

ASX ANNOUNCEMENT

ASX: NWM

07 April 2020

Exploration activities at the Arunta West Gold-Copper Project postponed due to COVID-19 Commonwealth Biosecurity restrictions

Norwest Minerals Limited (“Norwest” or “the Company”) (Australia ASX: NWM) will delay commencement of its 2020 exploration activities at the Arunta West Gold-Copper Project located in Western Australia, 600 kilometres west of Alice Springs.

The State and Federal Governments have implemented new restrictions for access to designated regions in Western Australia to protect the health and wellbeing of residents in the Kimberley and remote Aboriginal communities.

Access has been restricted into various regions including parts of the Shire of East Pilbara that encompass the communities of Jigalong, the Martu homeland communities and Kiwirrkurra where the Arunta West Gold-Copper exploration tenements are located.

Norwest intends to recommence activities once travel restrictions have been lifted, and will update the market at this time.

This ASX announcement has been authorised for release by Charles Schaus, Chief Executive Officer of Norwest Minerals Limited

The Arunta West Gold Project is located well within the Governments Biosecurity Area thus restricting all project exploration activities until further notice.
