About Cycliq

Cycliq is a cycling safety products company based in Perth, Australia, that produces the world-first dashcam for bikes, the rear-facing Fly6 and front-facing Fly12.

The Fly bike cameras integrate powerful safety lights and are engineered with multiple safety functions to give cyclists peace of mind, so they can enjoy their ride. In the event of an incident, the HD cameras act as dashcams, recording everything that happens for later review; from accidents and near-misses, to spectacular scenery. The powerful safety lights provide improved visibility on the roads.

More than 75,000 of the Fly bike dashcams have been shipped around the world to over 50 countries since the company was founded in 2012. Cycliq has operations in North America, Australia and China, with direct to consumer sales from the company website and Amazon, and access to more than 6,000 retail points of presence through a network of regional distribution and retail partners in the USA, Asia-Pacific, EU and UK, as well as major online players including Wiggle (global) and Backcountry.com (USA).
