

ASX Announcement

30 October 2019

ASX Code: VKA

Quarterly Report for the period ended 30 September 2019

During the quarter ended 30 September 2019, Viking Mines Ltd (**Viking** or the **Company**) was actively focussed on progressing work at the Tumentu Gold Project and continuing the proceedings against the purchaser and guarantors of the Akoase Gold Project.

1. Akoase Gold Project (Ghana, VKA 100% - reducing to 0% upon completion of sale)

In June 2015 the Company executed a sale contract for the Akoase Gold Project for an overall transaction value of USD\$10 million, of which USD\$8 million was to be paid in cash.

Viking has previously been paid USD\$5 million in sales proceeds. The remaining USD\$3 million was due by 31 December 2017 with a grace period until 31 January 2018. At the date of this announcement, the USD\$3 million has not been received by the Company.

Current Akoase sale proceeds summary:

- USD\$5 million – paid to date;
- USD\$3 million – this amount was due to be paid by 31 December 2017. At the date of this announcement, the USD\$3 million has not been received by the Company; and
- a further USD\$2 million via royalties from production.

As announced to the market on 22 October 2018, the Company's lawyers in Ghana have filed and served proceedings against the purchaser and guarantors of the Akoase Gold Project. Since that time, the matter has been proceeding through the court process in the High Court (Commercial Division) in Ghana. The Company is focused on resolving this matter and the Company will ensure that the market is informed of any material information relating to this matter as it progresses.

2. Tumentu Gold Project (Ghana, VKA 100%)

As announced to the market on 26 April 2019, the Company was granted a prospecting licence for Tumentu from the Minerals Commission on 25 April 2019.

Accordingly, the Company is proceeding with the two-year program developed by the Company, consisting of air-core (AC) and reverse circulation (RC) drilling, soil geochemistry and ground based geophysics. A recent field inspection (April 2019) by directors of the Company indicated the prospectivity of this area. A subsequent report commissioned by the Company and prepared by Mostycons Ltd recommended a 50 hole air-core drilling program to test previously identified gold-in-soil anomalies with grades of >200ppb Au along the Salman Shear Zone.

The Company is excited by the potential of this drilling campaign and has engaged a drilling contractor to commence drilling works in the area. Due to excessive rain in the region, which has caused flooding in some areas of the property, the planned drilling program has been delayed. The Company is expecting to commence the drilling program when conditions improve and will provide the market with updates as the program progresses.

The Company has also received advice that the Minerals Commission Board in Ghana has approved a prospecting licence application for Butre, which is located in the Ahanta West region of Ghana. The application is currently with the Minister for final approval.

3. Berkh Uul Coal Project (Mongolia, VKA 100%)

No on-ground activity on the project during the quarter.

Viking continues to seek resolution relating to changes to boundaries of protected areas affecting the Berkh Uul prospecting license, introduced under Long Name Law in 2010. The Company has commenced action against the Mineral Resources and Petroleum Authority of Mongolia in this regard (**MRPAM**). The Company has received a written judgement from the Supreme Court in relation to this matter, which upheld the decision of the First Instance Administrative Court which rejected the claims of the Company. The Company's lawyers in Mongolia are in the process of submitting a request for compensation to MRPAM.

4. Khonkhor Zag Coal Project (Mongolia, VKA 100%)

No on-ground work was undertaken on the project during the quarter.

In accordance with and consistent with the Board's objectives, the Company has continued to engage with prospective buyers in relation to the Mongolian assets.

5. Corporate

The Company has a strong cash position of \$2.116 million as at 30 September 2019.

Other than the matters set out above, no other matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

The Board believes Viking is in a strong and unique position to identify and evaluate opportunities in the mining sector.

The Company continues its review of mineral project farm-in/acquisition opportunities with the objective of acquiring mature exploration assets with potential to deliver long-term sustainable cash flow.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
