

## Forrestania Nickel Update

- ∅ **A lightning strike has started a bush fire at Forrestania**
- ∅ **All Hannans employees and contractors are safe**
- ∅ **Exploration activities suspended until further notice**

Hannans Ltd (ASX:HNR) advises shareholders that a lightning strike has started a bush fire close to the Company's 100% owned Forrestania Nickel Project ("FNP"), located approximately 120km south of Southern Cross and 80km east of Hyden, in the Goldfields region of Western Australia.

All Hannans employees and contractors are safe, have departed the exploration camp and are out of danger. Roads into and out of the project area are now closed. The fire is still burning. Exploration activities are suspended until such time as the fire is extinguished, roads re-opened and authorities declare it safe to return. Hannans will advise ASX when exploration activities have recommenced.
