

EXECUTIVE DIRECTOR – PERFORMANCE RIGHTS

Big River Gold Ltd (ASX: BRV) (**Company** or **Big River**) has recently completed a review of the Company's Executive Director, Mr Andrew Richards' remuneration package and the Board has proposed to issue him the following Performance Rights, subject to shareholder approval:

Performance Rights (No.)	Criteria/hurdles
15,000,000	Completion of the Borborema DFS by December 31, 2019
15,000,000	Commissioning of gold plant to commence by March 31, 2021.

Mr Richards was appointed in February 2019, and as part of the restructuring and refinancing of the Company, was engaged on a remuneration package of which the cash component was \$50,000 pa. This was and remains well below market salary rate for an Executive Director of his experience but was appropriate given the financial position of the Company at the time.

In appreciation of this and in recognition of the significant and rapid advances that have been made under Mr Richards' direction, the Board has agreed to issue the Performance Rights, which also aligns the short – medium term targets with Corporate objectives. There has been no increase to the cash component of the remuneration package which remains at \$50,000 p.a.

Yours sincerely,

Stephen Copulos

Chairman

About Big River Gold

Big River Gold Ltd (ASX:BRV), is a mineral exploration and development company listed on the Australian Securities Exchange. Its major focus is Brazil; a country the Company believes is underexplored and offers high potential for the discovery of world class mineral deposits. The Company's key asset is the Borborema Gold Project.

Borborema Gold Project

Borborema is located in the Seridó area of the Borborema province in north-eastern Brazil. It is 100% owned by Big River and consists of three mining leases covering a total area of 29 km² including freehold title over the main prospect area.

The Project benefits from a favourable taxation regime, existing on-site facilities and excellent infrastructure such as buildings, grid power, water and sealed roads. It is close to major cities and regional centres and the services they can provide. The project's measured, indicated and inferred Mineral Resource Estimate of 2.43Moz @ 1.10 g/t gold, remains open in all directions (refer to ASX Announcement of 24 July 2017).
