REVIEW OF OPERATIONS AND ACTIVITIES

The Consolidated Entity recorded an operating loss after income tax for the half-year ended 31 December 2019 of \$995,424 (31 December 2018: \$549,854 loss). The net loss for the half-year excluding key non-cash items for depreciation and share based payments expense is \$940,383 (31 December 2018: \$533,221 loss).

RBR's near-term operational future will centre on the broader skills and labour opportunities in the Palma region of northern Mozambique, with activities in and around the capital, Maputo, reducing in scale and importance. As a result, during this reporting period the Company implemented a process of redistributing staff and assets in country to better capitalise on these opportunities.

The Company vacated its premises in Matola (Maputo) at the end of November 2019, redirecting staff, assets and activities as follows:

- In Maputo/Matola, alternative training venues were identified and commercial arrangements put in place to ensure that existing and future clients' needs can be met;
- Fit-for-purpose serviced offices have been secured in the central business district of Maputo in close proximity to the LNG project owners and EPC contractors. A small team of Company employees based in this office are servicing existing clients, undertaking business development, and interacting with the Maputo-based executives in our target market;
- The focus of operations was shifted to Palma in Cabo Delgado, as explained further below.

RBR completed a pivotal deal to access a strategic new operations base, via a sublease to the established Wentworth camp in the town of Palma, which will enable it to scale up operations and train workers for the construction jobs. The camp is located less than 10km from the Mozambique LNG construction site, less than 1km from both the Palma airport and Palma marina and across the road from the well-known Amarula hotel, which is a popular venue for visiting expatriates.

Wentworth was established in the early 2000s as a petroleum exploration camp and was built to oil and gas industry standards at the time. The site is approximately 11 acres (44,000m²) in size, is connected to the national power grid, and provided (at its peak) accommodation, office space, medical and recreational facilities, catering and support infrastructure for over 100 people.

The head-leaseholder of Wentworth intends to undertake significant improvements and further development of the camp. RBR's training and labour hire/recruitment operations at the site complement these development plans.

RBR's tenancy in this unique site provides accommodation for trainers, catering, classrooms and both undercover and open-air facilities for training in health & safety, work-readiness and vocational skills such as scaffolding and rigging. The Company has commenced the training of Mozambican citizens from the local stakeholder communities, sourcing candidates from the Catalisa Youth Training Program, which is an initiative of the Total-led Mozambique LNG Project (Moz LNG). RBR and Catalisa are working together to create an integrated semi-skilled development pathway for the

DIRECTORS' REPORT (Continued)

Catalisa graduates which will guide the further expansion of these activities to the broader communities so that they can participate in the impending employment boom driven by the LNG projects and development of the region.

Funding

During the half-year the company successfully completed the raising of \$1,001,463 before costs via the issue and allotment of 71,533,071 shares at \$0.014 per share.

These funds have primarily been applied to meeting the capital and operational requirements of the Group's Mozambique business units and, to the working capital needs of the Corporate entity here in Australia. As at 31 December 2019 the Group held a balance of \$548,762 in cash and other receivables.

Looking forward to future funding of the necessary infrastructure and workforce development, the Company remains focussed on its existing shareholder base and, as importantly, the international donor agencies which actively support initiatives aimed at skills training in growth employment sectors and social upliftment of African peoples in the stakeholder communities linked to major capital investments. Mozambique ranks high on the list of Countries to be supported.

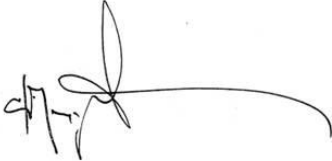

In the absence of sustainable contract revenue, the Company will continue to rely on access to capital from the equity markets, debt and international donor agencies. The group has successfully accessed each of these sources to date.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS
For the half-year ended 31 December 2019

1. BASIS OF PREPARATION OF HALF-YEAR FINANCIAL STATEMENTS

These general purpose financial statements for the half-year ended 31 December 2019 have been prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including Accounting Standard AASB 134: Interim Financial Reporting and other authoritative pronouncements of the Australian Accounting Standards Board ("AASB").

It is recommended that these half-year financial statements and reports be read in conjunction with the Annual Report for the year ended 30 June 2019 and any public announcements made by RBR Group Limited during the half-year in accordance with continuous disclosure obligations arising under the Corporations Act, 2001.

The half-year report has been prepared on the accruals basis and in accordance with the historical cost convention. Cost is based on the fair value of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Consolidated Entity as the full financial report.

For the purpose of preparing the half-year financial statements, the half-year has been treated as a discrete reporting period.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Consolidated Entity's 2019 annual financial report for the year ended 30 June 2019.

In the half-year ended 31 December 2019, the Consolidated Entity has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2019.

It has been determined by the Consolidated Entity that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to the Consolidated Entity's accounting policies.

Going Concern

The Consolidated Entity incurred a loss for the half-year of \$995,424 (2018: \$549,854) and a net cash outflow from operating activities of \$958,238 (2018: \$586,607).

At 31 December 2019 the Consolidated Entity had cash assets of \$421,917 (30 June 2019: \$412,821) and working capital of \$384,806 (30 June 2019: \$356,701). In the six months to 31 December 2019 the Company raised \$1,001,463 before costs.

Although the above is indicative of a material uncertainty, the Company maintains the ongoing support of its major shareholders and capital markets advisers in ensuring continuing access to equity funds. The Company completed a capital raise in September and November 2019 that included free attaching options with an expiry price of \$0.014 expiring 31 August 2021. The Company is confident that it will be able to access additional funds through the equity markets during the year to allow for operating activities to continue, if required. Based on this information, the Directors consider it appropriate that the financial statements be prepared on a going concern basis.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (Continued)
For the half-year ended 31 December 2019

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF RBR GROUP LIMITED

Conclusion

We have reviewed the accompanying half year financial report of RBR Group Limited ("the Company") and its controlled entities ("the Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2019 and the condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half year financial report of the Group is not in accordance with the *Corporations Act 2001* including:

- a) giving a true and fair view of the Group's financial position as at 31 December 2019 and of its financial performance for the half year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Emphasis of matter – material uncertainty related to going concern

Without modifying our conclusion, we draw attention to Note 1 to the financial report which indicates that the Group incurred a loss for the half year of \$995,424 and had net cash operating outflows of \$958,238 for the period. These conditions, along with other matters as set out in Note 1, indicate the existence of a material uncertainty that may cast doubt on the Group's ability to continue as a going concern and therefore, the Group may not be able to realise its assets and discharge its liabilities in the ordinary course of business.

Directors' responsibility for the half year financial report

The directors of the Company are responsible for the preparation of the half year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half year financial report is not in accordance with the *Corporations Act 2001* including; giving a true and fair view of the Group's financial position as at 31 December 2019 and its financial performance for the half year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

INDEPENDENT AUDITOR'S REPORT (Continued)

As the auditor of the Company, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
