LINDIAN FAST-TRACKS GAOUAL BAUXITE PROJECT DRILL PROGRAM

- **Phase 1 fast-track drilling program to be completed December 2019**
- **Low cost to prove up scale, thickness and grade of Conglomerate Bauxite deposit**

Lindian Resources Limited (“Lindian” or the “Company”) (“ASX: LIN”) is pleased to advise that it has been able to significantly fast-track drilling of the Gaoual Bauxite Project in Guinea which will result in the Company being able to define the scale, thickness and grade of its Conglomerate Bauxite deposit **this calendar year**.

Lindian intends to have preliminary results of the depth, grade and scale of the Bouba Plateau – which is the primary conglomerate bauxite target - in late December 2019. Please see the presentation released today for more detail regarding this exciting development.

Managing Director Shannon Green commented: *“Our technical team has been assessing all options to determine how to cost effectively prove up Gaoual as a Conglomerate Bauxite deposit, and we have designed a program that is very low cost and exceptionally high impact if we prove up grade, thickness and scale.”*
