

EXTENSION TO SHARE PURCHASE PLAN CLOSING DATE

Further to previous announcements regarding the Share Purchase Plan ("**SPP**"), Predictive Discovery Limited (the "**Company**" or "**Predictive**") has elected to extend the closing date of the SPP until 5.00 pm (EDST) on Monday 25th November 2019.

The main reason for the time extension is because some shareholders have advised that they have not received the SPP documentation in a suitable time frame and require more time to consider their investment decision.

The SPP Offer will allow eligible shareholders to participate in the capital raising on the same terms as the Placement (announced on 16th October 2019), which will include the issue of fully-paid ordinary shares at \$0.01 per share and, in addition, for every two shares issued, the Company will issue one option with an exercise price of \$0.018 per option and an expiry date which is 3 years from the date of issue ("Options"). The issue of the Options is subject to shareholder approval at the Company's AGM planned for 26th November. It is also the intention of the Company to seek quotation (listing) of the Options.

The Company announced a strongly supported share placement to raise up to \$1.75 million on 16 October 2019. The proceeds from this placement will ensure the Company is well placed to continue work over its highly prospective landholdings in Guinea and Cote D'Ivoire, which will include drilling activity kicking off soon in Cote D'Ivoire on the exciting Ouarigue South gold deposit on the Ferkessedougou North Project.

It is intended that the funds raised from the Placement and SPP will be used:

- To fund the Company's gold exploration activities in West Africa including.
- Exploration activities at the Company's 100% owned gold projects in Guinea.
- Maintaining the Company's approximate 25% interest in the Resolute Joint Venture in Cote D'Ivoire.
- For working capital purposes.

If any shareholder has not received their offer documentation, but wishes to take part in the SPP, we encourage you to contact the Predictive Discovery Limited Offer Information Line on 1300 495 169 (within Australia) or +61 1300 495 169 (from outside Australia) between 8.30am and 5.30pm (AEDT) Monday to Friday.

A copy of the Share Purchase Plan Amended Timetable for Offers is attached.

About Predictive Discovery

Predictive Discovery is a West African focused gold explorer with a portfolio of 21 exploration projects and applications strategically located in the prolific Birimian greenstone belts of Guinea, Cote d'Ivoire and Burkina Faso.

The Company has begun work on its five 100%-owned exploration properties in Guinea with a 500km² landholding in the highly prospective but underexplored Siguiri Basin, which contains AngloGold's world-class Siguiri Mine (+10Moz). All permits are located close to widespread artisanal workings with drilling expected to begin in early 2020.
