

## **NetLinkz completes acquisition of Security Software International (SSI) Pacific Pty Ltd**

**SYDNEY, Jan 8, 2020** – NetLinkz Limited (ASX: NET) ('NetLinkz'), the creator of the Virtual Invisible Network (VIN), advises that the acquisition of Security Software International (SSI) Pacific for A\$10.2 million has completed.

James Tsiolis, Executive Chairman of NetLinkz said: “In SSI we have acquired a high quality, value accretive business that provides strategic synergies and global growth opportunities to NetLinkz. SSI has outstanding relationships in the Australian market, and we are excited to work closely with SSI to develop an innovative combined enterprise solution that meets the security and monitoring demands of these existing clients and modern businesses around the globe.

“NetLinkz and its VIN software are complementary to the core offering of SSI and we believe that the additional security and innovative technological solution that VIN provides will be invaluable to SSI’s current client base and to any future client as we work toward global expansion of the business.

“I would like to welcome SSI staff to the NetLinkz Group, and I am pleased that Samuel Py is continuing in his role of CEO to lead the business through what is sure to be a very busy and exciting period,” Mr Tsiolis said.

Mr Py said: “I am delighted for the SSI team to be joining NetLinkz and for our combined business to tackle modern security challenges with innovative and market-leading solutions.”

NetLinkz confirmed that acquisition is projected to return an additional A\$1.5m annualised profits after expenses to the Netlinkz balance sheet.

The acquisition was funded through a combination of its existing debt and financing facilities.
