Q3 FY20 March Quarter Update and Cash Commentary

Yowie Group LTD (ASX: YOW) (the “Group” or “Yowie”) wishes to provide the following update for the quarter ending 31 March 2020:

Q3 Summary

- Q3 FY20 sales were disappointing due to challenging market conditions with significant competitive activity from the major confectionery companies led by the ramping up of the new chocolate brand launch by the largest global novelty competitor.
- The onset of COVID-19 shutdowns negatively affected March sales with consumers focused on staple purchasing in the first half of the month and a huge drop in retailer foot traffic the back half of March.
- US distribution for Core slowed with the current market circumstances, though Bites and Gummies distribution is expanding, albeit slowly.
- Q3 EBITDA loss of -US\$682k due to soft sales, though not as severe as Q2’s -US\$955k loss. YTD EBITDA loss of -US\$1,871k versus -US\$1,162k loss previous year.
- Negative operating cash flow -US\$1,267k for the quarter; net cash flow of -US\$1,935k for the quarter versus -US\$1,768k pcq.

Q3 FY20 March Quarter Cash Review

- For the March quarter, Yowie reported US\$1.78m of cash receipts from customers.
- US\$3.05m was spent on administration, manufacturing and operating costs, net of interest received.
- US\$0.54m was spent on investing activities and there was a foreign exchange loss of US\$0.12m.

Q3 Financials – Update

Q3 net sales were US\$2,364k, -36% versus the pcp, slightly ahead of Q2's US\$2,092k, due to significant competitive activity throughout the quarter, including the new chocolate line launch related to our largest novelty competitor. Also, COVID-19 related shutdowns in the US and Australia negatively affected March sales. Specifically, the buying rush in the first 2 weeks of March were focused on consumer staples, including bagged chocolate, but immediate consumption and novelty confections were not a priority. The back half of March showed a huge drop in retailer foot traffic. Also, shoppers were not bringing children for shopping, further affecting novelty sales.

Group EBITDA (unaudited) loss for the quarter was -US\$682k compared to -US\$407k in the previous year; YTD loss was -US\$1,871k compared to -US\$1,162k due to the sales decline and increased legal fees. Margins remained healthy at 49% for the YTD compared to 48% for the pcp.

Revenue Guidance

The quarter trend and the uncertainty of the current market environment resulting from COVID-19 confirms the overall outlook from the December report. We will fall short of FY19 revenue affecting EBITDA. Operating cash flow for Q4 will be significantly improved to 2nd and 3rd quarter cash outflows.

Future Cash Flow

Despite lower sales, Yowie's cash reserves will not be reduced by operations during the next several months, due to a combination of current high inventory levels as a result of preparing for temporary manufacturing shutdown and further salary and cost reductions.

US Distribution

Regarding distribution, Yowie has slowed slightly, except for the critical Food channel, due to the erratic market conditions. For the past 52 weeks ending 21 March 2020 compared to the same period last year, ACV%:

Despite the challenging environment, previously announced core Yowie in Food Lion (>1,000 grocery stores in the US Southeast) will be distributed as scheduled in Q4. Distribution continues to be a focal point for our team in both the US and Australia, but timing will become an issue until business gets back to normal.

New Product Updates

- Our core Multipack (2 Yowie + an extra toy) will hit the back of store candy aisle in the US's largest retailer starting May, as scheduled.
- Both US Bites and Gummies consumer response has been positive, and we are gaining distribution across Grocery, Drug and Convenience. Ecommerce has been gaining strength as well.
- We have other products in the planning stage with announcements coming in Q4.

Outlook

Not only are we dealing with extremely competitive US and Australian confectionery categories, but the current market environment presents a high level of uncertainty. We continue to be aggressive in expanding our consumer awareness and building the Yowie story to:

1. Continue expanding distribution in the US and Australia across all channels of trade, including Ecommerce and Club stores, to expand buying opportunities for consumers. Once the market settles, we anticipate additional major retailers to commit.
2. Develop and bring to market new items consistent with our brand mission to educate consumers about conservation and endangered species.
3. Continue to focus on fiscal discipline, including planned administration cost cuts, to keep margins healthy and allow us to invest in the trade.
4. Yowie is actively seeking strategic partnerships that can help the company compete more effectively in the US and Australian confection markets.
