

## Update on Voluntary Escrow for Minor Vendor Options

Medical technology company, **HeraMED Limited (ASX:HMD)** (“HeraMED” or the “Company”) wishes to inform investors of an update to previously announced voluntary escrow arrangements in relation to the 2,743,655 Unlisted options expiring 5/12/21 at an exercise price of AU\$0.00002 per share.

The Company refers to its initial public offering and in particular, Section 3.11 of its Supplementary Prospectus dated 23 November 2018 which had the effect of inserting Section 7.14 into its Prospectus dated 15 October 2018 (together the “Prospectus”). In that Prospectus at Section 7.14, the Company referred to various shares and options, specifically those held by Altshuler Shaham Trusts Ltd (“Trustee”) as trustee for the Minor Vendors (as defined in the Prospectus), as being subject to a voluntary escrow period of 12 months, that was in addition to the 12 month escrow imposed on those securities by ASX.

Following the Company announcement of 20 November 2019 and in consultation with Trustee, the Company has identified that it was never the intention that those options would be subject to any additional 12 months escrow and that it was an oversight that those options were referred to in the Prospectus as being subject to the additional voluntary escrow.

The Company now wishes to confirm that no voluntary escrow applies to those options.

This announcement has been approved by the Board of HeraMED Limited.
