PRINCIPAL ACTIVITIES

Botanix Pharmaceuticals is a clinical stage dermatology company dedicated to developing next generation therapeutics for the treatment of serious skin diseases, including acne, atopic dermatitis and psoriasis. The Company's mission is to improve the lives of patients by providing new treatment options for conditions that are currently inadequately addressed or treated with therapeutics burdened with significant side effect profiles. Botanix is harnessing the untapped potential of a synthetic active pharmaceutical ingredient, known as cannabidiol, which has a well-established safety profile.

REVIEW OF OPERATIONS AND RESULTS

Net loss after income tax of the Company for the six months ended 31 December 2019 was \$6,995,671 (2018: net loss \$4,181,110). The net loss is primarily attributable to expenditure in relation to advancing our clinical research and development activities.

OPERATING AND FINANCIAL REVIEW (CONTINUED)

OPERATIONS

BTX 1503: proceeding to FDA end-of-Phase 2 meeting and preparation for the Phase 3 study

In October 2018, Botanix released results from the BTX 1503 Phase 2 clinical study ("Phase 2 Study"), which evaluated the safety and efficacy of BTX 1503 in patients with moderate to severe acne. The efficacy and safety results demonstrated that BTX 1503 as a once daily application had the best performance, which from a compliance and commercial perspective, is the ideal dosing regime.

The strength and statistical significance of the Australian data combined with the overall safety and efficacy provides confidence to proceed with the FDA end-of-Phase 2 meeting, expected to be held in 2Q CY2020. Outcomes from this meeting will inform the study design and preparations of the BTX 1503 Phase 3 clinical study.

BTX 1204: recruitment completed and on track to report top line data in 1Q CY2020

During the half year period, Botanix completed patient recruitment for the BTX 1204 Phase 2 atopic dermatitis clinical study and top line data is on track to be released in 1Q CY2020. The 12-week randomised, double-blind and vehicle-controlled study evaluates the safety and efficacy of BTX 1204 in patients with moderate atopic dermatitis. 211 patients were enrolled across leading dermatology clinics across the US, Australia and New Zealand. This study leverages existing data from the BTX 1204 Phase 1b clinical study, which supported the efficacy and safety potential of BTX 1204.

BTX 1702: study initiated with recruitment commencing in 1Q CY2020

In September 2019, Botanix completed BTX 1702 formulation development and pre-clinical studies, for the treatment of papulopustular rosacea. The Company received ethics approval for its BTX 1702 Phase 1b clinical study in late December 2019. The 6-week randomised, double-blind, vehicle-controlled study evaluates the safety and tolerability of BTX 1702 in patients with moderate to severe papulopustular rosacea. Patient recruitment is expected to commence in 1Q CY2020, with plans to enrol 120 patients across six dermatology clinic sites in Australia.

Antimicrobial platform: awarded a new grant and BTX 1801 Phase 2 set to commence shortly

In July 2019, Botanix released data from its antimicrobial development program, conducted in collaboration with Prof. Dena Lyras at Monash University's Biomedicine Discovery Institute, Department of Microbiology. The data from the studies showed that a new drug candidate, AB 2367, has potent activity against hypervirulent strains of *Clostridium difficile*.

In October 2019, Botanix was awarded a new *Innovation Connections Grant* of A\$50,000, from the Federal Government's department of AusIndustry. The grant accelerates Botanix's medicinal chemistry program targeting the creation of new synthetic and patentable analogs of CBD and investigate the antimicrobial activity of CBD. This program is being conducted in collaboration with The University of Queensland's Institute for Molecular Bioscience.

Botanix continued to assess development options of its antimicrobial platform, and progressed development work to prepare BTX 1801 for a Phase 2 clinical study. The Company has completed optimised dosing and formulation work and has identified targeted indications and applications that leverage the unique properties of CBD as a powerful antibiotic with commencement of the study expected in late 1Q CY2020.

DIRECTORS' REPORT (CONTINUED)

Subsequent to the reporting period

On 29 January 2020, Botanix announced the receipt of a R&D Tax Incentive refund of A\$7,560,856 for the 2018 / 2019 financial year. In February 2020, Botanix announced updates to its Board composition, with Matthew Callahan re-joining the Botanix Board as an Executive Director and Robert Towner stepping down from his role as Non-Executive Director.

There have been no other matters noted subsequent to period end.

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

The Auditor's Independence Declaration is set out on page 6 and forms part of the Directors' Report for the half year ended 31 December 2019.

Signed in accordance with a resolution of the Directors.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2019

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

The half-year financial report is a general purpose financial report prepared in accordance with AASB 134 'Interim Financial Reporting' and the Corporations Act 2001.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity. The half-year financial report should be read in conjunction with the annual financial report of Botanix Pharmaceuticals Limited as at 30 June 2019 which was prepared in accordance with the requirements of the Corporations Act 2001 and applicable Australian Accounting Standards. It is also recommended that the half-year financial report be considered together with any public announcements made by the company during the period 1 July 2019 to the date of this report in accordance with the continuous disclosure obligations of the ASX listing rules.

(a) Basis of Accounting

The half-year financial report has been prepared on the basis of historical cost, except where stated. For the purpose of preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

The half-year financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

(b) Segment Reporting

Operating segments are reported in a manner that is consistent with the internal reporting provided to the Board of Directors. The Board, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the strategic steering committee.

(c) Adoption of New and Revised Accounting Standards

AASB 16 *Leases* became applicable for the current reporting period and the Group had to change its accounting policies and make adjustments as a result of adopting this standard.

The impact of the adoption of these standards and the new accounting policies are disclosed below.

AASB 16 *Leases* supersedes AASB 117 *Leases*. The Group has adopted AASB 16 from 1 July 2019 which has resulted in changes classification, measurement and recognition of leases. The changes result in almost all leases where the Company is the lessee being recognised on the Consolidated Statement of Financial Position and removes the former distinction between operating and finance lease. The new standard requires recognition of a right-of-use asset (the leased item) and a financial liability (to pay rentals). The exceptions are short-term, and low value leases.

The Group has adopted AASB 16 using the modified retrospective approach under which the reclassifications and the adjustments arising from the new leasing rules are recognised in the opening Consolidated Statement of Financial Position on 1 July 2019. There is no initial Impact on retained earnings under this approach. The Group has not restated comparatives for the 2019 reporting period.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2019

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Adoption of New and Revised Accounting Standards (continued)

As at 30 June 2019, the Group had no non-cancellable operating lease commitments. The Group leases premises in Philadelphia in the United States of America.

From 1 July 2019, where the Company is a lessee, the Group recognised a right-of-use asset and a corresponding liability at the date which the lease asset is available for use by the Group. Each lease payment is allocated between the liability and the finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a consistent period rate of interest on the remaining balance of the liability for each period.

The lease payments are discounted using an interest rate implicit in the lease, If that rate cannot be determined, the Company's incremental borrowing rate is used, being the rate the lessee would have to pay to borrow funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

No Extension options are included in leases across the Group. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option. Extension options are only included in the lease term if the lease is reasonably certain to be extended.

On initial application right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the Consolidated Statement of Financial Position as at 30 June 2019.

There were no onerous lease contracts that required an adjustment to the right-of-use assets of initial application.

On adoption of AASB 16, the Group recognised lease liabilities in relation to leases which had previously been classified as operating leases under the principles of AASB 117. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 July 2019. The weighted average lessee's incremental borrowing rate applied to lease liabilities on 1 July 2019 was 13.6%.

In the statement of cash flows, the Group will recognise cash payments for the principal portion of the lease liability within financing activities, cash payments for the interest portion of the lease liability as interest paid within operating activities and short-term lease payments and payments for lease of low-value assets within operating activities.

If Extension and termination options were included in the property lease this would then become an area of judgement. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2019

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Adoption of New and Revised Accounting Standards (continued)

Impact

The change in accounting policy resulted in an increase of a right-of-use asset of \$431,899 and a corresponding lease liability of \$431,899 in respect of all these leases, other than short-term leases and leases of low-value assets. The net impact on retained earnings on 1 July 2019 was \$nil.

Practical expedients applied

In applying AASB 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- The accounting for operating leases with a remaining lease term of less than 12 months as at 1 July 2019 as short-term leases, with no right-of-use asset nor lease liability recognised; and
- The use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

Impact of standards issued but not yet applied by the entity

There were no new standards issued since 30 June 2019 that have been applied by the Company. The 30 June 2019 annual report disclosed that the Company anticipated no material impacts (amounts recognised and/or disclosed) arising from initial application of those standards issued but not yet applied at that date, and this remains the assessment as at 31 December 2019.

⁽¹⁾ Other receivables are non-trade receivables, are non-interest bearing and have an average term of 3 months and generally receivable from the ATO for GST.

Accounting policy

Other receivables are generally due for settlement within 90 days.

Prepaid expenses are for a period not exceeding 12 months.

Research and Development Grants are brought to account only after being determined and lodged with the ATO for assessment.

Impairment – Trade receivables

For trade and other receivables, the group applies the simplified approach permitted by AASB 9 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Botanix Pharmaceuticals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Botanix Pharmaceuticals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year then ended, and notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2019 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2019 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's review report.
