Issue of Convertible Notes – Section 708A(12C)(e) Notice Not For Distribution to United States Newswire Services or for Dissemination in the United States

This cleansing notice (**Cleansing Notice**) is given by Swift Media Limited (ASX:SW1) (ACN 006 222 395) (**Swift** or the **Company**) under section 708A(12C)(e) of the *Corporations Act 2001* (Cth) (**Corporations Act**) (as notionally inserted by ASIC Corporations (Sale Offers: Securities Issued on Conversion of Convertible Notes) Instrument 2016/82).

The Company advises that it has today issued the convertible notes referred to in section 1 below without disclosure to investors under Part 6D.2 of the Corporations Act.

The purpose of this Cleansing Notice is to enable the fully paid ordinary shares in the capital of the Company (**Shares**) that may be issued on the conversion of the convertible notes to be on-sold to retail investors without further disclosure.

This Cleansing Notice is an important document and should be read in its entirety. Neither ASIC nor ASX takes any responsibility for the contents of this Cleansing Notice.

1 BACKGROUND

On 20 September 2019, the Company announced that it has secured debt funding from L1 Capital Global Opportunities Master Fund (**L1**) and Lind Global Macro Fund, LP (**Lind**)(together the **Investors**). The facility is in the form of a convertible securities agreement (**Convertible Securities Agreement**) under which the Company will issue convertible notes for the amount of AUD \$4.0m (**Convertible Notes**) to affiliates of L1 and Lind.

The Convertible Securities Agreement provides for four tranches of Convertible Notes. 500,000 Convertible Notes were issued to L1 on 25 September 2019. The remaining portion of the first tranche has been drawn today and a further 500,000 Convertible Notes issued to Lind (the **Lind Convertible Notes** or together the **Initial Convertible Notes**). The Convertible Notes are purchased by the Investors at 90% of their face value.

The directors of the Company consider that the raising of capital by the issue of the Convertible Notes (as set out above) is in the best interests of the Company.

2 THE EFFECT OF THE ISSUE ON THE COMPANY

2.1 Summary

The principal effect of the issue of the Lind Convertible Notes on 26 September 2019 on the Company will be to:

- (a) increase the Company's cash reserves by \$0.45 million (before costs associated with the issue);
- (b) increase the number of Convertible Notes on issue from nil to 500,000; and
- (c) give rise to the Company having a liability for the amount of the aggregate face value of the Initial Convertible Notes, being \$500,000.

The Initial Convertible Notes may convert in whole or in part into Shares at the Conversion Price (see section 3 'Conversion terms' below). If the Initial Convertible Notes are converted, either in whole or in part, this will dilute existing shareholders in the Company. The effect of the conversion on the Company's capital structure is show in section 2.3 below.

2.2 Pro forma consolidated statement of financial position of the Company taking into account the issue of the Lind Convertible Notes

- (a) Set out below is a pro forma consolidated statement of financial position of the Company as at 30 June 2019, based on the preliminary unaudited financial statements balance as at 30 June 2019 and detailed in the Appendix 4E lodged on 31 August 2019 adjusted to reflect the issue of the Lind Convertible Notes, and prepared on the basis of the accounting policies normally adopted by the Company.
- (b) The pro forma financial information is presented in an abbreviated form in so far as it does not include all of the disclosures required by Australian Accounting Standards applicable to the annual financial statements. The pro forma financial information is not audited.
- (c) Cash proceeds of \$0.45 million (before costs and expenses) arising from the issue of 500,000 Convertible Notes to Lind on 26 September 2019 have been recognised. The Convertible Notes have been provisionally accounted for as financial liabilities, and presented in current Borrowings.
- (d) Cash proceeds of \$0.45 million (before costs and expenses) arising from the issue of 500,000 Convertible Notes to L1 on 25 September 2019 have also been recognised on the same basis as the Convertible Notes referred to in (c) above.
- (e) Collateral shares have been issued at an issue price of \$0.18 per share.
- (f) The provisional accounting for the Convertible Notes and allocations between liabilities and equity may change in the future.

- (b) The Lind Convertible Notes must be redeemed at the maturity (being 90 days after the date of issue or 25 December 2020) unless the Investor converts the Initial Convertible Notes. Swift has the right to redeem the Initial Convertible Notes early, but this right is subject to the Noteholders' right to require that 50% of the amount to be redeemed instead be converted into Shares.
- (c) The actual effect on the issued share capital of the Company will depend on what percentage of the Convertible Notes are actually converted and on the applicable Conversion Price. The effect on the issued ordinary share capital of the Company on conversion of all the Convertible Notes set out in the table below, and assumes the maximum conversion of 6,666,666 Shares.

3 RIGHTS AND LIABILITIES ATTACHING TO THE CONVERTIBLE NOTES

The table below summarises at a high level the rights and liability attaching to the Convertible Notes under the Convertible Securities Agreement. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of the Noteholders.

Term and Maturity	The maturity date for each tranche of the Convertible Notes is 12 months from the date of the issue of that tranche, other than the Initial Convertible Notes for which the maturity date is 90 days after the date of issue.
	The Company can elect whether to draw down on the remaining tranches (and each draw down is subject to certain conditions, including that the aggregate amount outstanding to the relevant Noteholder is less than \$650,000 and will be less than \$650,000 as a result of the draw down). The second, third and fourth tranche must be drawn down after 75 days, 150 days and 225 days of the draw down of the initial tranche.
	The Company has the right to extend the maturity date of a tranche by 3 months by paying an extension fee equal to 1.5% of the face value of the relevant Convertible Note tranche. The extension fee will be repaid if the Noteholder converts the relevant Convertible Note tranche within 20 days of the maturity date extension. This right can only be exercised twice for each tranche and cannot be exercised by the Company when an Event of Default (defined below) is subsisting.

Face value	The Convertible Notes have a face value of AU\$1 each. The Convertible Notes are purchased by the Investors at 90% of their face value.
Subsequent tranches	If the average daily VWAP of any 5 consecutive trading days (excluding daily VWAPs on Excluded Days (defined below)) is less than A\$0.125 (Pricing Event), the Noteholders will have discretion as to whether to purchase any further tranches of Convertible Notes and the number of Convertible Notes of any such purchase will be agreed between the parties. If a Pricing Event occurs, the Noteholders must notify its intention to the Company within the earlier of: 1. 20 business days after the Pricing Event; and 2. 10 business days after a period of 5 consecutive trading days over which the average daily VWAP is more than \$0.125.
Interest	No interest is payable on the Convertible Notes, other than if an Event of Default occurs. If an Event of Default occurs, interest will accrue on the aggregate face value of the Convertible Notes then outstanding at the rate of 2% per annum, compounded monthly, until the Event of Default is remedied or all outstanding amounts are repaid.
Drawdown fee	The Company must pay a fee equal to 3% of the aggregate face value of the Convertible Notes on the drawdown of each tranche, payable by deducting that amount from the purchase price of that tranche.
Permitted use of funds	The Company must use the funds received for general corporate and working capital purposes and creditor payments, not for dividend payments.
Security and collateral	The Convertible Notes are unsecured and rank equally with all other unsecured obligations of the Company. However, the Company was required to issue 2,000,000 Shares to the Noteholders (Collateral Shares), or 1,000,000 Shares to each Noteholder, in consideration for the Noteholders entering into the Convertible Securities Agreement. The Noteholders are restricted from disposing of their Collateral Shares for 45 days after the issue of the first

tranche of the Convertible Notes. They may freely deal with the Convertible Notes thereafter. In addition, a Noteholder may (but is not obliged to) use them in full or partial satisfaction of the Company's obligation to issue Shares on conversion of the Convertible Notes by the Noteholder.

On termination or expiry of the Convertible Securities Agreement, if there are Collateral Shares remaining and no amounts outstanding under the Convertible Securities Agreement, each Noteholder must pay the Company for their remaining Collateral Shares at the average of the 5 lowest daily VWAPs (excluding daily VWAPs on Excluded Days (defined below)) over the 20 actual trading days immediately prior to the date on which the Convertible Securities Agreement terminates or expires or the date on which there are no amount outstanding, less brokerage costs.

Each Noteholder may elect to convert Convertible Notes into Shares by issuing a conversion notice to the Company (**Conversion Notice**).

Each Noteholder may only give a Conversion Notice once in each calendar month.

The conversion price in respect of each Conversion Notice will be the lesser of:

1. 92% of the average of the 5 lowest daily VWAP during the 20 actual trading days prior to the date of conversion (as notified in the relevant Conversion Notice), rounded down to the nearest cent; and
2. 130% of the average of the daily VWAPs over the 5 actual trading days immediately prior to the purchase date of the relevant Convertible Notes, rounded down to the nearest cent (adjusted for any changes in the capital structure of the Company).

Conversion terms

The above calculations exclude daily VWAPs on trading days on which a Noteholder sells shares in the Company in a volume which exceeds 10% of the total volume of shares in the Company sold on that day (**Excluded Days**).

If the Company is unable to issue shares within 2 trading days of receiving a Conversion Notice, the Noteholders may, but are not required to, either require the Company to:

1. hold over the conversion price and issue the conversion shares once the Company is able to issue them; or
2. pay an amount equal to the greater of (i) the conversion shares multiplied by the closing bid price the prior date and (ii) 110% of the total face value of the applicable Convertible Notes.

Maximum number of Shares on conversion of the Initial Convertible Notes

The maximum number of Shares that may be issued in respect of the Initial Convertible Notes is 13,333,333 in aggregate (**Share Cap**).

The Company must, within 60 days of issue of the Initial Convertible Notes, convene and hold a general meeting of its shareholders to seek shareholder approval for the issue of replacement Convertible Notes to the Noteholders to replace the Initial Convertible Notes, on the same terms as the Convertible Notes but not subject to the Share Cap.

The Company will seek this approval at the Company's annual general meeting

Early redemption by the Company

Early redemption

The Company may redeem some or all of the outstanding Convertible Notes at any time at a 5% premium to the face value of such Convertible Notes by giving notice to the Noteholders (**Early Redemption Notice**). At any time after receipt of the Early Redemption Notice but prior to redemption of the Convertible Securities (which must occur within 20 business days), a Noteholder may issue a Conversion Notice for up to 50% of the Convertible Notes the subject of the Early Redemption Notice.

The Company cannot serve an Early Redemption Notice if an Event of Default has occurred.

Early redemption by the Noteholders

If the Company raises funds by issuing shares or convertible securities during the 2019 calendar year, the Noteholders may require the Company to repay the lower of \$200,000, 10% of the net amount raised and the total face value of the applicable Convertible Notes. Those Convertible Notes will be redeemed at a 3% discount.

Events of Default

There are a number of events which are Events of Default under the Convertible Securities Agreement, including but not limited to:

-
- a failure by the Company to pay amounts owing by it under the Convertible Securities Agreement;
 - unremedied material breaches of the Convertible Securities Agreement, including the failure to issue Shares to the Investor on conversion of the Convertible Securities or failure to apply for quotation of those Shares within certain timeframes;
 - insolvency of the Company or its subsidiaries;
 - any steps being taken by or against the Company or any of its subsidiaries in respect of the appointment of a controller, administrator or liquidator, winding up or composition with creditors;
 - failure by the Company to comply with the ASX Listing Rules in any material respect;
 - enforcement action being taken against the Company or its subsidiaries or in respect of any of their assets;
 - certain failures by the Company or its subsidiaries to pay their debts when and as they fall due;
 - a security interest being granted by the Company or any of its subsidiaries or otherwise coming into existence which is not permitted under the Convertible Securities Agreement;
 - failure to obtain a shareholder approval that is required for the issue of securities under the Convertible Securities Agreement;
 - a change in control of the Company;
 - a suspension of trading of Shares for more than 10 consecutive trading days or 15 trading days in any 12 month period; and
 - the Company or any of its subsidiaries ceases or to carry on business.

If an Event of Default occurs and either the Company does not remedy that default within 10 business days where remediable (or 15 business days for certain material breaches) or there has been at least two previous Events of Default, the Noteholders may demand repayment of the face value of all then outstanding Convertible Notes and any other amounts owing in connection with them and the Company is required to repay 105% of the then outstanding amount. The Noteholders may also terminate the Convertible Securities Agreement.

	The Noteholders must give the Company 30 days to make the repayment where the Event of Default is a failure to obtain shareholder approval. In addition, the Company agrees to indemnify the Noteholders and their affiliates against any losses that arise or are incurred in connection with an Event of Default or potential Event of Default.
Assignment and transferability	Each Noteholder may assign or transfer its rights under or in connection with the Convertible Securities Agreement, without the consent of the Company, to an affiliate or to any person while an Event of Default is subsisting. Each Noteholder may also nominate a third party to be issued Shares on conversion of the Convertible Notes.
Governing law	The Convertible Securities Agreement is governed by the laws of the state of Western Australia.

4 RIGHTS AND LIABILITIES ATTACHING TO THE SHARES

The Shares to be issued to Noteholders on conversion of the Convertible Notes will rank equally in all respects with all of the Company's existing Shares. A summary of the rights and liabilities attaching to Shares, including the Shares to be issued to Noteholders holders (who will become shareholders) on conversion of the Convertible Notes is set out below.

The summary is not exhaustive and does not purport to constitute a definitive statement of the rights and liabilities of shareholders, and is qualified by the terms of the Company's Constitution (a full copy of which is available from Company on request free of charge and can be found in the 'Corporate Governance' section of the Company's website).

Introduced 01/08/12

Part 1

Rule 7.1 – Issues exceeding 15% of capital	
Step 1: Calculate “A”, the base figure from which the placement capacity is calculated	
Insert number of fully paid ordinary securities on issue 12 months before date of issue or agreement to issue	121,312,903
Add the following: - Number of fully paid ordinary securities issued in that 12 month period under an exception in rule 7.2 - Number of fully paid ordinary securities issued in that 12 month period with shareholder approval - Number of partly paid ordinary securities that became fully paid in that 12 month period <i>Note:</i> - Include only ordinary securities here – other classes of equity securities cannot be added - Include here (if applicable) the securities the subject of the Appendix 3B to which this form is annexed - It may be useful to set out issues of securities on different dates as separate line items	1,500,000– Exercise of options 989,622 – Conversion of 2018 STI Rights 634,017 – Conversion of 2017 Incentive Plan Rights 14,950,166 – Approved 12 Feb 2019 33,333,334 – Approved 26 Apr 2016
Subtract the number of fully paid ordinary securities cancelled during that 12 month period	Nil
“A”	172,720,042

+ See chapter 19 for defined terms.

Step 2: Calculate 15% of “A”	
“B”	0.15 <i>[Note: this value cannot be changed]</i>
Multiply “A” by 0.15	25,908,006
Step 3: Calculate “C”, the amount of placement capacity under rule 7.1 that has already been used	
Insert number of equity securities issued or agreed to be issued in that 12 month period <i>not counting</i> those issued: - Under an exception in rule 7.2 - Under rule 7.1A - With security holder approval under rule 7.1 or rule 7.4 Note: <i>This applies to equity securities, unless specifically excluded – not just ordinary securities</i> <i>Include here (if applicable) the securities the subject of the Appendix 3B to which this form is annexed</i> <i>It may be useful to set out issues of securities on different dates as separate line items</i>	332,226 2,000,000 13,333,333 – Potential shares under Convertible Notes

Subtract “C” <i>Note: number must be same as shown in Step 3</i>	15,665,559
Total [“A” x 0.15] – “C”	10,242,447 <i>[Note: this is the remaining placement capacity under rule 7.1]</i>

+ See chapter 19 for defined terms.

Part 2

Step 2: Calculate 10% of “A”	
“D”	0.10 <i>Note: this value cannot be changed</i>
Multiply “A” by 0.10	17,272,004
Step 3: Calculate “E”, the amount of placement capacity under rule 7.1A that has already been used	
Insert number of equity securities issued or agreed to be issued in that 12 month period under rule 7.1A Notes: • This applies to equity securities – not just ordinary securities • Include here – if applicable – the securities the subject of the Appendix 3B to which this form is annexed • Do not include equity securities issued under rule 7.1 (they must be dealt with in Part 1), or for which specific security holder approval has been obtained • It may be useful to set out issues of securities on different dates as separate line items	Nil
“E”	Nil

Step 4: Subtract “E” from [“A” x “D”] to calculate remaining placement capacity under rule 7.1A	
“A” x 0.10 <i>Note: number must be same as shown in Step 2</i>	17,272,004
Subtract “E” <i>Note: number must be same as shown in Step 3</i>	Nil
