Shannon Coates, Company Secretary

## OPERATING RESULTS & REVIEW OF OPERATIONS

### Operating results

For the period ended 31 December 2019, the consolidated loss attributable to members of the Group after providing for income tax amounted to \$USD4,508,111 (2018: loss of \$USD3,924,366) and net assets of \$USD8,497,514 (30 June 2019: net assets of \$12,156,491).

DigitalX had a challenging first half of the financial year operationally with headwinds from falling digital asset prices and the winding up of its former operations in media and advisory services. To address these changes, DigitalX restructured operations to focus on executing on its strategy in the blockchain and digital asset management market. The restructure also saw the return of Mr Toby Hicks as Chairman in July 2019, who was a Director of the Company from 2016 to 2018. These changes are intended to bring a significantly reduced cost profile going forward.

The two business divisions that the Company is focussed on growing and have an operational update on below are;

- Blockchain consulting and development; and
- Asset management.

### Blockchain consulting and development

DigitalX began the financial year with a goal to deliver technical solutions to the enterprise market which represented a change from its former client base in the digital asset market. With blockchain technology now being tested and proven in production environments, the Company identified that there is significant value to enterprise from the adoption and implementation of the technology.

The Company was engaged to complete a blockchain solution design project, alongside a large international consulting firm, for a government agency in the heavily regulated gaming and gambling industry. DigitalX continues to explore opportunities with this firm to provide specialised blockchain consulting services.

DigitalX has collaborated with professional service firms and has been facilitating blockchain discovery workshops for senior executives in large organisations across a range of target industries. The workshops give practical insights into how blockchain is being adopted today, and where organisations can realise its value in their business. The Company has been engaged in business development activities with this sales pipeline and continues to progress these potential projects. In further growing its blockchain consulting and development business, DigitalX has had preliminary discussions with strategic technology providers and consulting partners that can provide greater speed to market and additional client introduction opportunities. The building of this pipeline and the growth of engagement with business about the availability and utility of blockchain are seen as key drivers for revenue growth in the future.

Showcasing our expertise and capacity to deliver project outcomes, DigitalX completed development of the blockchain smart contract for Bullion Asset Management's (BAM) xbullion project, which successfully completed an external audit. The smart contract provides minting, redemption, and fee collection functionality, while also reducing operating costs for the business by minimising transaction

costs. DigitalX is providing technical services to integrate the smart contract minting and redemption functionality to exchanges and web portals via API and is pleased to see the initial interest for access to the product.

**Asset Management**

The Group’s asset management division, DigitalX Asset Management, offers professionally managed investment products for qualified investors that invest in the leading digital assets. Earlier in the period, the division built out a strategy and network for a potential launch in Europe and Panama but ultimately the Board resolved to focus on the significant opportunity in digital assets in the Australian market. As part of this refocus, expenses for the group are forecast to be reduced by ~USD\$0.65m per annum.

Over the period, the division operated its Digital Asset Fund, which invests in the leading digital assets. The Digital Asset Fund has gradually been increasing its weighting towards Bitcoin and has significantly reduced its weighting towards unlisted investments based on market demand.

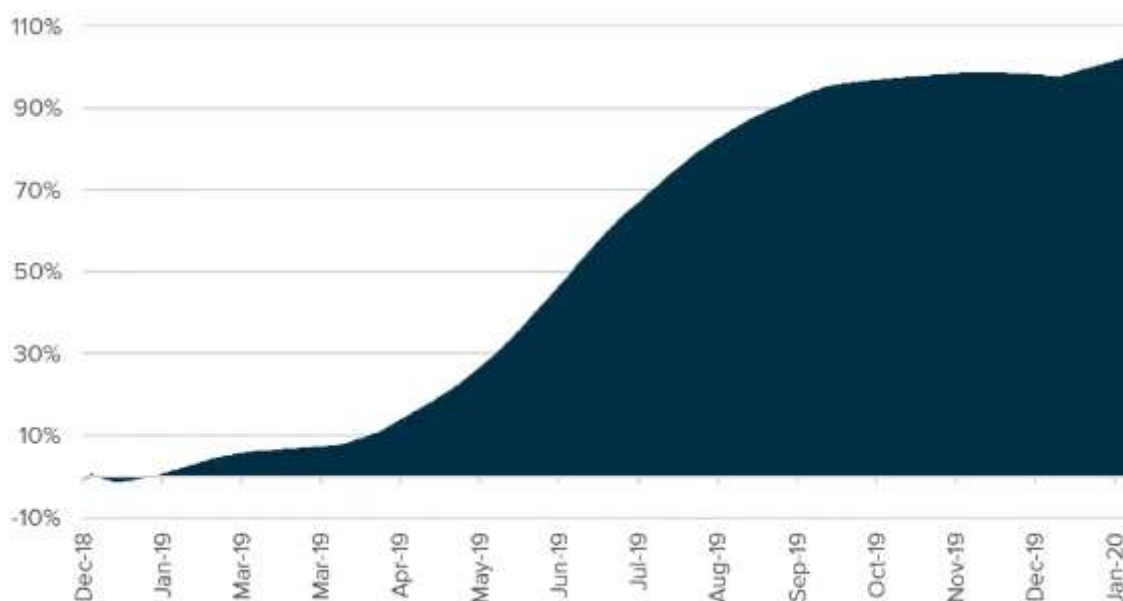

In November 2019, the Company announced the launch of its second asset management product, the DigitalX Bitcoin Fund, to provide exposure to Bitcoin for qualified investors. The Bitcoin Fund is also available through a traditional unlisted fund structure to offer qualifying investors, including family offices and high net worth individuals, a low-cost and familiar vehicle to gain exposure to this growing asset class. The DigitalX Bitcoin Fund was seeded with 215 bitcoin from the Group’s existing holding post period end.

An initial investor and distribution partner roadshow was completed at the end of November 2019 in Sydney, Melbourne and Perth to present the fund opportunity and gain market feedback ahead of the official launch of the fund. The Group is continuing to build out its sales channels which includes a number of wealth management platform listings and distribution partners. The Bitcoin Fund is now open with a small number of investors outside of DigitalX’s holding and the Company is looking forward to more success in this division with a clear directive and focus on growing assets inside the two funds.

**Other**

DigitalX acquired a 17.5% shareholding in Bullion Asset Management (BAM), who manage xbullion. Xbullion will offer digitally tradeable access and ownership of physical gold bullion that is vaulted, audited and insured. As seen in Table 1 below, the growth in this asset backed digital asset sector of the blockchain market is extremely strong. BAM received additional capital investments which enabled the business to scale the team to include an experienced Chief Investment Officer, Director of Operations and Head of Asia and now sits poised to deliver the launch with an initial focus on Asian markets. BAM is currently reviewing Memorandum of Understandings (MoUs) with strategic partners in this region to enhance the initial launch.

**Table 1. Monthly Stablecoin market capitalisation growth (%)**

Alongside the focus on growth in these two divisions, and BAM, the Company has a team with substantial technical, corporate, operational and compliance expertise and has access to a very strong pipeline of deal flow in the blockchain sector. The Company has also identified that a number of blockchain technology companies in the sector have been developing promising technology and that

funding for the sector is currently limited. To leverage this and the synergies between the business divisions, DigitalX continually reviews opportunities for incubation and acceleration in the sector.

As part of the Company update announced on 5 September 2019, DigitalX exited business activities with FutureEdge Capital and Coincast Media for strategic reasons. In line with this restructure of operations, Non-Executive Directors agreed to a reduction in fees and significant cost-saving measures have been implemented.

In addition to the above, the Group also announced the following significant changes and updates to the market during the period which contributed to the overall performance and position of the Group at the end of the period:

### Post Period Activity & Future Developments

DigitalX has continued to execute on its strategy in the blockchain and digital asset sector in CY2020. While the Company acknowledges there has been several market cycles in the industry thus far, the validation for the industry continues to come and DigitalX is looking forward to utilising its expertise and knowledge in the market to drive positive results for shareholders. The Board believes that, despite the discussion on blockchain over the last few years, the development and utilisation of blockchain on a broader scale remains in the very early stages, meaning significant upside and development remains. Significant industry validation came with the announcement on 7 February 2020 by Minister Karen Andrews of the Australian National Blockchain Roadmap. The recommendation to establish a model for collaboration between industry, academia and government on progressing key blockchain use cases so that Australia can take advantage of the AUD\$3 trillion in business benefits from adoption of blockchain technology is a positive one for the Company and the industry.

From 1 January 2020, DigitalX also early-adopted the fourth edition of the ASX Corporate Governance Principles. As part of this adoption, the Company adopted the following values:

### Vision

To create the financial and technical solutions for achieving global consensus.

### Mission

We achieve consensus by:

- Focusing on the markets we know
- Building a deep understanding of our customer
- Challenging the status quo by asking why
- Driving efficiency by building trust
- Decentralising global business
- Connecting the best people

Values

Our culture is built on blocks.

**Support the network**

We work together to execute on our vision.

**Build trust with transparency**

We acknowledge the elephants in the room.

**Never stop developing**

We constantly seek out new knowledge to improve.

**Seek consensus**

We hash it out and proceed with a shared understanding.

**Execute your part**

We own our domain and deliver to a high level.

**Solving hard problems is worth the effort**

We thrive when faced with a tough challenge.

The Company also adopted a new Whistleblower policy and in February 2020, undertook a training session for all staff on the requirements and obligations under the whistleblowing policy.

**Subsequent events**

No other matter or circumstance has arisen since 31 December 2019 that has significantly affected the Group's operations, results or state of affairs, or may do so in future years other than those set out in note H3.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7.

The Directors' Report is signed in accordance with a resolution of the Directors made pursuant to Section 306(3) of the Corporations Act 2001.

On behalf of the Board of Directors.

## DIRECTORS' DECLARATION

In the opinion of the Directors of DigitalX Limited (the 'Company'):

- (a) The financial statements, notes and the additional disclosures of the consolidated entity set out on pages 10 to 37 are in accordance with the Corporations Act 2001 including:
  - (i) Giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and of its performance for the half-year then ended; and
  - (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.
- (b) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with Section 295A of the Corporations Act 2001 for the half-year ended 31 December 2019.

Signed in accordance with a resolution of the Directors made pursuant to Section 303(5) of the Corporations Act 2001.

On behalf of the Board of Directors.

## INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of DigitalX Limited

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of DigitalX Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year then ended, and notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2019 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Directors' responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2019 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

AUDITORS' REVIEW REPORT

**Independence**

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's review report.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF-YEAR END 31 DECEMBER 2019

The notes to the financial statements have been set out under the following main headings:

- A. Legend
- B. Basis for preparation (B1)
- C. Key operating & financial results (C1 to C4)
- D. Capital & risk management (D1 to D6)
- E. Financial position (E1 to E2)
- F. Equity (F1 to F2)
- G. Group structure (G1 to G3)
- H. Other disclosures (H1 to H4)

## A - LEGEND

**CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS**

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

**Critical judgements in developing and applying accounting policies**

The following are the critical judgements, apart from those involving estimations (see Notes below), that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

- Note C3 – Revenue recognition
- Note D2 – Digital assets
- Note D2 – Fair value of digital assets
- Note D3 – Consolidation of DigitalX Fund

**Key sources of estimation uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

- Note F2 – Valuation of share-based payments

**ADDITIONAL COMMENTARY**

Additional management commentary on the item has been provided above what is required under legislation or accounting standards for stakeholders to understand the financial report.

## B - BASIS FOR PREPARATION

The section below includes information regarding how the overall financial statements are prepared including the key accounting policies and accounting standard frameworks applied.

### B1 - SIGNIFICANT ACCOUNTING POLICIES

#### Statement of compliance

The half year financial report is a general-purpose financial report prepared in accordance with the Corporations Act 2001 and AASB 134: Interim Financial Reporting. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 Interim Financial Reporting. The half year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent financial report which can be located [here](#).

#### Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost except for the revaluation of certain assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. The half year financial report is presented in US dollars unless stated otherwise.

The accounting policies and methods of computation adopted in the preparation of the half year financial report are consistent with those disclosed in the Group's Annual Report for the Financial Year Ended 30 June 2019 with the except of the items noted below;

- Leases – Refer to [Note E2](#) for impact and discussion.

#### Going concern

At the date of this report the Consolidated Entity's has a strong working capital position and its cash flow forecast indicates that it expects to be able to meet its minimum commitments and working capital requirements for the twelve-month period from the date of signing the financial report.

## C - KEY OPERATING & FINANCIAL RESULTS

The section below includes information regarding how the Group performed during the financial year including segment analysis and detailed breakdowns of items in the Statement of Profit or Loss and Other Comprehensive Income.

**This section includes the following disclosures:**

**C1** Significant changes in the current reporting period (Page 20)

**C2** Segment Information (Page 20)

**C3** Operating Financial Information (Page 23)

**C4** Earnings per share (Page 24)

**C1 SIGNIFICANT CHANGES DURING THE REPORTING PERIOD**

In addition to the commentary set out in the Directors' Report, the financial position and performance of the Group was particularly affected by the following events and transactions during the half-year ended 31 December 2019.

Event	Description of impact	Impact
<b>Change in digital asset market</b>	Over the half-year the price of bitcoin fell by 34% from \$10,817 to a closing pricing of \$7,141 at 31 December 2019. Given the Group's bitcoin treasury holdings and the consolidation of the DigitalX Fund the results for the period were materially impacted by the decline in fair value of \$3,447,693.	<a href="#">Note C3</a> <a href="#">Note D2</a>
<b>Adoption of Leasing standard</b>	During the half-year, the Group adopted the new leasing standard, AASB 16 Leases, from 1 July 2019. As a result there has been an increase to assets of \$340,722 and liabilities of \$378,223 at 31 December 2019. Further details on the change of policy are set out in Note E3.	<a href="#">Note E3</a>
<b>Issue of shares to Bullion Asset Management (BAM)</b>	During the half-year, the Group issued 9,411,764 shares at \$AUD0.085 as the final tranche of the investment into Bullion Asset Management Pte Ltd (the management company of the xbullion project). As a result of the share issue the investment in BAM increased by \$544,680 with a corresponding increase in equity.	<a href="#">Note D3</a> <a href="#">Note F1</a>

## C2 SEGMENT INFORMATION

### Segment reporting

AASB 8 requires operating segments to be identified based on internal reports about components of the Group that are regularly reviewed by the Chief Operating Decision Maker in order to allocate resources to the segment and to assess its performance.

Based on the information used for internal reporting purposes by the Chief Operating Decision Maker (CODM), being the Board, which makes strategic decisions, at 31 December 2019 the Group operated three segments, Blockchain consulting and development, Asset Management and Other. In the previous corresponding period (period ended 30 June 2019) the Group had three reportable segments: ICO Advisory, Funds Under Management, and Technology.

In light of the company update [announcement](#) on the 5 of September 2019, the segment names and descriptions have been updated to reflect the current operations. However, there has been no material impact on the comparatives as a result of this.

### Segment description

---

#### BLOCKCHAIN CONSULTING

The Group provides consulting, technical due diligence, solution design and development to businesses by utilising distributed ledger solutions and best of blockchain technologies.

---

#### ASSET MANAGEMENT

The asset management division was setup in 2018 to give high net worth and institutional investors access to a portfolio of digital assets. DigitalX operates two funds focussed on digital assets.

---

#### OTHER

Amounts disclosed in the segment primarily relates to Group-level functions including governance, finance, legal, risk management, company secretarial and management of the corporate entity.

**C4 - EARNINGS PER SHARE (EPS)****Earnings per share***Basic earnings per share*

Basic earnings per share is calculated by dividing the profit/(loss) after tax attributable to equity holders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for bonus elements in ordinary shares issued or cancelled during the period.

*Diluted earnings per share*

Diluted earnings per share adjusts the figures used in determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

<sup>1</sup> Potential ordinary shares in the form of share options and rights are not considered to be dilutive. As the Group made a loss for the prior period, diluted earnings per share is the same as basic earnings per share for that period.

## D - CAPITAL

The section below includes information regarding how the Group manages its capital assets including the positions at half-year end.

The section includes the following disclosures:

D1 Cash and cash equivalents (Page 26)

D2 Digital assets (Page 26)

D3 Investments (Page 27)

**D1 CASH AND CASH EQUIVALENTS****Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, cash held with digital asset exchanges and custodians, other short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Cash and cash equivalents do not include the Group's holdings of digital assets which are classified as inventory (refer to D2).

<sup>1</sup>Cash deposits at call include cash balances on exchanges. The balance originates following a liquidation of digital assets.

**D2 - DIGITAL ASSETS****Estimates & Judgements****(a) Digital assets**

Management note that the topic of digital assets and the accounting for digital assets continues to be considered by the International Accounting Standards Board (IASB) and continues to monitor new comments and interpretations released by the Board and other standard setters from around the world.

In line with this, the Group has considered its position for the half-year ending 31 December 2019 and has determined that the Group's digital assets fall into 3 categories:

- Inventory method (historical method used by the Group)
- Intangible asset method (the method noted by the IASB in its most recent deliberations)
- Financial asset method (used where the digital asset meets the criteria of a financial asset)

Management notes that under the 3 methods noted above, the treatment continues to be to measure digital assets at fair value (unless otherwise disclosed) under the respective accounting standards. This is consistent with the policy at 30 June 2019.

**(b) Fair value of Digital Assets**

Digital assets (including bitcoin) is measured at fair value using the quoted price in United States dollars from a number of different sources with the primary being Coin Market Cap ([www.coinmarketcap.com](http://www.coinmarketcap.com)) at closing Coordinated Universal Time. Management considers this fair value to be a Level 1 input under the AASB 13 *Fair Value Measurement* fair value hierarchy as the price on the quoted price (unadjusted) in an active market for identical assets.

Management uses a number of exchanges and custodians in order to provide the Group with appropriate size and liquidity to provide reliable evidence of fair value for the size and volume of transactions that are reasonably contemplated by the Group.

Unlisted digital assets are fair valued using a combination of Level 2 and Level 3 techniques.

**E2 - NON-CURRENT ASSETS – RIGHT OF USE****(A) Change of accounting policy**

On 1 July 2019, the Group adopted the new leasing standard, *AASB16: Leases*, which replaced the existing standard, *AASB117: Leases*.

Under the new standard, leases are no longer classified as operating leases or finance leases as they had been previously under AASB 117.

In applying AASB16 from 1 July 2019 the Group has adopted the new standard retrospectively but has not restated comparatives for the 2018 or 2019 reporting comparatives, as permitted under the transitional provisions of the new standard. The reclassifications and impact of the new standard are therefore recognised in the opening statement of financial position on 1 July 2019.

**(B) Adjustments recognised on adoption of AASB16**

At the time of the change, the Group only had one lease classified as an operating lease, being the lease for the Blockchain Centre entered into in July 2018 for a term of 5 years, that was required to be recognised:

**Lease liability**

The lease liabilities were recognised at the present value of remaining lease payments, discounted using the Group's incremental borrowing rate (8.8%) at the time of the adoption.

<b>Right of use asset at 31 December 2019</b>	<b>340,772</b>

<sup>1</sup> The net impact to retained earnings at 1 July 2019 was \$26,696

<sup>2</sup> The Group does not currently recognised deferred tax assets, as a result no deferred tax impact has been recognised as a result of the change in the standard.

**(C) Other transition disclosures**

- The Group has applied several practical expedients under the new standard as permitted. The expedients include:
  - Use of single discount rate
  - Reliance on previous assessment as to whether lease(s) are onerous
  - Exclusion of indirect costs for the measurement of right of use assets and initial application
- Lease payments for property leases includes fixed payments less any incentives, variable payments based on a rate and amounts expected to be payable under residual value guarantees.
- Right of use assets for property leases include the initial measurement of the lease liability plus initial direct & restoration costs.

<sup>2</sup> The Group has raised a \$USD2,016,188 impairment provision against the costs capitalised for its AirPocket intangible asset. AirPocket's gross capitalised cost totals \$USD2,016,188. This provision was recorded in the prior period as a result of a lack of historical data with respect to the estimates used in determining the fair value of AirPocket. The provision is to be reassessed at the next reporting date with anticipation that more information will be available to assess the recoverable amount of the asset.

**Rights Attaching to Shares**

The rights attaching to fully paid ordinary shares arise from a combination of the Company's constitution, statute and general law. Fully paid ordinary shares carry one vote per share and carry a right to dividend.

**Dividends**

There are no dividends paid or declared during the period.

**F2 – RESERVES & NON-CONTROLLING INTEREST****Nature of reserves & non-controlling interest**

Option premium and share-based payment reserve	Reserve is established to record balances pertaining to share options and performance rights granted for services provided to the Company by employees and vendors.
Convertible note reserve	Reserve is established to record amounts required to be recognised in equity for convertible notes that meet the definition of compound instruments.
Foreign Exchange Reserve	Exchange differences arising on translation of the foreign controlled entity are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.
Non-controlling interest	This is used to record transactions with non-controlling interests that do not result in a loss of control.

<sup>2</sup> Balance is the net amount inclusive of issues, redemptions and changes in interest in the DigitalX Fund.

### Valuation of options and performance rights

The fair value of the share options and performance rights at grant date are determined using a binomial option pricing method that takes into account the exercise price, the term of the option, the probability of exercise, the share price at grant date and expected volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The following tables list the inputs to the model used for valuation of the options:

#### Options issued to Director

Item	Tranche 1
Volatility (%)	119.92%
Risk-free interest rate (%) – range	1.04%
Expected life of option (years)	5
Exercise price per terms & conditions	\$AUD0.10
Underlying security spot price	\$AUD0.04
Valuation date	10 July 2019
Expiry date	30 June 2024
Valuation per option	\$AUD0.046

#### Valuation of performance rights

The fair value of performance rights with market-based conditions at grant date are determined using a Monte-Carlo simulation method that takes into account the market conditions, the term of the vesting period, the share price at grant date and expected volatility of the underlying share across a number of simulations.

Item	Tranche 1	Tranche 2
Market based condition – Share price target over 15 days	\$AUD0.09	\$AUD0.09
Volatility (%)	121.84%	117.18%
Expected vesting period (years)	3	3
