appropriate to, equity-based remuneration may be granted to Directors, employees and consultants (subject to shareholder approval if appropriate).

Assessing performance and claw-back of remuneration

The remuneration committee is responsible for assessing performance against KPIs and determining any STI and LTI to be paid. To assist in this assessment, the committee may receive detailed reports on performance from management which are based on independently verifiably data such as financial measures, market share and data from independently run surveys.

In the event of serious misconduct or a material misstatement in the company's financial statements, the remuneration committee may cancel or defer performance-based remuneration and may also claw back performance-based remuneration paid in previous financial years.

Relationship between the remuneration policy and Company performance

The remuneration policy has been tailored to increase goal congruence between shareholders, Directors and Executives.

The Company operates an Employee Securities Incentive Plan ("ESIP") for eligible participants of the Group.

Under the ESIP the Company may, at the discretion of the Directors, offer eligible participants securities on the terms and conditions stated in an offer letter. A security granted under the ESIP may be a plan share, option, performance right or other convertible security as defined in the ESIP. The securities may only be granted to eligible participants after the Board considers the person's seniority, position, length of service, potential contribution and any other matters which the Board considers relevant.

A participant in an equity-based remuneration plan operated by the Company must not enter into a transaction (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the equity-based remuneration plan.

Security based payment arrangements granted to date

Options

In accordance with the provisions of the ESIP, executives and senior employees have been granted options to purchase ordinary shares at an exercise price determined by the Board with regard to the market value of the shares when the options were issued.

Each share option converts into one ordinary share of the Company on exercise. No amounts were paid to the Company by the recipient on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of expiry.

Options granted may vest on issue or progressively over the life of the options as decided by Directors when making an offer under the ESIP. Options granted under the ESIP expire within forty-eight months of issue. Unvested options expire immediately on the resignation of the eligible participant, unless otherwise determined by the Board.

Executive Service Contracts

There were five service agreements in place throughout the year.

Executive Chairman

Mr Vince Ippolito

Following Mr Ippolito's appointment as President of Botanix in May 2019, Mr Ippolito was subsequently appointed as Executive Chairman of Botanix on 18 July 2019.

The term of Mr Ippolito's employment will be for three years and will automatically renew for successive periods of one year unless either party gives the other party 60 days' written notice prior to the end of the initial (or renewal) period. Mr Ippolito's salary (assuming he works on a full-time basis) will be US\$400,000 per annum. He will also be eligible to receive an annual bonus dependent on certain objective performance goals and targets being attained.

As approved by shareholders on 18 July 2019, Mr Ippolito was granted 12,000,000 options under the Company's Employee Securities Incentive Plan (Plan), which can be exercised subject to certain performance and vesting conditions. Prior to this, Mr Ippolito was also granted 3,000,000 options under the Plan pursuant to his appointment as President.

Botanix may terminate Mr Ippolito's employment with or without cause at any time by written notice. Additionally, Mr Ippolito can terminate his employment for good reason at any time by giving written notice or voluntarily without good reason by giving 30 days' notice.

Further information on Mr Ippolito's terms of employment can be found in the Company's Notice of Meeting dated 17 June 2019 and the announcement of Mr Ippolito's appointment as President dated 20 May 2019.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: REPORTING ENTITY

Botanix Pharmaceuticals Limited (the “Company”) is a company domiciled in Australia. The consolidated financial statements of the Company as at and for the year ended 30 June 2019 comprises the Company and its subsidiaries (collectively referred to as the “Group”).

A description of the nature of the Company’s operations and its principal activities is included in the Directors’ Report which does not form part of this financial report.

NOTE 2: BASIS OF PREPARATION

This General Purpose Financial Report has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board (including Australian Interpretations) and the *Corporations Act 2001*.

The Financial Statements and Notes of the Company comply with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the Financial Statements and Notes comply with International Financial Reporting Standards.

Botanix Pharmaceuticals Limited is a company limited by shares. The financial report is presented in Australian currency. Botanix Pharmaceuticals Limited is a for-profit entity.

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

Critical Accounting Estimates and Significant Judgments

The directors evaluate estimates and judgments incorporated in the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

(i) Impairment

The investments held by the parent entity in its subsidiaries continue to be impaired as of 30 June 2019 as the board has acknowledged it yet to commercialise the company’s projects and the decision was previously made to write down the assets carrying value.

The group assesses impairment at each reporting date by evaluating conditions specific to the group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2: BASIS OF PREPARATION (CONTINUED)

Critical Accounting Estimates and Significant Judgments (Continued)

(ii) Share based payments

The consolidated entity measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

NOTE 3: REVENUE AND OTHER INCOME

	Note	
	2019	2018
	\$	\$
Interest	125,461	88,166
Fee income	69,347	145,005

Research and development incentive scheme	4,616,539	1,632,913
Total revenue and other income	4,811,347	1,866,084

Accounting policy

The Group has adopted AASB 15 Revenue from Contracts with Customers (AASB 15). There is no quantitative impact upon adoption as the Group has not commercialised its products and generate revenue. Interest income is recognised on a time proportion basis using the effective interest method. All other income is recognised when fees in respect of services rendered and earned, usually when services have been provided to customers. Fee income is stated net of the amount of Goods and Services Tax (GST).

Government grants are assistance by the government in the form of transfers of resources to the Company in return for past or future compliance with certain conditions relating to the operating activities of the entity. Government grants include government assistance where there are no conditions specifically relating to the operating activities of the Company other than the requirement to operate in certain regions or industry sectors. Government grants relating to income are recognised as income over the periods necessary to match them with the related costs and grants relating to assets are regarded as a reduction in asset. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised as income of the period in which it becomes receivable

BOTANIX PHARMACEUTICALS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 5: INCOME TAX (CONTINUED)

No deferred tax asset is recognised in the statements of financial position as it is not probable that the Group will derive tax profits in the future to allow utilisation of the income tax benefits represented by the deferred tax asset. If tax profits are derived in future years, the tax losses and other tax benefits will be able to be offset against this income subject to the Company continuing to meet the relevant statutory tests.

Accounting policy

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using the tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Botanix Pharmaceuticals Limited has not elected to consolidate the Group under the Tax Consolidation Regime, however, the Company may elect to do so in the future.

Current:

Other receivables ⁽¹⁾	483,270	447,081
Total trade and other receivables (net of GST)	<u>483,270</u>	<u>447,081</u>

⁽¹⁾ Other receivables are non-trade receivables, are non-interest bearing and have an average term of 3 months and generally receivable from the ATO for GST.

The above amounts do not bear interest and their carrying amount is equivalent to their fair value. No trade and other receivables were impaired during the current year.

Accounting policy

AASB 9 *Financial Instruments* (AASB 9) replaces the provisions of AASB 139 *Financial Instruments: Recognition and Measurement* (AASB 139) that relate to the recognition, classification and measurement of financial assets (include trade and other receivables), financial liabilities, de-recognition of financial instruments, impairment of financial assets and hedge accounting. It eliminates the previous AASB 139 categories for financial assets of held to maturity, loans and receivables and available for sale.

The adoption of AASB 9 Financial Instruments from 1 July 2018 did not give rise to any material transitional adjustments. From 1 July 2018, trade and other receivables continue to recognise at fair value initially and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. The classification is based on two criteria: The Group's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding (the 'SPPI criterion'). Trade and other receivables met both criteria.

Trade receivables are generally due for settlement within 30 days.

Impairment – Trade receivables

From 1 July 2018. The group assesses on a forward-looking basis the expected credit loss associated with its trade and other receivables carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade and other receivables, the group applies the simplified approach permitted by AASB 9 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Accounting policy

Property, plant and equipment is stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item.

Depreciation is provided on property, plant and equipment. Depreciation is calculated on a straight-line basis so as to write down the net cost or fair value of each asset over its expected useful life to its estimated residual value.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period. The estimated useful life of the property, plant and equipment as at reporting date is 5 years.

⁽¹⁾ Trade payables are non-interest bearing and are normally settled on 30-day terms.

Accounting policy

The classification and measurement of financial liabilities in accordance with AASB 9 remains largely unchanged from AASB 139.

Trade and other payables continue to be recognised initially at fair value and subsequently at amortised cost.

The amounts are unsecured These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid.

Accounting policy

Other long-term employee benefit obligations

The liability for annual leave which is not expected to be settled within 12 months after the end of the period in which the employees render the related service is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to the expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Ordinary Shares

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

At shareholders meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

Capital Risk Management

The Group's objectives when managing capital is to safeguard its ability to continue as a going concern and to progress development of its technologies toward commercialisation, so as to provide returns to shareholders and to maintain an optimal capital structure to reduce cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the value of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets.

The Group monitors capital on the basis of available working capital. The Group relies upon investment funding and equity raising in order to meet its working capital requirements so it may develop its technologies to a stage whereby future commercial benefits can be derived.

Accounting policy

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

Employee Securities Incentive Plan ("ESIP")

The ESIP was originally approved by shareholders on 14 June 2016 and re-approved on 19 November 2018. In accordance with the provisions of the ESIP, Directors, employees and consultants may be granted options to purchase ordinary shares at an exercise price determined by the Board with regard to the market value of the shares when it resolves to offer the options. The options may only be granted to eligible participants after the Board considers the person's seniority, position, length of service, potential contribution and any other matters which the Board considers relevant.

Each share option converts into one ordinary share of the Company on exercise. No amounts are paid or payable to the Company by the recipient on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of expiry. The number of options granted are determined by the Board.

Equity Settled Compensation

The Group operates an equity-settled share-based payment employee option scheme and, subject to shareholder approval, provides options to Directors from time to time. The fair value of the option to which Directors and employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. The fair value of options is ascertained using an appropriate pricing model which incorporates all market vesting conditions. The number of options expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the options granted shall be based on the number of options that eventually vest.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13: FINANCIAL RISK MANAGEMENT

The Group's activities are exposed to a variety of financial risks: market risk (including interest rate risk, currency risk, credit risk and liquidity risk). The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group uses different methods to measure different types of risk to which it is exposed. Risk management is carried out by the Board of Directors.

Financial Risk

The main risks the Group is exposed to through financial instruments are market risk (including currency risk, interest rate risk, liquidity risk, and credit risk).

The Group holds the following financial instruments:

	2019	2018
	\$	\$
Financial assets		
Cash and cash equivalents	4,704,457	17,263,408
Other receivables	483,270	447,081
Total financial assets	5,187,727	17,710,489
Financial liabilities		
Trade and other payables	4,484,575	1,425,598
Total financial liabilities	4,484,575	1,425,598

(a) Market Risk

(i) Foreign Exchange Risk

The group operates internationally and is exposed to foreign exchange risk arising mainly from its exposure to the United States dollar. The Group may also be exposed to one-off transactional flows which occur on an ad hoc basis in other foreign exchange currencies.

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency, and changes in value of convertible note liability and convertible note derivative. The risk is measured using sensitivity analysis and cashflow forecasting. From time to time, the Group will enter into forward foreign exchange contracts to lock in attractive rates for the US dollar for working capital purposes.

Foreign exchange risk is managed by the Board with an overall responsibility to minimising its effect on the expenditure of the Group.

ACN: 009 109 755

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13: FINANCIAL RISK MANAGEMENT (CONTINUED)

Group Sensitivity

The carrying amounts of the Group's financial assets and liabilities are all denominated in Australian dollars.

(ii) Cash flow interest rate risk

The Group's main interest rate risk arises from interest bearing cash deposits.

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and financial liabilities, is as follows:

		2019		2018	
		%	\$	%	\$
Financial assets					
Cash	Floating rate	0.04%	3,879,488	0.82%	17,263,408

¹ Excludes any cash accounts with 0%

The Group invests surplus cash in at call or term deposit accounts with internationally recognised financial institutions. Interest rate risk is managed by the selection of term deposit interest rates and terms that reflect management's market expectations, to terms not exceeding 12 months. Funds are only held at call when it is reasonably expected that those amounts will be required prior to existing term deposits reaching maturity.

Group Sensitivity

If the weighted average interest rates had changed on the instruments in the above tables by plus/minus 75 basis points the effect to the Groups post-tax loss for the year would have been \$125,461 (2018: \$80,427) lower/higher.

The method used to arrive at the possible change of 75 basis points was conservatively based on the analysis of the absolute nominal change of the Reserve Bank of Australia (RBA) monthly issued cash rate. Historical rates indicate that for the past five financial years, there was a bias towards a decrease in interest rate ranging between 0 to 50 basis points. It is considered that 75 basis points is a 'reasonably possible' estimate as it more than accommodates for the maximum variations inherent in the interest rate movement over the past five years.

BOTANIX PHARMACEUTICALS LIMITED
ACN: 009 109 755

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13: FINANCIAL RISK MANAGEMENT (CONTINUED)

(b) Credit Risk

Credit risk is managed on a group basis. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions as well as receivables for subsidiaries. The Board manages credit risk by ensuring that the banks and financial institutions where cash and deposits are held are independently rated parties with a minimum rating of 'A'.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets as summarised on page 52. The credit quality of financial assets that are neither past due or impaired can be assessed by reference to historical information about counterparty default risk. All financial assets are with customers with no history of default and have been customers for greater than six months.

(c) Liquidity Risk and Liquidity Risk Management

Prudent liquidity risk management implies maintaining sufficient cash to support the activities of the Company. The Group manages liquidity risk by continuously monitoring forecasted and actual cash flows.

The Board monitors rolling forecasts of the Company's liquidity on the basis of expected cash flow.

Maturities of financial liabilities

The tables below analyse the Group's and the parent entity's financial liabilities based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 6 months	6 - 12 months	Greater than 12 months	Total contractual Cashflows	Carrying Amount
	\$	\$	\$	\$	\$
Group - At 30 June 2019					
Financial liabilities	4,484,575	-	-	4,484,575	4,484,575

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13: FINANCIAL RISK MANAGEMENT (CONTINUED)

(d) Fair Value Estimation

The Group does not have any financial assets or financial liabilities measured at fair value.

Accounting policy:

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which that entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars which is Botanix Pharmaceuticals Limited's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each reporting date presented are translated at the closing rate at the date of that statements of financial position;
- Income and expenses for each Statement of Profit or Loss and Other Comprehensive Income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are taken to shareholders equity. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, a proportionate share of such exchange differences are recognised in the Profit or Loss, as part of the gain or loss on sale where applicable.

Options outstanding during the year have not been taken into account in the calculation of the weighted average number of ordinary shares as they are not considered dilutive.

Accounting policy

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

NOTE 20: EVENTS OCCURRING AFTER THE REPORTING PERIOD

On 1 August 2019, the Company completed a placement of 190,476,191 shares at \$0.21 raising A\$40m (before costs) to advance the Companies cannabinoid clinical development and research portfolio. The placement was completed on 9 August 2019. The Company also announced the appointment of Mr Richard (Ric) Peterson as Chief Financial Officer and Mr Howie McKibbin as Chief Financial Officer.

On 18 July 2019, the Company announced that Mr Vince Ippolito was appointed to the position of Executive Chairman following on from his appointment as a President of the Company on 20 May 2019. The Company also issued 17 million options to Directors with an exercise price of \$0.251 expiring 18 July 2023.

Other than the already mentioned there are no other matters or circumstances which have arisen since the end of the period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

NOTE 21: CONTINGENT LIABILITIES AND COMMITMENTS

The Directors are not aware of any non-cancellable commitments as at 30 June 2019 not reflected in the financial statements.

The Directors are not aware of any contingent liabilities that may arise from the Group's operations as at 30 June 2019.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 22: OTHER ACCOUNTING POLICIES

The significant policies which have been adopted in the preparation of this financial report are:

(a) Principles of Consolidation

Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Botanix Pharmaceuticals Limited (parent entity) as at 30 June 2019 and the results of all subsidiaries for the year then ended. Botanix Pharmaceuticals Limited and its subsidiaries together are referred to in these financial statements as the Group or the consolidated entity.

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the assets transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost less impairment in the individual financial statements of Botanix Pharmaceuticals Limited.

(b) Impairment of Assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

(c) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables in the statements of financial position are stated inclusive of the amount of GST receivable or payable. Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statements of financial position.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 22: OTHER ACCOUNTING POLICIES (CONTINUED)

(d) New accounting standards and interpretations

In the year ended 30 June 2019, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current annual reporting year.

It has been determined by the Directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change is necessary to Group accounting policies.

(e) Standards and Interpretations not yet adopted

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2019. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change necessary to Group accounting policies.

AASB 16 *Leases*

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases. Subject to exceptions, a 'right-of-use' asset will be capitalised in the statement of financial position, measured as the present value of the unavoidable future lease payments to be made over the lease term. The exceptions relate to short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office furniture) where an accounting policy choice exists whereby either a 'right-of-use' asset is recognised or lease payments are expensed to profit or loss as incurred.

A liability corresponding to the capitalised lease will also be recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. Straight-line operating lease expense recognition will be replaced with a depreciation charge for the leased asset (included in operating costs) and an interest expense on the recognised lease liability (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However, EBITDA (Earnings before Interest, Tax, Depreciation and Amortisation) results will be improved as the operating expense is replaced by interest expense and depreciation in profit or loss under AASB 16. For classification within the statement of cash flows, the lease payments will be separated into both a principal (financing activities) and interest (either operating or financing activities) component. For lessor accounting, the standard does not substantially change how a lessor accounts for leases. The consolidated entity will adopt this standard from 1 July 2019 but the impact of its adoption is yet to be assessed by the consolidated entity.

INDEPENDENT AUDITOR'S REPORT

To the members of Botanix Pharmaceuticals Ltd

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Botanix Pharmaceuticals Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2019 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report. We are independent of the Group in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Share Based Payments

Key audit matter	How the matter was addressed in our audit
<p>Botanix Pharmaceuticals Ltd awarded share based payments, in the form of share options, to eligible executives, directors, consultants and employees.</p> <p>The Group performed calculations to record the related share based payment expense in accordance with AASB 2 Share Based Payments in the consolidated statement of profit or loss and other comprehensive income.</p> <p>Due to the complex and judgmental estimates used in determining the valuation of the share based payments, we consider the Group's calculation of the share based payment expense to be a key audit matter. The Group uses assumptions in respect of future market and economic conditions.</p>	<p>Our audit procedures in respect of this area included but were not limited to the following:</p> <ul style="list-style-type: none">• Reviewing relevant supporting documentation to obtain an understanding of the contractual nature and terms and conditions of the share-based payment arrangements;• Considering the appropriateness of the valuation methodology used by management to measure and value the share-based payments;• Involving our valuation specialists to assess the assumptions and inputs used in the valuation;• Assessing the allocation of the share-based payment expense over management's expected vesting period; and• Assessing the adequacy of the related disclosures in Note 2 and Note 11 of the financial report

Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2019, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 11 to 23 of the directors' report for the year ended 30 June 2019.

In our opinion, the Remuneration Report of Botanix Pharmaceuticals Ltd, for the year ended 30 June 2019, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of Botanix Pharmaceuticals Limited (the “Company”) is responsible for the corporate governance of the Company. The Board guides and monitors the business and affairs of the Company on behalf of the shareholders by whom they are elected and to whom they are accountable.

This statement sets out the main corporate governance practices in place throughout the financial year in accordance with 3rd edition of the ASX Principles of Good Corporate Governance and Best Practice Recommendations.

This Statement was approved by the Board of Directors and is current as at 20 August 2019.

PRINCIPLE 1: LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

ASX Recommendation 1.1: A listed entity should establish the functions reserved to the Board and those delegated to senior executives and disclose those functions.

The Board has adopted a formal charter that details the respective Board and management functions and responsibilities. A copy of this Board charter is available in the corporate governance section of the Company's website at www.botanixpharma.com

ASX Recommendation 1.2: A listed entity should undertake appropriate checks before appointing a person or putting forward to security holders a candidate for election as a Director and provide security holders with all material information relevant to a decision on whether or not to elect or re-elect a Director.

The Company considers the character, industry and relevant experience, education and skill set, as well as interests and associations of candidates for appointment to the Board and conducts appropriate checks to verify the suitability of the candidate, prior to their appointment.

The Company did elect two new Directors during the year and appointed an Executive Chairman post year end.

The Company ensures all information in relation to Directors seeking reappointment is set out in the Directors report and Notice of Annual General Meeting.

ASX Recommendation 1.3: A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.

The Company maintains written agreements with each of its Directors and senior executives setting out their roles and responsibilities.

ASX Recommendation 1.4: The company secretary of a listed company should be accountable directly to the Board, through the chair, on all matters to do with the proper functioning of the Board.

The Company Secretary is engaged by the Company to manage the proper function of the Board. The Company Secretary reports directly to the Chair and is accountable to the Board.

CORPORATE GOVERNANCE STATEMENT

ASX Recommendation 1.5: A listed entity should:

- **Have a diversity policy which includes the requirement for the Board to set measurable objectives for achieving gender diversity and assess annually the objectives and the entity's progress to achieving them;**
- **disclose the policy or a summary of it;**
- **disclose the measurable objectives and progress towards achieving them; and**
- **disclose the respective proportions of men and women on the Board and at each level of management and the company as a whole.**

The Company has adopted a Diversity Policy which is available in the corporate governance section of the Company's website at www.botanixpharma.com

The Company has not adopted an express policy specifically addressing the achievement of gender diversity. Due to the current limited size of the Board, the Board does not consider it necessary to have a gender diversity policy, but will consider adopting a policy in the future. Furthermore, the Company has not set any objectives for achieving gender diversity. Should a gender diversity policy be considered appropriate for the Company in the future due to increases in size of the organisation, the policy will specifically deal with the objectives for achieving diversity.

The Company's corporate code of conduct provides a framework for undertaking ethical conduct in employment. Under the corporate code of conduct, the Company will not tolerate any form of discrimination or harassment in the workplace.

The Group currently has no female board members (2018: Nil), one female senior executive (2018: 1). The Company has 3 female employees representing 27% of the total number of employees including directors.

ASX Recommendation 1.6: A listed entity should disclose the process for evaluating the performance of the Board, its committees and individual Directors.

The Board reviews its performance annually, as well as the performance of individual Committees and individual directors (including the performance of the Chairman as Chairman of the Board)

Full details of the process for performance evaluation of the Board and individual Directors is available on the Company's website at www.botanixpharma.com

A performance review was undertaken during the reporting period.

ASX Recommendation 1.7: A listed entity should have and disclose a process for periodically evaluating the performance of its senior executives and disclose in relation to each reporting period where a performance evaluation was undertaken in accordance with a process.

The Executive Director conducts a performance evaluation of the senior executives (including the Executive Director/Chief Scientific Officer). to review performance against the senior executive's responsibilities as outlined in his or her contract with the Company and against key performance indicators (KPI's) set for the senior executive set by the Executive Director or the Board.

The performance of Executive Director will be reviewed by Chainman of the Company. The Chairman will conduct a performance evaluation of the Executive Director annually to review performance against KPIs set for the previous year, and to establish KPIs for the forthcoming year If appropriate.

CORPORATE GOVERNANCE STATEMENT

A performance review was undertaken during the reporting period.

PRINCIPLE 2: STRUCTURE THE BOARD TO ADD VALUE

ASX Recommendation 2.1: The Board of a listed entity should establish a Nomination Committee:

- **With at least three members the majority of which are independent Directors;**
- **chaired by an independent director; and**
- **disclose the charter of the committee, the members of the committee and the number of times the committee met throughout the period and member attendance at those meetings.**

The Board has established a Nomination and Remuneration Committee. Currently, Mr Robert Towner (Chair) and Mr Matt Callahan serve on the Nomination and Remuneration Committee.

While the Committee presently has only two members the Board considers that the composition of the Committee is appropriate given the current size and stage of development of the Company.

A copy of the Committee's charter is available in the corporate governance section of the Company's website at www.botanixpharma.com

No separate meetings of the Committee were held during the year. The business of the Nomination and Remuneration Committee was conducted by the full Board in conjunction with Board meetings.

ASX Recommendation 2.2: A listed entity should have and disclose a Board skills matrix setting out the mix of skills and diversity that the Board currently has or is looking to achieve in its membership.

On a collective basis the Board's skills matrix indicates the mix of skills, experience and expertise that are considered necessary at Board level for optimal performance of the Board. The matrix reflects the Board's objective to have an appropriate mix of industry and professional experience including skills such as leadership, governance, strategy, finance, risk management and international business operations. External consultants may be brought in with specialist knowledge to address areas where this is an attribute deficiency in the Board.

BOTANIX PHARMACEUTICALS LIMITED
ACN: 009 109 755

CORPORATE GOVERNANCE STATEMENT

ASX Recommendation 2.3: A listed entity should disclose the names of the Directors considered by the Board to be independent Directors and provide details in relation to the length of service of each Director.

Dr Stewart Washer and Mr Robert Towner are considered to be an independent Directors.

Mr Vincent Ippolito, Mr Mathew Callahan, Mr William Bosch and Mr Michael Thurn are Executive Directors and are not considered independent Directors as they are employed in an executive capacity.

Details of the appointment dates of the Directors are included in the Directors Report forming part of the Annual Financial Statements.

ASX Recommendation 2.4: The majority of the Board of a listed entity should be independent Directors.

While the Company does not presently have a majority of independent directors the Board considers that its current composition is appropriate given the current size and stage of development of the Company and allows for the best utilisation of the experience and expertise of its members.

Directors having a conflict of interest in relation to a particular Item of business must absent themselves from the Board meeting before commencement of discussion on the topic.

ASX Recommendation 2.5: The Chair of a listed entity should be an independent Director and, in particular, should not be the same person as the CEO of the entity.

Mr Graham Griffiths was considered considered to be an independent Director until his death. Dr Washer was considered an independent Director in his role as Interim Chairman until 18 July 2019 when Mr Ippolito became Executive Chairman and Dr Washer stepped down to a non-executive Director.

Mr. Mathew Callahan was Executive Director of the Company during the financial year.

ASX Recommendation 2.6: A listed entity should have a program for inducting new Directors and provide appropriate professional development opportunities.

Upon appointment to the Board new Directors will be provided with Company policies and procedures will be provided an opportunity to discuss the Company's operations with senior management and the Board.

The Company encourages its Directors to participate in professional development opportunities presented to the Company and provides appropriate industry information to its Board members on a regular basis.

CORPORATE GOVERNANCE STATEMENT

PRINCIPLE 3: ACT ETHICALLY AND RESPONSIBLY

ASX Recommendation 3.1: A listed entity should establish a code of conduct and disclose the code or a summary of the code.

The Company has established a code of conduct that sets out the principles covering appropriate conduct in a variety of contexts and outlines the minimum standard of behaviour expected from Directors and employees.

A copy of the Company's code of conduct is available in the corporate governance section of the Company's website at www.botanixpharma.com.

PRINCIPLE 4: SAFEGUARD INTEGRITY IN FINANCIAL REPORTING

ASX Recommendation 4.1: The Board of a listed entity should establish an audit committee:

- **With at least three members, all of whom are non-executive Directors and a majority of which are independent Directors;**
- **chaired by an independent Director; and**
- **disclose the charter of the committee, the members of the committee and the number of times the committee met throughout the period and member attendance at those meetings.**

The Board has established an Audit Committee. Currently, Dr Stewart Washer (Chair) and M Matt Callahan serve on the Audit Committee.

While the Committee presently has only two members the Board considers that the composition of the Committee is appropriate given the current size and stage of development of the Company.

A copy of the committee's charter is available in the corporate governance section of the Company's website at www.botanixpharma.com

Details of meetings of the Audit Committee held during the year are set out in the Directors Report included in the Financial Statements.

CORPORATE GOVERNANCE STATEMENT

ASX Recommendation 4.2: The Board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

The Board has received a written assurance from the Executive Director and Company Secretary in respect to the half year financial statements ended 31 December 2018 and full year financial statements for the year ended 30 June 2019 that to the best of their knowledge and belief, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively. The Board notes that due to its nature, the internal control assurance provided can only be reasonable rather than absolute. This is due to such factors as the need for judgement, the use of testing on a sample basis, the inherent limitations in internal control and because much of the evidence is persuasive rather than conclusive and therefore is not and cannot be designed to detect all weaknesses in internal control procedures.

Given the size and nature of the Company's operations the Board has not received the assurance in respect of the quarterly cash flow statements believing that the provision of the assurance for the half and full year financial statements is sufficient.

ASX Recommendation 4.3: A listed entity should ensure that the external auditor attends its Annual General Meeting and is available to answer questions from security holders relevant to the audit.

The external auditor attends the Annual General Meeting and is available to answer questions from shareholders relevant to the audit and financial statements. The external auditor will also be allowed a reasonable opportunity to answer written questions submitted by shareholders to the auditor as permitted under the Corporations Act.

PRINCIPLE 5: MAKE TIMELY AND BALANCED DISCLOSURE

ASX Recommendation 5.1: A listed entity should establish written policies designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior executive level for that compliance and disclose those policies or a summary of those policies.

The Company has established a continuous disclosure policy which is designed to guide compliance with ASX Listing Rule disclosure requirements and to ensure that all Directors, senior executives and employees of the Company understand their responsibilities under the policy. The Board has designated the Chairman, other Board Members and the Company Secretary as the persons responsible for ensuring that all required price sensitive information is disclosed to the ASX as required.

In accordance with the Company's continuous disclosure policy, all information provided to ASX for release to the market is posted to its website at www.botanixpharma.com after ASX confirms an announcement has been made.

CORPORATE GOVERNANCE STATEMENT

A copy of the continuous disclosure policy is available in the corporate governance section of the Company's website at www.botanixpharma.com.

PRINCIPLE 6: RESPECT THE RIGHTS OF SHAREHOLDERS

ASX Recommendation 6.1: A listed entity should provide information about itself and its governance to investors via its website.

The Company's website at www.botanixpharma.com contains information about the Company's projects, Directors and management and the Company's corporate governance practices, policies and charters. All ASX announcements made to the market, including annual and half year financial results are posted on the website as soon as they have been released by the ASX. The full text of all notices of meetings and explanatory material, the Company's Annual Report and copies of all investor presentations are posted on the website.

ASX Recommendation 6.2: A listed entity should design and implement an investor relations program to facilitate effective two-way communication with investors.

The Company's Chairman and Executive Director are the Company's main contacts for investors and potential investors and make themselves available to discuss the Company's activities when requested. In addition to announcements made in accordance with its continuous disclosure obligations Company, from time to time, prepares and releases general investor updates about the Company.

Contact with the Company can be made via an email address provided on the website and investors can subscribe to the Company's mailing list.

ASX Recommendation 6.3: A listed entity should disclose the policies and processes it has in place to facilitate and encourage participation at meetings of security holders.

The Company encourages participation of shareholders at any general meetings and its Annual General Meeting each year. Shareholders are encouraged to lodge direct votes or proxies subject to the adoption of satisfactory authentication procedures if they are unable to attend the meeting.

The full text of all notices of meetings and explanatory material are posted on the Company's website at www.botanixpharma.com

ASX Recommendation 6.4: A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security register electronically.

Contact with the Company can be made via an email address provided on the website and investors can subscribe to the Company's mailing list.

The Company's share register provides a facility whereby investors can provide email addresses to receive correspondence from the Company electronically and investors can contact the share register via telephone, facsimile or email.

CORPORATE GOVERNANCE STATEMENT

PRINCIPLE 7: RECOGNISE AND MANAGE RISK

ASX Recommendation 4.1: The Board of a listed entity should have a committee to oversee risk:

- **With at least three members, all of whom are non-executive Directors and a majority of which are independent Directors;**
- **chaired by an independent director; and**
- **disclose the charter of the committee, the members of the committee and the number of times the committee met throughout the period and member attendance at those meetings.**

Given the size Company and its operations the board as a whole is responsible to oversee the Company's risk management framework.

Management is responsible for developing, maintaining and improving the Company's risk management and internal control system. Management provides the board with periodic reports identifying areas of potential risks and the safeguards in place to efficiently manage material business risks. These risk management and internal control systems are in place to protect the financial statements of the entity from potential misstatement, and the Board is responsible for satisfying itself annually, or more frequently as required, that management has developed a sound system of risk management and internal control.

A copy of the Company's risk management policy, incorporating the framework, is available in the corporate governance section of the Company's website at www.botanixpharma.com

ASX Recommendation 7.2: The Board or a committee of the Board, of a listed entity should review the entity's risk management framework at least annually to satisfy itself that it continues to be sound and disclose in relation to each reporting period whether such a review was undertaken.

The Board has conducted a review of the Company's Risk Management Framework during the reporting period.

ASX Recommendation 7.3: A listed entity should disclose if it has an internal audit function and if it does not have an internal audit function that fact and the processes it employs for evaluating and continually improving the effectiveness of risk management and internal control processes.

Given the Company's current size and level of operations it does not have an internal audit function. The Board oversees the Company's risk management systems, practices and procedures to ensure effective risk identification and management and compliance with internal guidelines and external requirements and monitors the quality of the accounting function.

ASX Recommendation 7.4: A listed entity should disclose whether it has any material exposure to economic, environmental and social sustainability risks and if it does how it manages or intends to manage those risks.

The Company has exposure to economic risks, including general economy wide economic risks and risks associated with the economic cycle which impact on the price and demand for minerals which affects the sentiment for investment in exploration companies.

There will a requirement in the future for the Company to raise additional funding to pursue its business objectives. The Company's ability to raise capital may be affected by these economic risks.

BOTANIX PHARMACEUTICALS LIMITED
ACN: 009 109 755

CORPORATE GOVERNANCE STATEMENT

Company has in place risk management procedures and processes to identify, manage and minimise its exposure to these economic risks where appropriate.

The Board currently considers that the Company does not have any material exposure to environmental risk.

The Board currently considers that the Company does not have any material exposure to social sustainability risk. The Company's Corporate Code of Conduct outlines the Company's commitment to integrity and fair dealing in its business affairs and to a duty of care to all Directors, executives and employees. The code sets out the principles covering appropriate conduct in a variety of contexts and outlines the minimum standard of behavior expected from employees when dealing with stakeholders.

PRINCIPLE 8: REMUNERATE FAIRLY AND RESPONSIBLY

ASX Recommendation 8.1: The Board of a listed entity should establish a remuneration committee:

- **With at least three members the majority of which are independent Directors;**
- **chaired by an independent Director; and**
- **disclose the charter of the committee, the members of the committee and the number of times the committee met throughout the period and member attendance at those meetings.**

The Board has established a Nomination and Remuneration Committee. Currently, Mr. Robert Towner (Chair) and Mr Matt Callahan serve on the Nomination and Remuneration Committee.

While the Committee presently has only two members the Board considers that the composition of the Committee is appropriate given the current size and stage of development of the Company.

A copy of the committee's charter is available in the corporate governance section of the Company's website at www.botanixpharma.com

No separate meetings of the Nomination and Remuneration Committee were held during the year. The business of the Nomination and Remuneration Committee was conducted by the full Board in conjunction with Board meetings.

ASX Recommendation 8.2: A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive Directors and the remuneration of executive Directors and other senior executives.

Non-Executive Directors are paid a fixed annual fee for their service to the Company as a Non-Executive Director. Non-Executive Directors may, subject to shareholder approval, may be granted options.

Executives of the Company typically receive remuneration comprising a base salary component and other benefits based on the terms of their employment agreements with the Company and potentially the ability to participate in bonus arrangements and may, subject to shareholder approval if appropriate, be granted options.

BOTANIX PHARMACEUTICALS LIMITED
ACN: 009 109 755

CORPORATE GOVERNANCE STATEMENT

ASX Recommendation 8.3: A listed entity which has an equity-based remuneration scheme should have a policy on whether participants are permitted to enter into transactions which limit the economic risk of participating in the scheme and disclose the policy or a summary of that policy.

A participant in an equity-based remuneration plan operated by the Company must not enter into a transaction (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the equity-based remuneration plan.
